Lebanon Springs Railroad.

The Boston Journal says that notwithstanding the recent decision of the Supreme Court of Vermont, practically affirming the validity of the bonds issued in aid of the Lebanon Springs Railroad, the aggrieved bonded towns of Wallingford, Mount Tabor, Dorset, Arlington, Shaftsbury and Bennington still hold out, and committees to take the matter in hand and report at the coming March meeting from all the towns except Dorset held a conference at Bennington on the 7th inst., at which the general sentiment was voiced in declaring the bonds an unwarranted swindle. After consultation with lawyers the payment of the debt or accrued interest was postponed. Some of the towns are quite bitter over the situation, and propose to exhaust every legal defence before submitting. Bennington has already paid about $3,000 in fighting her part.

Statement of the Public Debt of the United States, February 1, 1878.

DEBT BEARING COIN INTEREST.

	Amount Outstanding.	Accrued Interest.
5 per cent. bonds, 1858	$260,000 00	$1,083 33

7 3-10 per cent. 3 years' treasury notes, 1864-65	169,900 00	9,079 78
6 per cent. certificates of indebtedness, 1862-63	5,000 00	313 48
4 to 6 per cent. temporary loan, 1864	3,060 00	256 06
5 per cent. certificates called	5,000 00	394 31
Aggregate of debt on which interest has ceased since maturity	$11,599,620 26	$558,103 25

DEBT BEARING NO INTEREST.

Demand notes, 1861-62	$53,497 50	
Legal tender notes, 1862-63	349,119,426 00	
Certificates of deposit	31,115,000 00	
Fractional currency, 1862-3-4	17,471,919 72	
Coin certificates, 1863	42,733,800 00	
Unclaimed interest		7,207 03
Aggregate of debt bearing no interest	$440,494,641 22	$7,207 03

RECAPITULATION.

	Amount Outstanding.	Interest.
Debt bearing interest in coin, viz:		
Bonds at 6 per cent	$748,867,100 00	
Bonds at 5 per cent	703,266,650 00	
Bonds at 4½ per cent	200,000,000 00	
Bonds at 4 per cent	75,000,000 00	
	$1,726,933,750 00	$21,827,524 10
Debt bearing interest in lawful money, viz:		
Navy pension fund, 3 per cent.	14,000,000 00	35,000 00
Debt on which interest has ceased since maturity	11,599,620 26	558,103 25
Debt bearing no interest, viz:		
Old Demand and legal-tender notes	$349,173,921 50	
Certificates of deposit	31,115,000 00	
Fractional currency	17,471,919 72	
Coin Certificates	42,733,800 00	
	$440,494,641 22	
Unclaimed interest		7,207 03
	$2,193,028,011 48	$22,427,834 38
Total debt, principal and interest, to date, including interest due and unpaid		$2,215,455,845 86

AMOUNT IN TREASURY.

Coin	$126,892,989 47
Currency	3,170,490 13
Currency held for redemption of fractional currency	10,000,000 00
Special deposit held for redemption of certificates of deposit as provided by law	31,115,000 00
	$171,168,479 60
Debt, less amount in Treasury, Feb. 1, 1878	$2,044,287,366 26
Debt, less amount in Treasury, on the 1st ult.	2,015,956,442 79
Decrease of debt during the past month	$1,668,076 53
Decrease of debt since June 30, 1877	15,870,867 00

BONDS ISSUED TO THE PACIFIC RAILROAD COMPANIES, INTEREST PAYABLE IN LAWFUL MONEY.

	Amount Outstanding.	Accrued Interest not paid.
Central Pacific bonds, 1862-64	$25,885,120 00	$129,425 60
Kansas Pacific bonds, 1862-64	6,303,000 00	31,515 00
Union Pacific bonds, 1862-64	27,236,512 00	136,182 56
Central Branch Union Pacific bonds, 1862-64	1,600,000 00	8,000 00
Western Pacific bonds, 1862-4	1,970,560 00	9,842 80
Sioux City and Pacific bonds, 1862-64	1,628,320 00	8,141 60
Totals	$64,623,512 00	$323,117 56

Interest paid by United States, $37,896,334 50; interest repaid by transportation of mails, &c., $9,009,862 22; balance of interest paid by United States, $28,886,472 28.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, January 31, 1878.

JOHN SHERMAN,
Secretary of the Treasury.

☞ At the annual meeting of the stockholders of the Boston and Albany Railroad Co., held in Boston on the 13th inst., the following directors were unanimously elected: Chester W. Chapin, of Springfield; D. Waldo Lincoln, of Worcester; Ignatius Sargent, of Brookline; George O. Crocker, of New Bedford; Moses Kimball, of Boston; Henry Colt, of Pittsfield; Edward B. Gillett, of Westfield, and John Cummings, of Woburn. The receipts for the four months ending January 31, 1877, were $2,100,775; for the four months ending January 31, last, $2,894,422. The expenditures for the same four months of 1877 were $1,777,988; in 1878, $1,783,672.

☞ The Dallas, Palestine and Southeast Texas Railroad Company was organized on the 18th of January by the election of the following officers: President, S. B. Buckner, of Louisville, Ky.; Vice President, Julius E. Schneider; Secretary, W. S. J. Duncan. The road is to run from Dallas via Palestine to the southeast border of the State, and thence ultimately to New Orleans.

☞ The sale of the property and franchises of the West Wisconsin Railroad is to take place, in pursuance of the decree of foreclosure, on the 1st of March next.

American Railroad Journal.

Saturday, February 16, 1878.

Financial and Commercial Affairs.

In the loan and discount market no important changes have occurred during the week. The supply of capital has been quite liberal, and lenders have been free of accommodation to strictly responsible borrowers, whose wants have not been very urgent in any prominent instance. Rates have been ruling rather easier, though not varied much, one way or another. The City banks have been losing legal tender and national bank currency, through bank tax drains, and drafts from Boston, Philadelphia and other near points; yet have found little difficulty in meeting the calls of their customers for financial aid. Call loans were quoted here at from 4@7, the principal negotiations having been within the range of 4@5; and very choice to prime mercantile credits were rated at 5@7½ per cent per annum. The City bank exhibit of last week indicated an increase in the loan and discount average of $1,781,800, and a decrease in the item of circulation of $74,200. The average of deposits was augmented $1,411,300. The legal tender reserve was reduced $2,485,200; and the specie average enlarged $916,900. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $14,095,650, as against $16,016,775 the preceding week, (the latter the highest aggregate reached this year.) The City bank exchanges in currency reached $344,10b,462, or a daily average of $57,684,244.

Government securities have been attracting more attention, especially on investment account,

and prices have been quoted stronger, though yet somewhat irregular. The offerings of bonds have been on a restricted scale. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 105¾@106; do. coupon, 105¾@106; do. 1865, new, registered, 103¼@103⅜; do. coupon, 103⅛@103⅜; do. 1867, registered, 105⅛@105⅜; do. coupon, 105⅜@105⅛; do. 1868, registered, 108⅜@108⅝; do. coupon, 108⅜@108⅞; do. ten-forties, registered, 104⅜@104⅞; do. coupon, 107⅛@107¾; do. five per cents, 1881, registered, 104⅛@104¼; do. coupon, 104@104⅛; do. 4½ per cents, 1891, registered, 103¼@103⅜; do. coupon, 103¼@103⅜; do. 4 per cents, 1907, reg., 101@101⅛; do. small, 102@102¼; $500 and $1,000, coupon, 102@102¼; do. sixes, currency, 118¼@118⅝.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $345,959,500, and $13,498,000 as security for public deposits.

The outstanding amount of legal tender notes is $349,110,424. The National bank circulation is now $320,743,690 of currency notes and $1,432,120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $3,640,000.

On Wednesday of this week, the cash balances in the National Treasury were of currency, $4,005,883; special fund for the redemption of fractional currency, $10,000,000; special deposit of legal tenders for the redemption of certificates of deposit, $33,085,000; coin—including $47,549,600 in coin certificates—$130,723,604.

A fair inquiry has been reported for State bonds which have been offered with reserve, and toward the close, quoted somewhat stronger in price. Railway Mortgage loans have been in generally very good demand especially the favorites of the actual interest bearing loans, which have been purchased to a liberal aggregate on investment account. And in the line of Railway and Miscellaneous share property business has gained in volume, confidence and buoyancy as the week advanced, influenced, in part, by the ease in Money, the calmer political temper at home and abroad, the somewhat improved outlook of commercial interests, and the manifest hesitancy on part of operators against values, to persevere in their manipulations, caused doubtless in part at least by the apprehension that with the revival of the Spring trade, the market would develop more strength than they easily could find means or opportunity to control. The final dealings were indicative of activity and firmness in the general list.

The income of the Government from internal revenues last week was about two millions, and from Customs last week again about three millions.

Cable reports as to the position of affairs in Europe have been the main influence in shaping the course of Gold, which has been more active, and quoted higher. The speculative temper has been more confident especially toward the close. The custom drain has been heavier. The extremes of the price during the week have been 101¾@102¼, closing on Wednesday at 102¼ as against 102 on Wednesday of the preceding week. The specie outflow last week was only $263,000—making the total exports of specie hence since January 1, $1,818,946 against $1,888,615 the same time in the preceding year. The imports of specie at this port last week reached (mainly from England) the very liberal aggregate of $1,971,884, and since January 1st have been $2,793,986 as against $1,893,778 same time in the preceding year. The Customs demand for gold last week reached $2,208,562 or an average of $368,094 per day.

Foreign Exchange has been very moderately sought after, and quoted barely steady on comparatively liberal offerings of prime bills. Bankers' sixty day bills on London closed on Wednesday at $4 81⅛@$4 82⅛; sight bills on London at $4 82¾@$4 83¾ to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $3,849,682 as against $4,570,886 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $1,958,119 of Dry Goods, and $1,891,563 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the aggregate value of $6,949,877, against $4,977,839 same week in 1877.

Business in Hardware, Boots and Shoes and Dry Goods, has been on the increase, yet has not thus far developed to very important proportions. Prices have been generally quoted unchanged.

In the line of domestic produce, Breadstuffs and Provisions attracted more attention, toward the close, largely for shipment, and Flour and Grain left off more firmly. Wednesday's sales of Flour in this market exceeded 40,000 bbls.—of which more than one-third was for export. Cotton quoted weaker, and offered more freely, leading to active dealings, almost wholly in the way of options. Naval Stores and Petroleum quiet. Foreign merchandise has been in less demand at irregular rates. Coffees a trifle dearer. Sugars a shade cheaper.

Metals have been fairly active, and values of most kinds have been comparatively steady. Eglinton Pig Iron quoted at $21@$24 50; Glengarnock $25@$25 50; Coltness $26 50@$27; No. 1 American Pig at $18@$20; No. 2 do. at $17 50@$19. Forge $16@$17; (10,000 tons Allentown Iron reported sold to speculators on p. t.) American Rails at works $33@$37. Old Rails $19. (750 tons reported sold on p. t.) Wrought Scrap $22@$23. (1500 tons rumored sold on p. t.) Steel Rails, on the basis of $42@$48 at mills and delivered. (5,500 tons reported sold on the basis of $43 at tide water.) Ingot Copper in request on the basis of 17⅛@17⅜ for early delivery; sales 475,000 lbs.

Ocean freights have been fairly active mostly in the way of shipments of Breadstuffs, Provisions, and Cotton, with rates generally quoted easier and closing weak. Liverpool steamer rates at the close for Grain, quoted at 9@9½d. Flour, at 3s. 6d @3s. 9d. Provisions, 40s.@50s.; Leather, 60s. Measurement Goods at 22s. 6d.@25s. per ton; Cotton, ½d.@9-32d. per lb. Liverpool, by sail. Cotton, 15-64@½d. Grain, at 7½@7½dd.; Flour, 2s. 3d.@2s. 4½d.; Measurement Goods, 15s.@17s. 6d.; Tobacco 30s.; Oil Cake at 20s.@22s. 6d. Grain rates on charter hence for Cork and orders left off at 5s. 4½d.@5s. 6d.; for Liverpool at 4s. 9d. per quarter; for the Continent Grain at 5s. 6d.; and from Baltimore for Cork and orders, 5s. 9d.@6s. and from Philadelphia at 5s. 9d.@6s.; and from Portland at 5s. 9d.@6s. Refined Petroleum hence for Cork and orders, 4s.@4s. 6d.; for the Continent, 3s..@3s. 9d. and for Marseilles or Cette (crude) at 4s. 3d.@4s. 6d. Gibralter and orders at 4s. 7½d.@4s. 10½d. Cotton by sail from New Orleans to Liverpool ½d.@18-32d.; from Galveston, at 7-16d.; Ky. Tobacco from New York to Spain at 30s.@32s. 6d. Naval Stores from Wilmington or Charleston for Cork and orders at 3s. 6d.@5s. 3d. Lumber from Brunswick to the River Platte, $19. Deals from Portland to Glasgow at 72s. 6d., St. John to Dundalk at 73s. 9d., and Charleston or Savannah to the United Kingdom at 100@110s.; Hewn Timber from Doboy to do., at 35s. 6d.@36. Through Provision freights from the West for Liverpool, by steam, 62@75; for the Continent at 82½@95 per 100 lbs.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The following securities have been ordered to be placed on the regular list of the New York Stock Exchange: Alabama State bonds, (new,) class A. $7,000,000; class B. $1,192,000; and class C. $1,000,000. Also, Minneapolis and St. Louis Railway Company 7 per cent gold first mortgage bonds, $1,100,000, on the line between Sioux City Junction and the Iowa State line, those from 1,101 to 1,400 inclusive being guaranteed by the Burlington, Cedar Rapids and Northern Railway Company.

☞ The directors of the Lowell and Andover Railroad Company, elected on the 13th inst., are: Gustavus V. Fox, Horace J. Adams, E. M. Sargent, George Ripley, Josiah Gates, Frederick Ayer, Jacob Nichols, Arthur P. Bonney, Benjamin Walker, Fred. F. Ayer.

☞ No action has been taken by the Pennsylvania Railroad Co. in regard to the declaring of a dividend. The meeting that would have been called to take action in the matter should have met within the first ten days of the month, and that time having elapsed, there will be no action taken for this quarter—the dividend thus being passed.

West Jersey R. R.

At the annual meeting of the stockholders of the West Jersey Railroad Company, held in Camden on the 12th inst., the following Board of Directors was re-elected: T. Jones Yorke, M. Parker Shortridge, Charles E. Elmer, Coleman F. Leaming, Lewis Mulford, John M. Moore, Strickland Kneass, Josiah Bacon, George B. Roberts, George Wood, Thomas H. Dudley, J. N. DuBarry, Alexander G. Cattell. Subsequently the Board was organized by the election of George B. Roberts, President; Dr. William Taylor, Secretary and Treasurer; Gen. Wm. J. Sewell, Superintendent, and Frank Thompson, General Manager.

From the report which was presented it appears that the gross earnings of the road for the year 1877 were $595,025 04, the expenses $391,430 12 and the net earnings $203,594 92.

During the year 609,143 passengers were carried, and 126,898 tons of freight. There were 13.84 miles of new track laid during the year. From 1868 to 1877 the number of miles of new track laid was 88.14; from 1877 to 1878, 13.84—total, 101.98 miles.

☞ Upon the arrival of the first locomotive for the Columbus and Gallipolis Railroad a large party chartered a tow-boat and went up the river to meet it. They welcomed it with a band of music, and attaching their steamer to the flat-boat which carried it they accelerated its approach to Gallipolis, where cannon and steam whistles proclaimed the joy of the populace. The public schools were deserted, and young and old joined in a general hurrah.

☞ The annual meeting of the stockholders of the Northern Central Railway Co. will be held in Baltimore on the 28th inst., at which the Annual Report of the President and Board of Directors for 1877 will be presented, an Election held for Twelve Directors for the ensuing year, and such other business as may properly come before the meeting.

☞ The Spartanburg and Asheville Railroad company has executed a mortgage on its property to secure an issue of $670,000 bonds, which is at the rate of $10,000 per mile on the entire length of the road. The trustees are J. B. Cleaveland, of Spartenburg, S. C., and William H. Inman, of New York. Principal and interest are made payable in gold.

☞ The annual report of the City Controller of Chicago shows that the total bonded debt of the City Government is $18,364,000. The reduction of the bonded debt last year amounted to $72,000, and the floating liabilities were also largely reduced. The amount of uncollected taxes is $7,523,218. The labor riots last June will cost the City Government about $89,000.

☞ On the petition of the Farmers' Loan and Trust Company, trustees of the first consolidated mortgage on the road, to carry out the reconstruction scheme, Receiver H. J. Jewett has been authorized by Judge Donohue to pay the coupons falling due on the first consolidated mortgage March 1, 1878, and also such coupons falling due September 1, 1878.

Metropolitan Underground Railway.

Some interesting facts concerning the operations of the Metropolitan Underground Railway of London are contained in the half yearly report of the company recently issued.

The length of the main line is 8 miles and 10 chains, and of lines partly owned by the company 2 miles and 40 chains. The number of passengers conveyed in 1877 was 56,175,753. The receipts of the half year aggregated £224,949 7s. 10d., or at the rate of $2,249,490 for the year. According to this computation, the average fare paid by the passengers was less than 4 cents. The most powerful engines are employed to operate the railway, and as a result the highest rate of speed is attained, with frequent stoppings for local accommodation. The Directors recommend a dividend of 5 per cent. per annum on the common stock, which has been selling at the rate of 15 per cent. above par on the Stock Exchange, while the bonds and the preference shares of the company have been commanding extraordinary premiums. Owing to the fact that five miles of the railway finds its way through the oldest and most densely occupied portions of London, nearly two-thirds of the entire cost has been incurred in purchasing the right of way and land. The company has thus become possessed of a vast amount of property exclusive of the ground occupied by the railway. The net income from rentals accruing from this outside property amounted for the six months to £28,107 13s. 5d., or at the rate of $280,000 per annum. This does not include $17,000 of rents from refreshment rooms at stations. Under the head of "Land and Compensation," the report says that, in addition to the loss of rentals by sales, property which yielded an annual income of £8,549 has been absorbed by the extension from Moorgate to Bishopsgate and Aldgate.

Bonded Debt of South Carolina.

The report of the bond commission appointed last June to investigate the bonded debt of South Carolina was made to the General Assembly on the 7th inst. It shows the amount outstanding, consolidation bonds and certificates of stock, under the act of December 20, 1873, to be $4,396,290 41. Of this amount the commission report $1,577,835 62 unquestionably valid, funded upon vouchers about which there is no dispute. The amount affected by vouchers not issued originally in accordance with law is $2,818,454 79. Of this amount about $800,000 were issued upon valid vouchers, but were funded along with vouchers considered illegal or tainted with fraud. The amount of vouchers remaining in the treasury is $8 792,779 being an overp us of $199.

The funding act of 1873 authorized consolidation at fifty cents on the dollar. Of the vouchers in the treasury, $4,793,633 are found to be valid beyond question, that is, issued according to law originally and authorized to be funded by the consolidation act. The remaining $3,999,146 vouchers are divided into classes. One is composed of detached coupons generally, if not always cut from bonds before the same were issued from the treasury and funded by or on behalf of financial agents, to wit: Chamberlain, Parker, Scott and Kimpton. These detached coupons were not authorized to be funded by the consolidation act, and amount to about $600,000.

The others embraced bonds hypothecated by Financial Agent Kimpton, in New York, after the time limited by law for their hypothecation had expired, the second issue of interest on the public debt bonds, a few bonds issued to redeem bills receivable, and both issues of the land commission bonds. All of these are declared by the report to have been issued without authority of law originally, but authorized to be funded by the consolidation act, and amounting to about $3,400,000.

Commerce of New York.

The foreign imports at New York for the month of January, 1878, are officially stated as follows:

	1877.	1878.
Entered for consumpt'n.	$11,194,195	$11,052,501
Do. for warehousing	5,546,348	4 876,084
Free goods	9,590,998	7,875,055
Specie and bullion....	1,274,796	823,049
Total entered at port...	$27.606,337	$24,626,689
Withdrawn fr. wareh'use	6,878,475	4,979,886

The foreign imports at New York for seven months ending January 31, were:

	1877.	1878.
Entered for consumpt'n.	$71,352,728	$76,291,568
Do. for warehousing...	34,868,897	43,834,999
Free goods	43,171,270	51,077,645
Specie and bullion.....	25,241,899	8,468,289
Total entered at port..	$174,633,789	$176,672,496
Withdrawn fr. wareh'se	43,270,408	52,735,769

The duties received at New York for seven months ending with January, were:

	1876-'77.	1877-'78.
July	$7,497,199 39	$7,182,747 46
August	10 125,386 42	10,018,122 33
September	8,634,411 36	9,068,929 44
October	8,031,580 14	8,892,221 85
November	5,720,296 82	6,585,108 84
December	4,822 595 04	5,815,558 74
January.....	8,058,938 72	7,154,924 85
Total....	$52,890,407 89	$54,167,618 51

The exports from New York to foreign ports in the month of January, were:

	1877.	1878.
Domestic produce.....	$24,738,593	$26,823,535
Foreign free goods.....	227,670	315,891
Do. dutiable	436,906	553,885
Specie and bullion.....	971,491	1,490,181
Total exports.....	$26 374,660	$29,182,992
Do. exclusive of specie.	25,408,169	27,692,811

The exports from New York to foreign ports for seven months ending January 31, were:

Railroad Taxation in Tennessee.

Some weeks ago a number of bills were filed in the Chancery Court by different railroad companies against the Railroad Tax Assessors for the State and the State Controller, to test the question of their total or partial exemption from taxation under the assessments made. Chancellor Cooper granted a preliminary injunction to prevent the assessments being acted on until the rights of the parties could be determined. The cases of three of the railroad companies were selected as test cases, and submitted to the Chancellor upon demurrer, which, it was agreed, raised the points in issue. These—the cases of the Memphis and Charleston, the Mobile and Ohio, and the Knoxville and Charleston Railroad Companies—were decided yesterday by the Chancellor. After an elaborate examination of the points decided by the Supreme Court in declaring unconstitutional the eleventh section of the act of 1875 for the taxation of railroads, and a review of the provisions of the amendatory act passed in March, 1877, the Chancellor overruled the State's demurrer in the case of the Memphis and Charleston and Mobile and Ohio Railroads, on account of charter exemptions, and sustained the demurrer as to the Knoxville and Charleston Railroad for lack of such exemption. On account of their importance, it is thought the cases will be heard in our Supreme Court next week, and it is probable that they will go to the United States Supreme Court.—*Nashville Am. Feb.* 2.

Peabody Institute.

At the annual meeting of the Peabody Institute, held in Baltimore on the 12th inst., the following gentlemen were elected officers for the ensuing year: President, Charles J. M. Eaton; Vice President, Judge George Wm. Brown; Treasurer, Enoch Pratt; Secretary, George P. Tiffany. Mr. Enoch Pratt, Treasurer, submitted his report for 1877, which gives figures as follows: Balance from old account, December 30, 1876, $1,087,074 50; from interest, $38,811 69; from conservatory of music, $7,792 75; from lecture department, $2,735 25; premium on city stock, $4,000; interest on Virginia bonds on account of building fund, $9,547 20; total receipts, $1,149,961 39. Expenses—For premiums and medals, $1,235 50; for books, $8,433 64; for conservatory of music, $16,145 80; for lecture department, $3,503 04; art gallery, $23 75; taxes, gas, fuel, etc., $3,995 73; salaries, $11,241 71; on account of addition to the institution, $149,119 56; total expenditures, $193,693 73; balance on hand, $956,262 66. Of this balance $39,000 is in United States six per cents, $500,000 in city of Baltimore stock, $10,000 in State of Maryland stock, $300,000 in Tennessee and $100,000 in Virginia State bonds, and $7,262 66 in bank and call loans. The report was adopted.

Railways in Canada.

The Canadian Commissioner of Public Works, in his report for the year 1877, says that during that year work was commenced on two new railways, the Stratford and Lake Huron and the Kamionistique and Prince Arthur's Landing Railway, on the former of which the rails are laid from Stratford to Listowel, a distance of 27 miles, while the latter is ready for traffic whenever connection is made with the Canada Pacific. The Kingston and Pembroke is open for traffic from Kingston to the Mississippi River, a distance of 60 miles, nearly 15 of which have been completed within the year; and the road is located to the Madawaska, 28 miles further on. The Lake Simcoe Junction Railway is practically a branch of the Toronto and Nipissing, and is of the same gauge; it is complete and in running order. The work done on the Credit Valley has been confined chiefly to grading and bridging between Woodstock and Ingersoll. On the Victoria some grading and bridging have been done between Kinmount and Haliburton, and when this portion of the road is completed there will be 100 miles of continuous railway between Haliburton and Whitby via Lindsay and Port Perry. Rapid progress has been made during the year with the Hamilton and Northwestern, with which the Hamilton and Lake Erie, terminating at Port Dover, has been amalgamated. The whole length of the line between Barrie, the present northern terminus, and Port Dover is 137 miles. The Midland Railway is under construction from Waubashene to Midland,

on the Georgian Bay, a distance of fourteen miles. Some grading and bridging have also been done on the Belleville and North Hastings road. Six crossings have been made in 1877, two of which are on the level, and four under or over. The following table shows the mileage of railways opened for traffic in 1877:

Stratford and Lake Huron Railway	27	miles.
Kingston and Pembroke	14.774	"
Lake Simcoe Junction	26.500	"
Victoria Railway (in town of Lindsay)	1.442	"
Hamilton and Northwestern Railway	118.888	"
Whitby, Port Perry and Lindsay Railway	25.945	"
Total	209.549	miles.

The total expenditure on Public Works of all kinds during the year on capital account was $318,821 39; the amount expended between the first of July, 1867, and the close of 1876, $2,919,462 03, making a total of $3,238,283 42. The expenditure for maintenance during 1877 was $22,089 17.

Green Bay and Minnesota Railroad.

Timothy Case, General Manager of the Green Bay and Minnesota Railroad, has, on application of John L. Blair and others, been appointed Receiver. The road, which was finished in 1873, extends from Green Bay, Wis., across that State to Winona, Minn., 218 miles, and there is a branch to La Crosse, 29 miles, of which 22 miles are leased from the Chicago and Northwestern. The bonded debt by the last report consisted of $3,200,000 first mortgage bonds, on which no interest has been paid for several years, and $780,000 second mortgage bonds issued to fund unpaid coupons. The net earnings of the road have been very small.

☞ An election was held at Cheyenne, Wyoming Territory, on the 29th ult., to ratify the Act of the late Legislature authorizing Laramie county to issue $150,000 worth of bonds to the Colorado Central Railroad, connecting with the Union Pacific at Cheyenne. A very full vote was polled, and resulted in favor of the bonds by 1,000 majority. The railroad company are to expend $25,000 in the erection of shops at Cheyenne. This Act further provides for the issuing of $250,000 worth of additional bonds when the Union Pacific builds a road from Cheyenne to the Black Hills.

☞ From Panama, under date January 17th, we learn that General Trujillo, President elect of Colombia, arrived in Panama on the 4th, and left for Buena Ventura on his way to Cauca valley on the 9th. He was accompanied by F. J. Cisneros, engineer, who is building a railroad in the interior, and who goes with Trujillo to examine the route from Buena Ventura to Cali, for the purpose of building a railroad there.

☞ The Mansfield, Cold Water and Lake Michigan Railroad has been transferred from the special Master Commissioner, to Joel Lesley, of Philadelphia, in consideration of $500,000. The purchase includes all the franchises, from the eastern terminus in Richland county, Ohio, to the western terminus in Allegan county, Michigan. A company has been formed and the road is to be built.

Railroads of All Countries, January 1, 1877.

St. Paul and Pacific Railroad.

A despatch from St. Paul, Minn., of 12th inst., says that the purchase of the St. Paul and Pacific Railroad from Dutch bondholders by St. Paul and Canadian capitalists, negotiations for which have been pending for some time, is completed. The purchase, it is stated, includes two-thirds of the bonds, which aggregate $24,000,000. The St. Paul purchasers are Norman W. Kittson and James J. Hill. The road is now operated by Horace Thompson, Edward Rice, and John S. Kennedy, as Trustees for the bondholders, who will continue to manage it for a few weeks, until foreclosure is completed. The first result of the change will be the completion of lines to Pembina and Alexandria, which will be built during the coming Summer, the former to connect with a road, to be built by Canadian parties, to connect with the Canadian Pacific, opening a route from St. Paul to the fertile regions of Manitoba.

☞ Articles of association have been filed in the Secretary of State's office at Trenton, N. J. for a railroad to be constructed and operated from some point in Monmouth County, in or near the town of Squan, into some point on Squan Beach, below Levallette City, with branches and turnouts: capital stock, $1,100,000, divided into 22,000 shares of $50. Name, Manasquan Beach Railway Company. Directors—Albert S. Lavallette, George Kerr, T. Montgomery Bond, Isaac D. Guyer, John J. Keese, C. S. Bennett, Ira Robbins, James T. White, E. F. Summis, Jacob P. Fowler, John W. Lainkee, J. E. Story and H. B. Fowler.

☞ The effect of the decision of the Supreme Court of Vermont, alluded to in our last issue, is that, under the contract of the Rutland Railroad Company with the Central Vermont managers, the Central Vermont Company is to pay the taxes *legally* assessed on the Addison, Vermont and Massachusetts branch and the Vermont Valley Railroads. And that the Rutland Railroad Company is to pay the taxes legally assessed upon its own property. The Rutland Railroad taxes will amount to from $10,000 to $15,000 annually, instead of $100,000 as stated in a recent dispatch from St. Albans.

☞ The United States Circuit Court at Mobile, Ala., has especially enjoined the complainants in the new suits commenced at Atlanta and Huntsville to enforce the claims under the mortgage of the Wills Valley Railroad Company against the Alabama and Chattanooga Railroad and its purchaser, John Swann, from proceeding further, and has ordered rule against them for contempt, and postponement of further payments by Swann until the fourth Monday in June on account of those suits.

☞ The Pittsburg, Wheeling and Kentucky railroad, extending from Wheeling Junction, one mile east of Steubenville, to Wheeling, West Virginia, a distance of 24 miles, has been completed. The line is controlled by the Pittsburg, Cincinnati and St. Louis road.

☞ The completion of the Pembina Branch of the Pacific Railway between St. Boniface and the boundary line, 63 miles, is to be proceeded with. It is believed that the uncompleted portion of this road in Minnesota will be built the coming season.

☞ In the Circuit Court of Richmond, Va., on the 9th inst, the motion on the part of Lewis McComb and others, among whom are the heirs of Oakes Ames, for the appointment of a receiver of the Washington and Ohio Railroad, was decided by Judge Walford. The decision displaces the President, Lewis McKenzie, and all subordinate railroad officials, and appoints as receiver Cassius F. Lee, of Alexandria. By this decision the corporation is placed under the control of the court for the benefit of the creditors.

☞ The Buffalo, Syracuse and Albany Railroad Company is the title of a Company just formed for the purpose of constructing a narrow gauge railroad on the banks of the Erie and lateral canals, between Utica and Buffalo, with branches from Rochester to Millgrove, to Oswego, from Rome to Carthage, and from Utica to Binghamton.

☞ The Chicago and Northwestern Railway Company now operate the new Maple River Railway in Western Iowa 59 miles, and the Menominee River Railway 26 miles in the Upper Peninsula of Michigan, just west of Green Bay. This makes the total worked by the company, 2,078 miles.

☞ The directors of the Missisquoi and Black River Valley Railway Co., propose taking up the charter of the old Richmond and Drummondville line so as to connect their line with the first named line at Melbourne. The line is already built to L'Avenir, and there are only 12 miles more to complete.

☞ At a meeting of the directors of the Providence and Worcester Railroad Company, held in Providence, R. I., on the 8th inst. Wm. S. Slater was elected President and John R. Balch Treasurer. The resignation of William D. Hilton, Superintendent, was accepted, to take effect April 1

☞ The Boston Journal says that "Boylestcn has made up to its mind that the Massachusetts Central Railroad is just as far built as it ever will be, and has voted to fill up a 50-feet cut made for the road at a highway crossing, as the bridge at the place was unsafe."

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, No. 31 NASSAU-ST., NEW YORK, Jan. 17, 1878.

A DIVIDEND OF THREE (3) PER CENT. HAS been declared by this company, payable on the 1st day of March next, to the holders of the capital stock of this company as registered at the close of the 12th day of February next, after which, and until the 4th day of March, the transfer-books will be closed.

Solicitor U. S. & Foreign Trade Marks & Patents.

Make a note of the time when you first think of an invention, date and keep all writings, sketches, drawings and models of it. It will be well to have persons sign the former as witnesses, and this may be done without exhibiting the contents. To establish title to your invention, even after obtaining a patent, you may have to prove that you made it before any one else, and never gave it up.

Can I Obtain a Patent?

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,844, New York.

The Coal Trade.

For the week ending the 2d instant, the total anthracite production, as reported by the several carrying companies, amounted to 234,603 tons, against 247,808 tons in corresponding week last year a decrease of 13,205 tons. The total amount of anthracite mined for the coal year is 1,206,798 tons, against 1,178,140 tons for same period last year, an increase of 33,353 tons. The quantity of bituminous coal sent to market for the week amounted to 19,896 tons, against 44,925 tons in corresponding week last year, a decrease of 24,029 tons. The total amount of bituminous mined for the year is 164,186 tons, against 181,282 tons for corresponding period last year, a decrease of 17,096 tons. The total tonnage of all kinds of coal for the week is 254,499 tons, against 292,733 tons in corresponding week last year, a decrease of 38,234 tons. The total tonnage of all kinds of coal for the coal year is 1,370,979 tons, against 1,351,722 tons for same date last year, an increase of 16,257 tons. The receipts at Perth Amboy for the week ending on the 2d instant were 17,776 tons, the shipments 6827 tons, leaving a stock on hand of 111,806 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the second week in January was 88,273 tons, of which 69,710 tons were coal, and 18,563 tons coke. The total carried for the year is 155,174 tons, of which 119,743 tons were coal and 35,431 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad brought 17,000 tons to Port Richmond whilst 20,000 tons were shipped thence last week. The entire tonnage of the Reading Railroad for the week ending Saturday, February 9, was 85,000 tons.—*Phila. Ledger, Feb.* 11.

Steam Office Watchman!!

THIS GAUGE IS USED IN HOTELS, STEAMERS, Manufactories, Breweries, etc.

The Inventors of this combined "Pressure Gauge" and "High-Pressure Alarm" have, after many years of persistent effort and at great expense, succeeded in perfecting a reliable and accurate instrument for measuring either air, steam or water, when subjected to pressure, and for denoting the same by an automatically written tracing upon Edson's Patent Logs or "Charts." No manufacturer or steam user can afford be without them. Circulars sent on application to

American Railroad Journal.

New York, Saturday, February 23, 1878.

Duluth and Winnepeg Railroad.

Articles of incorporation have been filed in the office of the Secretary of State at St. Paul, Minnesota, of the Duluth and Winnepeg Railroad Company. Capital stock, $4,000,000. The incorporators are: W. W. Spaulding, A. M. Miller, John C. Hunter, E. C. Mitchell, A. J. Sawyer, H. M. Peyton, all of Duluth, Minn., and James Bardon, of Superior, Wis. The officers are: W. W. Spaulding President, John C. Hunter Vice President, H. M. Peyton Treasurer, James Bardon Secretary. The Superior Times, from which the above was obtained, says:

The object of the corporation is to build a railroad to run from Duluth in a northwesterly direction to the northern boundary line of Minnesota between Red River and the Lake of the Woods; it being expected that the Canadians will build between the point of intersection on the boundary and the city of Winnepeg. The distance from the head of Lake Superior to the northern boundary, through Minnesota soil is 225 miles; thence to Winnepeg, through Canadian territory, 65 miles, in all 290 miles—for practical purposes say 300 miles. As compared with other lines it makes the distance from Lake Superior to Winnepeg fully 150 miles shorter than via the Northern Pacific and St. Vincent roads, and actually sixty to seventy miles less than by the Canadian Pacific as located from Thunder Bay. In Minnesota the line runs nearly the entire distance through an unbroken wilderness, reputed rich in timber, minerals and agricultural soil; in Manitoba it traverses a rich and rapidly settling prairie country.

This proposed line is practically an extension of the Wisconsin Central Railroad into the fast growing and productive agricultural province of Manitoba. A glance at the map will show that a line laid down with one end resting on Chicago or Milwaukee, and the other on Winnepeg, will, with very slight deflections, pass through Ashland, Superior and Duluth, and if projected in the same general direction for 200 miles beyond Winnepeg, would simply follow the located line of the Canadian Pacific to North Cotte, from whence that road takes its westerly course to the Pacific.

The building of the road would open to the markets of Lakes Superior and Michigan, by the shortest possible route, the great wheat fields of the Northwest, including those of the Saskatchewan, as well as all the business incident to half a million of sturdy settlers in Manitoba, and its capital city of Winnipeg with a population of 5,000 enterprising citizens; and while affording the Canadians a better and shorter route between the disjointed sections of the Dominion than any that can be secured running entirely through their own territory, it would at the same time have an important influence in solving the problem of an "eastern outlet" in winter for this country, by hastening the building of a road along the south shore to the Sault and the Straits of Mackinaw, as well as the completion of that section of the Wisconsin Central between Ashland and Superior.

That the scheme is possessed of considerable merit is quite apparent, even upon a casual examination of the situation, and it will occur to many that if ever a project of its kind deserved State and governmental support, the one in question certainly does.

Clearing House for Car Mileage.

A meeting of the Railway Superintendents of New England was held in this city December 20, 1877, to consider a plan proposed by Mr. E. B. Hill of West Haven, Conn., for the establishment of a central office or clearing house for car mileage, in which the car mileage of all the roads in New England shall be computed, and through which settlements, one road with another, may be made. The plan also embraces a system by means of which the position and movement of each car is kept daily, thus giving the locality of any car at any time. A committee was appointed to ascertain the sentiments of the New England railroad companies generally as to the feasibility of the plan and report at a future meeting. The committee having attended to the duty assigned them, a meeting was held yesterday afternoon in the library room of the Boston and Albany Railroad to hear their report and to take such further action as may be deemed necessary.

The meeting was presided over by Superintendent Heywood of the Fitchburg Railroad. The committee reported that they had issued a circular to all the railroads in New England calling for an expression of opinion, and had received answers favorable to the plan from roads representing 50 per cent of the entire tonnage of New England. All roads have agreed to furnish the information necessary to put the plan into operation except seven, which remain to be heard from.

After a general discussion of the matter and further explanation by Mr. Hill, it was decided to refer the matter to a committee, consisting of representatives of each State in New England and representing the roads in New York east of the Hudson river. The committee is as follows: William Bliss of the Boston and Albany, Payson Tucker of the Maine Central, A. A. Folsom of the Boston and Providence, George E. Todd of the Northern New Hampshire, G. W. Bentley of the Central Vermont, E. M. Reed of the New York, New Haven and Hartford, and Daniel Robinson of the Troy and Boston.—*Boston Journal, Feb.* 15.

Buffalo, Syracuse and Albany Railroad.

The Buffalo, Syracuse and Albany Railroad Company, a new company just formed for the purpose of constructing a narrow gauge railroad on the banks of the Erie and lateral canals, between Albany and Buffalo, with branches from Rochester to Milgrove, to Oswego, from Rome to Carthage, and from Utica to Binghamton, claim they can tow loaded boats at 15 cents a mile, using twenty horsepower locomotives to tow three and four boats at a time, and make the round trip between Albany and Buffalo in one-third less time than is now required. The canals are usually closed five or six months in the year, and during this period it is proposed to utilize the road by running almost continuous trains of freight cars.

☞ The elegant Union Depot at Fitchburg, Mass., built by the Fitchburg Railroad Company, was occupied for the first time on the 18th inst. It is 140 feet by 86, with a tower 128 feet high, and is built of brick, with granite trimmings. The arrangement and finish of the rooms is admirable, and the building is highly creditable alike to the town and the railroad.

Illinois Central Railroad.

The receipts from operations of this road for the year ending December 31, 1877, were as follows:

From freight		$3,032,336 91
" passengers		1,037,590 91

		970,840 87
Net receipts		$2,546,561 89

The total receipts, as stated above, were $6,639,845 40, against $7,040,969 10 in 1876, a decrease of $401,123 70; the operation expenses, including taxes and rentals, were $4,093,284 01, against $4,896,192 79 in 1876, a decrease of $802,908 78; and the net receipts were $2,546,561 89, against $2,144,776 31 in 1876, an increase of $401,785 08. The report says:

In view of the exhaustive report on the affairs of this company made last Spring by the foreign delegates selected by a joint committee of English and Dutch shareholders, it is unnecessary now to enter into particulars touching the adverse influences which had disturbed the operations of this Line. The directors have the pleasure to report a much improved result for the year 1877, chiefly owing to greater economy in expenditures. Iron and steel have declined to a lower point than was conceived possible a few years since, and there has been a large reduction in the prices of nearly all railway supplies.

The details of operation elsewhere given, show net earnings for last year $2,546,561 89, an increase over the net of 1876 of $401,785 08. Owing to the exceptionally mild and rainy weather prolonged into midwinter, rendering the highways impassable, the traffic of 1877 did not have the benefit of the large harvest. The corn crop in Illinois alone is estimated at 270,000,000 bushels, and the wheat crop at 32,500,000 bushels. The greater part of this still remains to make traffic in some form for the railways. We may look for increased business not only in the shipment of grain, but also of cattle, pork and provisions, the result of a large corn crop.

At the suggestion of the foreign delegates, the dividend dates were changed from February and August to March and September, in order to avoid danger of error in estimating net traffic for each half of the fiscal year. The net receipts for 1877, from traffic and lands, amounted to $2,654,697 38. Out of this sum were paid two dividends, each of two per cent, $1,160,000, and the interest on the funded debt, $582,990 49, leaving balance of $911,706 89. Deduct the sum disbursed for permanent expenditures in Illinois, $73,603 70, and the amount used to establish the Insurance Fund, $48,000, and there remains a balance unapplied Dec. 31, 1877, of $790,103 19. It will thus be seen that the balance brought forward from the year's income corresponds, nearly, to a third dividend. During the year $154 000 bonds have been paid, reducing the funded debt of the company to $10,508,000.

In July last this company assumed temporary charge of the line formerly known as the Gilman, Clinton and Springfield Railroad, with the understanding that the entire receipts should, for the balance of the year, be laid out upon the property. The new company which has since succeeded to the possession of that property, is known as the "Chicago and Springfield Railroad Company," and from it the Illinois Central Company has now taken the lease of the above mentioned line. The consideration for its control, practically made permanent, is $1,600,000 Illinois Central 6 per cent Currency Bonds, to be issued in the course of the next month, secured by a mortgage on the 112 miles of road between Gilman and Springfield. This mortgage, made by the Chicago and Springfield Railroad Company, admits of the issues, from time to time, of $400,000, additional bonds, to be used as may be found necessary in improvement of that line. This lease is pursuant to recommendations of the foreign delegates, and ensures a valuable feeder to the traffic of the main line.

In the riots which occurred at Chicago in July, growing out of a strike originated by the employes of other railway lines, this company happily escaped loss or damage to any of its property, and retained the confidence and support of its entire force during that trying period.

The final decree of the Court confirming the Consolidated Mortgage bondholders in possession of the New Orleans Line, was entered in November last, and the final transfer by the Receiver to the purchasers was made on the 31st December. The transfer of the Tennessee Division necessitated payment in full of the debt to the State. Since 1st January, the entire line, extending from New Orleans to the Ohio River, has been under the control of Mr. James C. Clarke, our Vice President. Mr. Clarke has made repairs to the plant, bridges, and other structures, and has relaid nearly 200 miles of the track. 10,000 tons of steel rails will be laid the coming Spring. It is proposed to extend the line 21 miles up the Ohio River, to a point opposite the Illinois Central freight depot, by the 1st August next. The money derived from the traffic of the road has been used, under the orders of the Court, partly in paying local debts and partly in improvement of the property. This company has advanced, for like necessary purposes, about $1,000,000, against which it holds $1,188,000 of well secured bonds of the Southern Company, of lien prior to that of our previous investment. Our company will also hold nearly three-quarters of the capital stock of the new Southern Consolidated Company. The traffic, even during this transition period of 1877, has shown a decided gain, and our deliveries of freight at Cairo, destined to the South, increased nearly 50 per cent beyond those of 1876. The subject of the investment in this New Orleans Line, was so thoroughly treated in the report of the Foreign Delegates, that your directors have simply to call attention to the vastly improved condition of New Orleans, and the State of Louisiana, under their present home government, with their commercial position so entirely changed by the accomplished fact of deep water through the jetties. New Orleans is now a first class port for vessels of the largest draft, and will command its share of the exports of the United States to Europe. We expect to carry to that port a fair proportion of the exportable produce of the Mississippi Valley.

In Iowa the indications of public sentiment toward railways are more favorable. The effect of injudicious legislation on the interests of the State has been so severely felt by the people that there is a probability of repeal of the unwise and restrictive laws which crippled the railways of the State and forbade further investment of capital. The directors regret not being able to advise any result to their efforts to reach a definite settlement with the owners of the Iowa Line, whose demands have been greater than the board could justly meet.

For many years we have had close relations with the Toledo, Peoria and Warsaw Railway, on which foreclosure proceedings are now in progress. The managers of that property evidently desire to consolidate it with the Wabash Railway. This is in conflict with our interests, and we are endeavoring to retain our share of the traffic passing through Gilman, which should properly go to Chicago.

Finally, in regard to the competition of several years past between water communication from Chicago eastward and the Trunk Railways—which latter determined at one time to take the traffic from Illinois to the seaboard regardless of cost or profit—it is well settled that the inter-State Railways have played a losing game. During eight months of water communication the facilities for taking freight by water are so much improved that the actual cost of water transportation to the seaboard is less than half the actual cost of rail transportation.

It is admitted that the outlays made to increase the carrying capacity of the railways have been improvident; and since the reduction of the tolls upon the Erie Canal, by the State of New York, cheap water communication is so firmly established that the effort to take freight by rail during the Summer months has failed, as indicated by the reports of several of the leading railways. During the contest, freight was carried in large volume at about half the actual expense incurred. It can hardly be expected that the public will loan more money to renew this contest, which has so seriously disturbed the value of railway properties.

Chicago is, and must continue to be the great inland port. The tonnage of vessels going in and out of Chicago last year was 6,586,415 tons. With three millions of population in Illinois, and three or four millions in the States west and north of it, its location as the nearest outlet to surplus products of that large population establishes it permanently as second only to New York in its importance as a commercial centre.

Your directors have had the pleasure to elect Mr. William K. Ackerman to the Presidency of this

company, a position which he has earned by twenty-five years of faithful service.

The annual meeting of shareholders will take place at Chicago on the last Wednesday of May next.

The total length of road operated is 1,107.66 miles, viz.: Chicago Division—364.73 miles long (excluding the St. Charles Air Line Branch 0.75 miles), 4 tracks, 1.49 miles; double track, 18.06 miles; single track, 350.18 miles; sidings 78.41 miles. Northern Division—(excluding the track of the Dunleith and Dubuque Bridge Company, 1.31 miles), single track, 340.77 miles; sidings, 45.14 miles—total, Illinois Central Railroad proper, 705.50 miles, and 123.55 miles of sidings.

Leased Lines in Iowa—Dubuque and Sioux City Railroad, single track, 142.89 miles; sidings, 16.58 miles. Iowa Falls and Sioux City Railroad, single track, 183.69 miles; sidings, 11.42 miles. Cedar Falls and Minnesota Railroad, single track, 75.58 miles; sidings, 3.51 miles—total in Iowa, 402.16 miles, and 31.51 miles of sidings.

The company have 212 locomotives, (including those acquired by lease of the Chicago and Springfield Railroad) 81 first class passenger cars, 8 smokers' cars, 2 officers', 1 pay, 56 baggage, mail and express, 18 sleeping, 10 old passenger cars, not numbered, 3,298 grain and fruit, 50 Blue Line, 416 stock, 1,501 flat and coal, 4 powder, and 25 derrick and tool cars, and snow plows. 4,102 new wheels and 281 new axles have been used for repairs of cars. The cost of repairing passenger cars was 1.19 cents; sleeping cars, 0.99 cents; freight cars, 0.84 cents, per mile run.

During the year 3 locomotives were rebuilt, 18 received through repairs, and 71 general repairs; 205 sets of steel tiers are now in use on that number of engines.

The total number of passengers carried was 1,711,398. Number carried one mile, 46,076,845. Av. number of miles traveled by each passenger, 26.92. Av. fare of each passenger, 83.85 cents. Revenue received per mile of road, $1,800 92.

Tons of freight transported, 1,803,044; of which 1,519,366 were local, and 284,678 through. Tons carried one mile, 249,345,941. Tons carried one mile north, 124,629,412; do. south, 124,716,539. Tons of local freight carried one mile, 199,974,858; do. through do., 49,371,683. Av. distance each ton was carried, 138.84 miles. Revenue per ton per mile, 1.83 cents. Av. revenue per ton, $2 52.65. Revenue per mile of road, $4,112 49.

The number of miles run by engines with passenger trains, was 1,449,542; with freight trains, 2,558,695; with construction trains, 37,510; switching, 765,111—total, 4,810,858. Pounds of waste used, 37,509. Gallons of oil, 39,955. Cords of wood, 3,238. Tons of coal, 137,082. Total cost for repairs, including fuel, wages of engineers and firemen, waste, tallow, oil, and cleaning engines, $828,070 44. Total cost per mile, 17.20 cents. Average miles to pint of oil, 15.05; do. to ton of coal, 35.09.

In the report of the Traffic Manager the earnings of the road for the year 1877, (including $86,953 28 gross earnings of T., P. & W. R. R., and $399,700 16 net earnings over the C., B. & Q. R. R.) are stated at $6,683,322 04, against $7,090,689 49 for the year 1876—a decrease of $407,367 45. The operation expenses are given in the report of the Superintendent at $3,122,443 14, against $3,845,642 75 for the year 1876—a decrease of $723,199 61. The proportion of operation expenses to earnings, excluding taxes and rental of leased lines, was 46.72 per cent, being 7.51 per cent less than for 1876. There was a decrease in the number of passengers carried of 104,390, with a decrease in the revenue therefrom of $183,737 57. The decrease in tonnage of freight transported was 96,583, with a decrease in revenue therefrom of $192,949 42. There was a decrease in the number of passengers carried one mile of 5,161,186, and a decrease in the number of tons of freight carried one mile of 15,256,373. The average fare of each passenger was 83.85 cents, against 89.48 in 1876. The revenue per ton per mile was 1.83 cent, against 1.79 cent, in 1876.

Cincinnati Southern Railroad.

Something must be done with our Southern Railroad. We are under an annual interest charge of about $1,200,000, which the city has to pay, whether the road earns anything or not, so that if we should delay completing the work for two years we would spend enough in interest to finish it, for it can be finished for $2,500,000, substantially, but not on the extravagant basis which has heretofore been followed. The enterprise is in just the condition to be speedily completed and thus made a permanent success, or else abandoned and become a lasting disgrace.

In a business point of view the cheapest thing for the taxpayers is to furnish the money to complete the work at the earliest possible moment, for the interest on the additional amount required would be more than paid by the net earnings for the first six months after the road is opened to business, and the net earnings of the first year would doubtless cover about one half of the total interest charge.

Important as this matter of interest is, it is overshadowed by the more important one of building up the trade of the city. We need every avenue of communication which we can secure with the country south of us to take our manufactures to consumers, and to bring us raw materials. This line of road opens up a new country, and the quicker we secure it the sooner will we get the benefit of direct transportation to a country which we have heretofore reached only by roundabout means, and through transportation lines hostile to the interests of this city. The matters of detail we do not propose to discuss; the great point is that the road must be finished, and that without delay; it must be done by the city or she will lose the money she has already spent in it. There is no backing out now without disgrace, if not dishonor.—*Cin. Price Current.*

☞ On the 17th of December last the Baldwin Locomotive Works, of Philadelphia, booked an order from the Russian government for forty first-class locomotives. The order was completed in seven weeks, and the locomotives are now boxed awaiting shipment by a couple of Russian steamers which are daily expected in Philadelphia. Four boilers were completed within a period of three weeks after the order was booked; in four weeks twelve were finished, in five weeks twenty-two, in six weeks thirty-three, and in seven weeks the forty boilers were all ready. The original number of hands at work when the order was received amounted to eleven hundred, and this number was increased to two thousand four hundred men, a great number of whom worked overtime, for the purpose of hurrying on the completion of the work.

☞ In the official report of the Austrian commission, volume 19, will be found a description of Riehle' Bros. Testing Machines, beams, etc., occupying 16 pages; also handsome lithographs of same. This notice from such a source is a well-merited tribute to this enterprising firm, and a compliment to American Manufacturers.

☞ Brattleboro, Vt., has voted, 638 to 422, in favor of transferring $50,000, the sum for which the town had bonded itself in October last in aid of the Brattleboro and Whitehall Railroad, to the new proposed narrow gauge railroad from South Londonderey to Brattleboro.

☞ The earnings of the Galveston, Houston and Henderson Railroad for the year ending December 31, 1877, were $454,304 56, the expenses $275,624 42, and the net earnings $178,680 14. During the year 160,814 tons of freight and 68,192 passengers were carried.

Import Trade of Philadelphia.

The imports from foreign countries into the port of Philadelphia during the year 1877 amounted to $20,125,182, of which $12,736,848 were brought in American vessels, and $7,888,289 in foreign vessels. The value of the merchandise imported into the port of New York and transported thence in bond, was, free of duty, $41,194; subject to duty, $652,810. Total, $694,004.

Value of foreign commodities transported from the port of Philadelphia to interior ports without appraisement: Baltimore, Md., $617; Chicago, Ill., $678,685; Cincinnati, Ohio, $11,930; Cleveland, Ohio, $1680; Louisville, Ky., $2170; New York, $6033; Pittsburg, Pa., $21,457; St. Louis, Mo., $26,262. Total, $751,829.

Duties received in coin during 1877, $6,351,638 44; during 1876, $7,643,427 18; during 1875, $8,164,518 71.

☞ Col. R. N. Pool, General Superintendent of the Royal Land Company of Virginia, is, it is said, completing arrangements with responsible parties for the construction of the narrow gauge railroad from Orange Courthouse, Va., to Rawley Springs and the coal fields adjacent thereto. These coal fields promise to be of almost inexhaustible supply. The Royal Land Company's Railroad, being constructed from Harrisonburg to Rawley Springs, a distance of eleven miles, will be quite an advantage to tourists by the Baltimore and Ohio road. The road is now in active operation from Fredericksburg to Orange Courthouse, a distance of 38 miles.

☞ At the annual meeting of the Delaware, Lackawanna and Western Railroad Company, held in this city on the 19th inst., the following officers were elected for the ensuing year:—President, Samuel Sloan; secretary, Frederick F. Chambers; treasurer, Frederick H. Gibbons. Managers, William E. Dodge, Moses Taylor, George Bulkley, John I. Blair, S. B. Chittenden, John Brisbin, George Bliss, Percy R. Pyne, William Walter Phelps, Wilson G. Hunt, Alfred L. Dennis, Benjamin G. Clark, William Ryle and E. W. Holbrook.

☞ The purchase of the St. Paul and Pacific Railroad from the Dutch bondholders by St. Paul and Canadian capitalists, negotiations for which have been pending some time, is completed. The purchase included two-thirds majority of the bonds, which aggregate $24,000,000, and the St. Paul purchasers are Norman W. Kittson and James G. Hill. The first result of the change will be the completion of the lines to Pembina and Alexandria the coming summer.

☞ The Ohio State Journal says the Columbus and Hocking Valley and Columbus and Toledo railroads are changing the gauge of their engines to four feet nine inches. This change, when made, will enable them to use both narrow tread and the compromise wheels.

☞ The Pennsylvania company's lines and the Pittsburg, Cincinnati and St. Louis road will soon narrow their gauge to four feet nine inches. Several other roads leading into Columbus made this change last fall. The change is made necessary by Eastern connections.

American Railroad Journal.

Saturday, February 26, 1876.

Financial and Commercial Affairs.

Money has been in ample supply for all legitimate purposes, and has been quoted to responsible borrowers quite easy as to price, as well in the discount as in the call loan line. The demand for aid from sources which have been deemed satisfactory to lenders has been on a moderate scale, and has been met with promptness at current quotations. The foreign advices have been of a reassuring tenor, and the outlook at home has been regarded as brighter in several important particulars. This improved temper of affairs has been reflected in the comparatively smooth working of the money market. Call loans were quoted here at from 4@6, the principal negotiations having been within the range of 4@5; and very choice to strictly prime mercantile credits were rated at 4½@7 per cent per annum. The City bank exhibit of last week indicated a reduction in the loan and discount average of $197,400, and an increase in the item of circulation of $94,100. The average of deposits was augmented $419,000. The legal tender reserve was reduced $81,400; and the specie average enlarged $864,700. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $14,824,200, as against $14,095,650 the preceding week, and $16,016,775 the week ending Feb. 9, (the latter the highest aggregate reached this year.) The City bank exchanges in currency reached $343,070,424, or a daily average of $57,178,404.

The outstanding amount of legal tender notes is

$349,110,424. The National bank circulation is now $320,608,518 of currency notes and $1,432,-120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $3,-619,000.

On Wednesday of this week, the cash balances in the National Treasury were of currency, $4,-292,586; special fund for the redemption of fractional currency, $10,000,000; special deposit of legal tenders for the redemption of certificates of deposit. $34,080,000; coin, $131,183,708, including $47,609,000 in coin certificates.

A comparatively ready sale has been reported, through the week, for most issues of Government securities, which have been less disturbed in price by the reports and rumors relative to Congressional action, on the various financial issues now pending. The offerings of bonds have been at times free, partly on speculative account, but have been marketed with little difficulty. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 105⅞@106⅛; do. coupon, 105⅞@106⅛; do. 1865, new, registered, 103⅛@103⅜; do. coupon, 103⅛@103⅜; do. 1867, registered, 105⅞@106; do. coupon, 105¾@105⅞; do. 1868, registered, 108⅛@108¾; do. coupon, 108⅜@109; do. ten-forties, registered, 104⅞@105⅛; do. coupon, 107⅜@107¾; do. five per cents, 1881, registered, 103¾@103⅞; do. coupon, 103¾@103⅞; do. 4½ per cents, 1891, registered, 102@102¼; do. coupon, 103@103⅛; do. 4 per cents, 1907, reg., 101@101¼; do. small, $500 and $1,000, 101⅞@102; do. sixes, currency, 119¼@119½.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $346,237,550, and $13,-493,000 as security for public deposits.

State bonds have been in moderate demand at variable prices, but toward the close attracted more attention, and were quoted somewhat steadier. Railway Mortgage loans have been in fair request, and the favorites of the actual interest bearing loans as a rule quoted firm, having been purchased to a respectable aggregate on investment account. And in the line of Railway and Miscellaneous share property business has recently been less active, and prices have been unsettled, opening heavily and receding ⅛@2⅛ per cent, but subsequently rallying sharply, and leaving off, as a whole, firmly, though without much animation. The course of business has been more or less seriously influenced by the Washington advices as to the prospect of the several financial projects now before Congress.

The income of the Government from internal revenues last week was about 2½ millions, and from Customs last week again about three millions.

Gold has been less confidently dealt in on speculative account, and has been quoted weaker in price, especially toward the close. The export call has been very light, and the drain for customs only to a fair average for the season. The more peaceful tenor of the foreign advices has been against buoyancy in this market. The extremes of the price during the week have been 101⅝@102¼, closing on Wednesday at 101⅞ as against 102¼ on Wednesday of the preceding week. The specie outflow last week was only $63,200—making the total exports of specie hence since January 1, $1,882,146 against $1,984,515 the same time in the preceding year. The imports of specie at this port last week reached $11,427, and since January 1st have been $2,805,413 as against $2,227,792 same time in the preceding year. The Customs demand for gold last week reached $2,-224,353 or an average of $370,725 per day.

Foreign Exchange has been generally more sought after, and quoted steadier as to price, but closed tamely. Bankers' sixty day bills on London closed on Wednesday at $4 81⅛@$4 82½; sight bills on London at $4 83½@$4 84¼ to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $6,411,214 as against $7,022,002 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $2,-104,874 of Dry Goods, and $4,306,340 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the aggregate value of $7,283,351, against $4,-670,161 same week in 1877.

A generally freer movement has been reported in Hardware, Boots and Shoes and Dry Goods, but with prices in several instances, in favor of purchasers.

Domestic produce has been generally less active, Breadstuffs and Provisions attracted less attention, and toward the close, were quoted irregular, and generally weak. Cotton has been more freely dealt in, but closed tame and weak. Naval Stores and Petroleum slow of sale at about former rates. Foreign merchandise has been in moderate demand. Coffees lower. Sugars firm.

Metals have been less sought after, and values of most kinds have been barely steady. Eglinton Pig Iron quoted at $24@$24 50; Glengarnock $25@$25 50; Coltness $26 50@$27; No. 1 American Pig at $18@$20; No. 2 do. at $17 50@$19 Forge $16@$17. American Rails at works $33@$37. Old Rails $19. Wrought Scrap $22@$23. Steel Rails, on the basis of $43 at tide water. Ingot Copper in less request on the basis of 17½ for early delivery.

Ocean freights have been less active and rates have generally quoted a shade lower, closing weak. Liverpool steamer rates at the close for Grain, quoted at 9@9½d. Flour, at 3s. 6d.@3s. 9d. Provisions, 40s.@50s.; Leather, 60s. Measurement Goods at 22s. 6d.@25s. per ton; Cotton, ⅛d.@9-32d. per lb. Liverpool, by sail. Cotton, 15-64@⅛d. Grain, at 7@7½d.; Flour, 2s. 3.@2s. 4½d.; Measurement Goods, 12s. 6d.@17s. 6d. Tobacco 30s.; Oil Cake at 21s.@22s. 6d. Grain rates on charter hence for Cork and orders left off at 5s. 5d.@5s. 6d.; for Liverpool at 4s. 9d. per quarter; for the Continent Grain at 5s. 6d.; and from Baltimore for Cork and orders, 5s. 9d. and from Philadelphia at 5s. 9d.; and from Portland at 5s. 9d. Refined Petroleum hence for Cork and orders, 4s.@4s. 3d.; for the Continent, 3s. 6d. and Java at 3s. 7d. and for Marseilles or Cette (crude) at 4s. 3d.@4s. 6d. Gibraltar and orders at 4s. 7½d.@4s. 10½d. Naptha for Morgan Pill at 4s. Cotton by sail from New Orleans to Liverpool 11-32d.@⅜d.; from Galveston, at ⅜d.@7-16d.; Ky. Tobacco from New York to Spain at 30s.@35s. 6d. Naval Stores from Wilmington or Charleston for Cork and orders at 3s. 6d.@5s. 3d. Lumber from Brunswick to the River Platte, $18. Deals from Portland to Glasgow at 72s. 6d., St. John to Dundalk at 73s. 9d., and Charleston or Savannah to the United Kingdom at 100@110s.; Hewn Timber from Doboy to do., at 35s. 6d.@36. Through Provision freights from the West for Liverpool, by steam, 62@75; for the Continent at 82½@95 per 100 lbs.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

OFFICE OF THE HANNIBAL & ST. JOSEPH RAILROAD COMPANY, 78 BROADWAY,
NEW YORK, February 14, 1878.

THE INTEREST MATURING MARCH 1, 1878, on the Fifteen year Eight per cent. Convertible Bonds of this Company will be paid on presentation of the proper coupons at the Bank of North America, No. 44 Wall street, New York, on and after FRIDAY, March 1, 1878. J. A. HILTON, Secretary.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, No. 31 NASSAU-ST.,
NEW YORK, Jan. 17, 1878.

A DIVIDEND OF THREE (3) PER CENT. HAS been declared by this company, payable on the 1st day of March next, to the holders of the capital stock of this company as registered at the close of the 12th day of February next, after which, and until the 4th day of March, the transfer-books will be closed.
L. V. F. RANDOLPH, Treasurer.

☞ The gross earnings of the Fort Wayne, Jackson and Saginaw Railroad for the year ending December 31, 1877, were $488,104 88, the expenses $400,826 18, and the net earnings $87,278 70. A heavy lumber traffic is reported. Freight business in general has largely increased, but passenger earnings have diminished.

Wabash Railroad.

At the annual meeting of the Wabash Railroad Company, held in Toledo, Ohio, on the 20th inst., the following Board of Directors was chosen: James A. Roosevelt, Cyrus W. Field, Walter J. Gurnee, H. A. V. Post, Solon Humphreys, M. K. Jesup, W. M. Bliss, and E. H. R. Lyman, of New York; A. L. Hopkins and W. Colburn, of Toledo; James Cheney, of Fort Wayne, Ind.; C. Ridgely, of Springfield, Ills.; L. H. Loftin, of St. Louis. The Treasurer presented the following statement: Gross earnings for 1877, $4,585,914 40; increase over 1876, $18,627 85; operating expenses, $3,829,801 41; decrease, $402,199 34; saving in leased lines, not included in operating expenses, $111,605 79; net increase in 1877 over 1876, $582,432 98. At a subsequent meeting of the board the old management was re-elected. One hundred and thirteen thousand shares of stock were represented.

☞ The United States Supreme Court has decided in the case of the Ohio and Mississippi Railroad Company vs. McCarthy that the company having contracted to forward cattle from East St. Louis to Philadelphia, it is responsible for the transportation over the whole route, as well upon the tracks of other companies as upon its own, and that railroads, unless forbidden to do so by their charters, have the power to contract for shipments the entire distance the freight is to be carried over connecting lines.

☞ The Junction and Breakwater Railroad Company have given out contracts for the extension of their road from Lewes, Delaware, its northeastern terminus, to Rehoboth, a new watering place on the Atlantic coast, four miles and a half south of Cape Henlopen. After the completion of the extension the trip from Philadelphia to Rehoboth, by way of the Philadelphia, Wilmington and Baltimore, the Delaware and Junction and Breakwater roads, can be made without change of cars.

☞ Mr. Unthank, an American engineer, lately engaged in a survey for a Chinese railway, measured the great wall of China, which he found to be 18 feet high and 15 feet wide at the top. The foundation everywhere is of solid granite. The builders did not attempt to avoid mountains or chasms to save expense. For 1300 miles the wall goes over plain and mountain, small streams being arched over, while on the larger rivers the wall runs to the water's edge and a tower is built on each side. On the top of the wall are breastworks, covering the passage from one tower to another.

☞ The Utah Northern Railroad is to be sold on the 20th of March by a master in chancery, at the suit of the Union Trust Company of this city. The road is now in operation from Ogden, Utah, to Franklin, Idaho, 80 miles.

☞ The Southern Minnesota Extension Company was recent y organized at Lanesboro, Minn., its object being the extension of the Southern Minnesota Railway westward the coming season.

RAILROAD EARNINGS—MONTHLY.

	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.

Schuylkill Navigation Co.

At the annual meeting of the Schuylkill Navigation Company, held in Philadelphia on the 12th inst., President Frederick Fraley read the report of the board of managers, which showed that the balance to the credit of general income account, January 1, 1877, was $56,494 20, and the total income for the year 1877 was $639,813 69, while the charges for the same time were $688,366 27, leaving a balance to credit of general income account, January 1, 1878, of $9,940 62. The dividend declared January, 1877, was payable in cash; that in August, 1877, payable in six per cent scrip of Philadelphia and Reading Railroad at a rate of $1 40 per share in preferred and seventy cents common, and was for one year. The interest on six per cent coupon mortgage bonds, guaranteed by Philadelphia and Reading Railroad, is in process of settlement by them under arrangements proposed by holders of that loan providing for funding the interest for five years in a six per cent scrip payable July 1, 1832, with the security given by the original mortgage. The amount of August dividends and interest on 1895 loan has been credited to the Philadelphia and Reading Railroad in rent account for 1877. The Treasurer's report shows that on January 1, 1878, the debits on the several accounts were $12,846,482 24, while the credits, including $53,674 78 cash on hand; $84,431 12 Philadelphia and Reading Railroad; and $36,268 58 general charges, were $12,670,555 86. The cash account shows receipts $606,101 84 and payments, $552,427 06. After the report was read and adopted the following officers were elected for the ensuing year: President, Frederick Fraley. Managers, J. N. Hutchinson, C. W. Wharton, G. Brooke, C. Baber, M. Ward, and T. R. Patton. Treasurer and Secretary, Richard Wilkins.

Baltimore and Delta Railroad.

Mr. Waters, President of the Baltimore and Delta Narrow Gauge Railroad and Mr. Dandridge, chief engineer, reached Baltimore yesterday, having passed over the line on foot with a view of making a careful reconnoisance previous to putting on a corps of engineers. Mr. Dandridge reported the route entirely feasible, and speaks in favorable terms of the agricultural and mineral resources of the country through which the road is to pass. He will organize his party immediately, and will commence the preliminary survey from Belair early next week, running first from Belair to Delta. The canvass for stock will be continued here by the president and the company's solicitor, Mr. Boyd.—*Balt. Sun, Feb.* 16.

Railroads of California.

The following is an abstract of the First Annual Report of the Commissioners of Transportation recently submitted to the Legislature of California:

The total length of the California system of railroads completed and in operation June 30, 1877, was 2,639.91 miles, of which 2,434.86 miles were broad (4 ft. 8½ in.) gauge, and 195.05 miles narrow (3 ft.) gauge lines. Deducting from the total that part of the Central Pacific beyond the State line (598.37 miles), the total length of railroad within the State was 2,041 54 miles. Steel rail was in use to the extent of 666 95 miles—within the State 584.24 miles and without the State 82.71 miles. In connection with and in continuance of the railroads, there were also operated 75.44 miles of steam ferry lines. The total length of sidings auxiliary to the main road, was 286.42 miles, of which 55.77 miles lay beyond the State line. The equipment of these lines consisted of: locomotive engines, 333; passenger cars, 384; express and baggage cars, 72; freight cars, 6,207; and other cars (construction, etc.,) 1,131.

Excluding portions of lines recently completed, or for other reasons not operated, the length of roads worked for revenue in 1876-77 was 2,533 35 miles. On this extent of open roads the gross earnings amounted to $22,901,575, and the operating expenses to $11,428,360, leaving the earnings applicable to interest and dividends $11,473,215. The following is the statement in further detail:

	Length of Lines Operated. Miles.	Gross Earnings. $	Gross Expenses. $	Net Revenue. $	Interest on Bonds & Debt. $

The railroads marked with an asterisk, aggregating 186.27 miles, belong to the Central Pacific Company. They are new constructions with unsettled accounts. Not including these, the total length of all the lines completed June 30, 1877, was 2,543.64 miles, and their cost $246,814,135, or $97,031 87 per mile. This cost varies from $120,671 10 in the Central Pacific to $10,225 82 in the Visalia. The cost of the California Pacific was $118,810 10 per mile, and the cost of the Southern Pacific $93,477 98 per mile.

Testing the Coinage.

The result of the annual assay of the coinage at the Philadelphia mint, which has just been concluded, has been remarkably satisfactory, and pays the highest compliment to the accuracy and perfection of the work done by the mints. The Weighing Committee counted and assayed 47,248 pieces, representing $44,549 50 in gold, and $14,418 62 in silver, these being taken indiscriminately from all the deliveries made by the coiner to the Superintendent, the number being at least one out of every thousand pieces, and retained expressly for this examination. Instances have happened at this mint where a single piece was found to vary from the standard weight, but a re-weighing of the whole mass of several hundred thousand dollars did not result in discovering a single other piece that deviated from the standard. In the whole history of the Government only two or three pieces were found to vary from the standard weight—neither of them coined at this mint. The weighing committee found all the coins far within the standard weight. The extreme variation above or below the standard which is allowed by law is a grain for double eagles and eagles, half a grain for other gold coins, and three grains for silver. The test showed an extreme variation in Philadelphia coinage of 7-32 light up to standard in double eagles and 1-32 either way in eagles; in the trade dollar, 8-10 light to 8-10 heavy; and in dimes, 2-10 light to 8-10 heavy. The results of weighing in masses was even more satisfactory, the extreme being .0024 of an ounce in $50. In assaying the Philadelphia and Carson double eagles were found to be absolutely perfect, and the mean variation only 8-10 of the 2-1000 allowed. The test was one of the most satisfactory on record.

Mississippi and Tennessee Railroad.

The earnings of this road for the years ending September 30, 1876 and 1877 were as follows:

	1876.	1877.
From passengers	$126,168 43	$110 671 02
" freight	330,168 23	310,231 91
" express	5,000 00	3,548 62
" mails	6,263 10	6,610 48
" privileges	1,672 24	2,383 85
	$469,272 00	$433,440 38
Expenses, viz:		
Conducting transp.	$58,152 78	$54,789 74
Motive power	70,756 87	61,040 19
Maintenance of way	76,121 29	84,275 11
Maintenance of cars	22,442 76	20,567 29
	$227,473 70	$220,672 33
Net earnings	$241,798 30	$212,768 05

Compared with the previous year the gross earnings show a decrease of $35,831 62, with a decrease in expenses of $6 801 37, making the decrease in net earnings $29,030 25. The operating expenses in 1876, were 48.48 per cent of gross earnings; in 1877 they were 49.08 per cent. There was an increase in through passenger receipts of $1,487 80, and a decrease in local passenger receipts of $16,984 71, and in freight receipts of $19,963 32. The decrease in local freight and passage is stated by the President to be due to the exceedingly small cotton crops along the line of the road last year. There was a decrease in the receipts of local cotton at Memphis of 21,489 bales, and a decrease of shipments from local points to New Orleans of 1,617 bales, and from connections of 1,467 bales, while the number of bales transported from Memphis to New Orleans was 15,121 more than the previous year—thus making a total decrease of 9,452 bales. The number of bales of cotton received at Memphis the past year was 46,108, against 69,064 in 1876, a decrease of 22,956. The number of bales forwarded to New Orleans from Memphis and local stations was 66,663, against 53,159 in 1876, an increase of 13,504. The total movement of cotton for the year 1876 was 112,771, against 122,223 in 1876, a decrease, as stated above, of 9,452 bales.

The equipment of the road consists of 11 locomotives, 10 passenger and 2 combination coaches, 3 baggage, 4 caboose, 80 box, 44 flat, 8 stock, 12 hurdle, 14 hand, and 6 boarding and tool cars.

The mileage of engines has been: on passenger trains, 105,169; on freight trains, 73,925; switching trains, 18,300; on construction trains, 24,325—total, 221,719; at a cost per mile run for repairs, fuel, wages and stores of 19.97 cents. The report says:

Shipments of cotton direct from Liverpool and other European points have increased very much in the last few years, and with proper arrangements with steamship lines, we see no reason why our line should not carry the major portion of the cotton leaving our city for foreign ports, and better rates obtained than at present.

It is very gratifying for us to state that the company has sustained not a single loss by accident, and we now find our roadway and equipment in good condition, though much yet remains to be done in the way of widening embankments and building permanent bridges. We have made our expenses as light as prudence would justify.

Our motive power and rolling stock are in very good order, and our passenger and freight equipment, though limited, we consider sufficient for the present demands of the company.

During the present fiscal year just closed we have laid 492 tons or, or 5 1-5 miles sixty pound fish-bar iron, re-rolled at a a cost of $13,302 63, or $27 04 per ton, including freight to and from the mills.

With the new bridge (Fink Combination) just completed over Nonconnah creek, and the 4637 feet new trestling built during the season, our bridges are in good order.

Our funded debt last year was		$2,173,074 00
Our funded debt now is		2,154,714 00
Decrease		$18,360 00
Our floating debt last year was		$101,120 03
Our floating debt this year is		75,198 62
Decrease		$25,922 41

which is still further decreased by cash on hand, $15,991 96 and other assets, $70,875 82.

You will therefore see although our gross earnings have been greatly reduced from local causes, bad crop, &c., we have from the earnings of the road kept it in good order, made all improvements and additions necessary, have paid promptly all interest on our floating and funded debt, besides having reduced our funded debt $18,360, and our floating debt $25,922 41.

At a meeting of our stockholders held on the 30th of July last, a most satisfactory plan was adopted by which we propose to consolidate our entire funded debt by the issue of new bonds, having twenty five years to run. Our first mortgage bonds matured April 1st, 1876, and hence it was necessary that some fair and equitable plan should be adopted to retire them. To that end the plan above stated was adopted, and is so clearly beneficial to the holders of our obligations and the company, that it has been accepted readily by all parties, and will be no doubt consummated in the next few months. This will reduce our funded debt to $2,100,000, and place it in a much more satisfactory shape than at present, and will also furnish us with the means to connect our line with the other roads terminating in the city, and also with the river.

With our debt thus consolidated, and the connections proposed effected, we confidently anticipate an increased prosperity to our enterprise.

Passenger trains have run 109,744 miles, earning per mile, $1 11.09; freight trains have run 87,650 miles, earning $3 55.52. Total train mileage, 197,394 miles. Receipts per mile, $2 19.49; expenses, $1 11.83. Receipts per mile of road, $2,434 40; expenses, $2,206 72; net, $2,127 68.

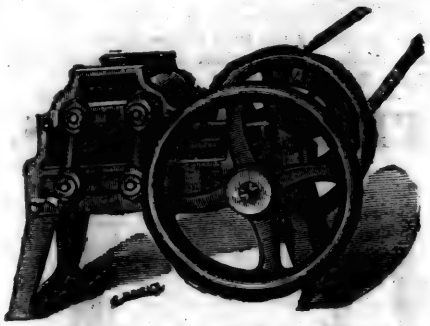
President.—H. S. McComb.

Vice President.—F. M. White.

Directors.—H. S. McComb, F. M. White, E. C. Walthall, A. T. Lacey, A. M. West, N. R. Sledge, Nat. Howard, R. P. Neely, John Robertson.

Secretary and Treasurer.—S. H. Lamb.



Superintendent.—M. Burke.

☞ The Fitchburg Sentinel says that notes owed by the Boston, Clinton, Fitchburg and New Bedford Railroad Company, to the amount of $1,750,000 have been surrendered by the holders in exchange for an even amount of the preferred stock, authorized by the Legislature. This relieves the corporation of the load which for a year past has been so burdensome, not only in the payment of a large amount of interest, but in the ever impending danger of bankruptcy.

☞ A dispatch from Washington of date Feb. 14th says that Judge Dillon has declined to render a decision in the pro rata case of the Kansas Pacific against the Union Pacific Railroad Company in the United States Circuit Court for the District of Nebraska, for the reason that the Kansas Pacific has dismissed the action, thus leaving the latter where it was seven years ago.

☞ At the annual meeting of the stockholders of the Pittsfield and North Adams Railroad Co., held in Boston on the 18th inst., the following gentlemen were chosen directors for the ensuing year: Chester W. Chapin of Springfield, F. H. Bradlee, Edward Jackson, F. H. Appleton and Ignatius Sargent, Jr., of Boston. This road is leased to and operated by the Boston and Albany Railroad Company.

Purchase all marketable Railway Securities. A specialty of Stocks and Bonds of Roads leased to Erie and New York Central, either interest-paying or defaulting. Also, Stockf and Bonds of City Railroads.

Can I Obtain a Patent?

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

EDWIN H. BROWN,
7 Warren Street, New York,
Solicitor U. S. & Foreign Trade Marks & Patents.

Make a note of the time when you first think of an invention, date and keep all writings, sketches, drawings and models of it. It will be well to have persons sign the former as witnesses, and this may be done without exhibiting the contents. To establish title to your invention, even after obtaining a patent, you may have to prove that you made it before any one else, and never gave it up.

The Coal Trade.

For the week ending the 9th instant, the total anthracite production, as reported by the several carrying companies, amounted to 227,152 tons, against 264,395 tons in corresponding week last year a decrease of 37,243 tons. The total amount of anthracite mined for the coal year is 1,433,945 tons, against 1,437,835 tons for same period last year, a decrease of 3,890 tons. The quantity of bituminous coal sent to market for the week amounted to 22,113 tons, against 49,467 tons in corresponding week last year, a decrease of 27,354 tons. The total amount of bituminous mined for the year is 186,299 tons, against 280,621 tons for corresponding period last year, a decrease of 94,322 tons. The total tonnage of all kinds of coal for the week is 249,265 tons, against 313,862 tons in corresponding week last year, a decrease of 64,597 tons. The total tonnage of all kinds of coal for the coal year is 1,620,244 tons, against 1,718,456 to same date last year, a decrease of 98,212 tons. The receipts at Perth Amboy for the week ending on the 9th instant were 1,883 tons, the shipments 8,390 tons, leaving a stock on hand of 105,250 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last three days of January was 43,078 tons, of which 31,703 tons were coal, and 11,375 tons coke. The total carried for the year is 365,458 tons, of which 281,595 tons were coal and 83,858 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad brought 5 tons to Port Richmond whilst 16,000 tons were shipped thence last week. The entire tonnage of the Reading Railroad for the week ending Saturday, February 9, was about 11,000 tons.—*Phila. Ledger, Feb.* 18.

☞ Capt. A. H. Bugher has been appointed a Trustee of the Cincinnati Southern Railway vice John Schiff deceased.

Steam Office Watchman!!

THIS GAUGE IS USED IN HOTELS, STEAMERS, Manufactories, Breweries, etc.

The Inventors of this combined "Pressure Gauge" and "High-Pressure Alarm" have, after many years of persistent effort and at great expense, succeeded in perfecting a reliable and accurate instrument for measuring either air, steam or water, when subjected to pressure, and for denoting the same by an automatically written tracing upon Edson's Patent Logs or "Charts." No manufacturer or steam user can afford be without them. Circulars sent on application to

American Railroad Journal.

New York, Saturday, March 2, 1878.

Delaware, Lackawanna and Western R. R.

The report of the Delaware, Lackawanna and Western Railroad Company for the year ending December 31, 1877, shows that the net earnings from transportation on all its lines were $4,401,858 39. The losses on coal amounted to $1,922,660 99—thus reducing the balance of net earnings to $2,479,197 40. The interest on the company's bonds was $201,957, and the rentals (interest on stocks and bonds of leased roads) $3,185,262 34—making the total of fixed charges, $3,387,219 34. The year's business accordingly resulted in a loss of $908,021 94, equal to 3.46 per cent on the capital stock of $23,200,000.

The company's bonded debt is $3,015,100, including $195,000 of the recently authorized consolidated mortgage; there remains, therefore, nearly seven millions of borrowing power unused, since the amount of the consolidated mortgage authorized, inclusive of all bonds outstanding, is $10,000,000.

The net floating debt December 31, 1877, was $1,693,169 99; the gross floating debt, including not only bills payable, but the December pay rolls, payable in January and now paid, the January payments on securities of leased lines, and all forms of temporary debt or book accounts; and the deductions, including cash and coal on hand, bills and accounts receivable, advances on coal to be delivered, and advances for construction on leased roads, to be settled for in stocks or bonds of those corporations.

The surplus account is reduced by the year's losses to the present total of $4,305,415 84.

The losses on coal during 1877 came from small production, low prices, and the strike which lasted from July 25th to October 16th. The company handled during the year 2,369,880 tons: 1,184,433 its own product, 856,238 purchased, and 329,213 transported for other parties. Under the terms of the company's leases of coal lands, of which it holds 4,000 acres in addition to 15,000 acres owned, it has, down to December 31, 1877, paid for 3,255,624 tons of coal not yet mined.

The total operations, transportation, and coal departments of the road in 1876 showed $721,824 above fixed charges; in 1877, $908,022 below—a comparative loss of $1,629,846. Actual result of business for the two years, a deficiency of $186,198; so that during those years the company has lost not quite four-fifths of one per cent on its capital stock.

The following shows the condition of the company at the close of 1876 and 1877:

LIABILITIES.

	1876.	1877.
Stock	$26,200,000	$26,200,000
Bonds	2,820,100	3,015,100
Net floating debt	880,315	1,693,170
Surplus	5,213,437	4,305,415
Totals	$35,113,852	$35,213,685

ASSETS.

Construction	$29,520,365	$28,817,018
Materials on hand	1,209,650	983,402
Stocks and bonds, market value	4,383,837	4,608,400
Changing gauge	....	804,865
Totals	$35,113,854	$35,213,685

☞ A bill has passed both branches of the Virginia Legislature granting a charter to the Richmond and Allegany Railroad Company, giving permission to construct a railroad from Richmond, via Lynchburg, to any point on the Chesapeake and Ohio Railroad west of Staunton, with authority to construct branches to any point on the West Virginia State Line, via Craig's Creek or Jackson's River, and to Fincastle, Va.

Marietta and Cincinnati Railway.

Mr. John King, Jr., receiver of the property and assets of the Ohio and Mississippi Railway, has filed with the court his second report in the premises. The floating debt as per statement of the previous report, November 18, 1876, was $1,404,736 17, of which there remained unpaid May 17, 1877, $797,655 51, and of claims incurred anterior to November 18, 1876, since audited, $19,811 29—total, $817,466 80, of which there remained unpaid December 31, 1877, $694,293 28. There is a further and unsecured funded debt of $140,000, known as debentures of May 1, 1878, with interest at 7 per cent, payable half-yearly, and maturing May 1, 1883, on which no interest has been paid since November 1, 1876.

The interest and contributions to the sinking fund which had accrued on the mortgage debt on the main line prior to May 18, 1877, and which remained unpaid December 31, 1877, amounted to $149,260, and the interest and contributions to the sinking fund accrued on said mortgage debt since May 17, 1877, and unpaid as of December 31, 1877, was $431,202 19—leaving a total of unpaid interest and sinking fund on mortgaged debt secured by the main line of $580,462 19. The provision for funding coupons matured during two years succeeding May 1, 1875, on the $3,000,000 mortgage bonds of the Ohio and Mississippi Railway, secured by property of the Springfield division, ceased to operate May 1, 1877, and the interest accrued on said bonds as of Nov. 1, 1877, remains unpaid.

The gross amount of receipts from all sources from May 18, 1877, to December 31, 1877, including cash on hand, was $3,008,189 42, from which there has been paid the sum of $2,910,533, leaving a cash balance on hand, as of December 31, 1877, of $97,655 97. The earnings of the main line for eight months ended December 31, 1877, had a net result of $578,128 18, and on the Springfield division a deficit of $48,016 62. On the Springfield division there has been a heavy expenditure for repairs, and that section of the road is probably now in better condition than at any previous time, and it is hoped any deficit will be

avoided hereafter. The whole road, main stem, etc., is in better condition than ever before.

The total yearly interest on the mortgage debt of the main line and the Louisville branch, including contributions to the sinking fund, is $761,580. The taxes, amounting to $83,772 on the tangible property of the road, was paid promptly. On all the lines together the net earnings for the eight months averaged $66 888 per month, but taking the five months ended Dec. 31 last, the average was $94,119 58, or $30,658 75 per month more than was necessary to pay the monthly proportion of interest. Mr. King expresses a strong conviction that the property of the Ohio and Mississippi Railway Company should not be sold under proceedings for foreclosure.

Mr. Jackson's Vindication.

It is one of the weaknesses attendant upon the infallibility of human governments that the innocent sometimes suffer with the guilty. Criminals often attempt to shield themselves from the justice of the law by accusations against innocent parties, but it seldom happens that such parties, no matter how clear they may be of the misdemeanor charged, are able to obtain such an early, complete and triumphant vindication as was accorded Mr. Job H. Jackson, president of the Jackson & Sharp Company, of Wilmington, Del.

Arrested in a manner that, had he been a hardened criminal, could not have been more peremptory, without an opportunity even to say goodbye to his family, taken among strangers and cast into prison under such an accusation as ingenious deviltry is alone capable of conceiving, many a man, no matter how innocent, taken so unprepared, and after so many years had elapsed since the date assigned to the alleged transaction, would have found himself unable to establish, by proper legal evidence, the groundlessness of the charge made against him. That Mr. Jackson was so abundantly able to do this is attributable not only to his innocence, integrity and high standing among his fellow citizens, but is also a tribute to the clear headed and straight forward ability with which he conducts his business, and the systematic manner in which transactions are recorded upon his books. All the facts of the case, as laid before Governor Colquitt, have not as yet been published, It is significant that no prosecutor appears in the presentment under which Mr. Jackson was arrested, and that Senator Hill has declared if any responsible name could be connected with the "special presentment," he would "make it lively for him."

The letter of Governor Colquitt, which has been widely published, was a manly and, so far as the limits of the executive office would permit, a complete vindication. A less resolute man than Mr. Jackson would have been crushed by the character of his arrest into submission to the blackmail, which all the circumstances tend to show was the principal motive of his arrest. Mr. Jackson not only owes the state nothing, but it is indebted to him over thirteen hundred dollars, while the party who is the prime mover in the arrest is indebted to him for a still larger amount.

As a signal example of a triumph of conscious integrity over malicious accusation, and, as a matter of justice to Mr. Jackson, the widest possible publicity should be given to the fact of his complete, thorough and magnificent vindication.—*Traveler's Official Railway Guide.*

☞ The gross earnings of the Burlington, Cedar Rapids and Northern Railroad for January, 1878, were $165,411 53, the operating expenses $94,865 91, and the net earnings $70,545 62—an increase over the net earnings for January, 1877, of $55,455 40. Since July 1, 1877, the gross earnings have been $986,644 14, and the net earnings $396,874 12—an increase over the net earnings for the corresponding period of the previous year of $272,318 89.

Detroit and Milwaukee Railroad.

The receipts and expenses for the years 1876 and 1877, exclusive of Lake Michigan proportion, were:

Receipts:	1876.	1877.
From passengers	$359,663 18	$357,147 05
Freight and live stock	573,245 96	526 165 65
Mails and sundries	39,697 89	35,892 88
Rents	4,848 02	4,916 52
	$977,455 05	$925,122 10
Expenses:		
Maintenance and renewal of way	$269,377 03	$260,149 48
Locomotive power and repairs	211,391 91	163,888 48
Passenger and freight car repairs	113,537 75	80,048 59
Passenger transit exp	81,988 55	80,701 69
Freight transit expenses	138,850 48	138,516 76
General charges	36,295 25	26,421 08
Taxes and insurance	43,724 83	41,092 57
	$885,165 80	$790,818 65
Balance being net revenue for the year	$92,289 25	$134,303 45
Thus disposed of:		
Interest on Detroit and Pontiac R. R. bonds	$37,500 00	
Interest on Detroit River Front and Mechanical Shops bonds	10,576 66	
Interest on short loans	9,351 22	
Total interest	$57,427 88	
Expenditures for new works	80,067 57	
		137,495 45
Deficit		$3,192 00

From April 16, 1875, to December 31, 1877, the receipts were $2,591,595 13, and the expenditures $2,313,365 04, leaving a balance of $278,230 09. From which deduct interest on Detroit and Pontiac Railroad bonds, ($91,437 51); on Detroit River Front property bonds, ($13,475 37); on Mechanical shops property bonds, ($12,708 33); and on short loans, ($13,872 37)—leaving a balance of $146,736 51. The expenditures during the same period for new work amounted to $122,926 13, leaving balance to be carried to general account of $23,810 38. The Receiver, in his report to the Circuit Court of Wayne County, says:

The undersigned, Charles C. Trowbridge, appointed by your Honorable Court on the 10th day of April, 1875, to be the Receiver of the Detroit and Milwaukee Railroad, in addition to the annual report of the operation of said road for the year 1877, has added a report of the working of the line since the date of his appointment, and a general balance sheet, showing the condition of the trust on January 1st, 1878.

When your Receiver was appointed the company had been in default since the year 1873 upon all its mortgages except those of the Detroit and Pontiac Railroad, and river fronts, assumed by said D. & M. Company.

The company was also in default upon the wages due to employes, to contractors for fuel and ties, and for iron, oil and other articles used in the working of the road, the whole amounting to $216 498 89.

Owing to the decrease of traffic upon the road, and the reduction of rates by reason of fierce competition between contiguous lines, this road had fallen into a state of decay, which not only increased the hazard and expense of performing its office to the public, but actually caused the fear of total inhibition upon some parts of the line by order of the State Commissioner of Railroads.

Under these circumstances, the Receiver has from time to time made known to your Honorable Court the exigencies of the road, and with consent of the parties to the suit has received the following named orders:

1. April 19th, 1875. To pay the employes of the company one month of the arrears of wages.
2. May 5th 1875. To pay another month of wages, balances to other companies, and interest on mortgages on the line, of date prior to those now before the court. Also to pay arrearages due for fuel and ties and to borrow money for these purposes; and to make certain leases of ground for grain elevators, &c.
3. May 5th, 1875. Authority to lay a track from main line at Pontiac to the State Lunatic Asylum at that place.
4. July 17th, 1875. Authority to execute a contract with John S. Newberry, Trustee, for the erection and maintenance of a grain elevator at Grand Haven.
5. November 10th, 1875. Authority to execute a contract with John S. Newberry and James McMillan, Trustees, for the hire of freight cars for the Receiver's use.
6. December 23d, 1875. Authority to purchase fuel and ties for the use of the road, and to borrow money to pay for the same.
7. April 6th, 1876. Authority to purchase 5,000 tons of steel rails and to issue certificates to the vendors, pledging the revenue of the road for payment of the same.
8. June 22d, 1876. Authority to purchase four locomotive engines and to issue Receiver's certificates therefor, pledging the revenue of the road for payment of the same.
9. October 31st, 1876. Authority to purchase fuel and ties for use in 1877-8, and to borrow money to pay for the same.
10. April 4th, 1877. Authority to purchase 2,500 tons steel rails and fixtures, and to issue certificates therefor, pledging the revenue for the payment of the same. The same order authorizes the Receiver to erect an iron bridge over the Grand River at Grand Rapids, and to borrow money to pay for the same.
11. January 7th, 1878. Authority to purchase fuel and ties for use in 1878-9, and to borrow money for the same.

In pursuance of the authority and commands in said orders, the Receiver has paid the arrearages of $216,498 89 for wages, fuel, ties, stores, etc., existing at the date of his appointment—he has laid 2,000 tons of iron rails and 7,999 tons of steel rails on the line, the iron in 1875, and the steel in 1875, 1876 and 1877. There are now 150 miles of steel rails and 89 miles of iron rails in the line. The Chief Engineer reports that one-half of the iron rails should be replaced by steel in 1878 and one-half in 1879.

The cost of the iron rails in 1875 was $24 20 per ton in addition to the old rails; and of the steel in 1875, $78; in 1876, $61 50, and in 1877, at $53 50 per ton. The old iron rails were used in part payment at the rate of $21 50 per ton in 1876, and $19 50 per ton in 1877.

The total cost of these rails, with their fastenings, in the track, was $413,863 68, of which $212,537 45 is charged to a suspense account to be spread over future years.

Twenty-nine and a half miles of sidings have been taken up and relaid with sound rails and 4¼ miles have been added, making the total length of sidings 84¼ miles. To these, additions will be required as traffic increases.

Three wooden bridges have been built at Pontiac; one wooden bridge over the track at Plainfield road; one iron girder bridge, 282 feet long, over the Maple River, and one of the same character over the Grand River at Grand Rapids. The latter is 620 feet long, and 250 tons. The first bridge of wood, erected at this crossing, was 1,200 feet long. The track has been filled from year to year so as to shorten the bridge, and on the present occasion has been filled up to the depth of six feet, requiring a filling of half a mile on each side of the river and thus removing a steep and dangerous grade. The total cost of the Grand River bridge and approaches has been $39,878 49.

The grade at Pontiac has been reduced at a cost of $3,209 08, and the lake at Saddle bag swamp, which was partly filled in 1858, but abandoned as impracticable with the means at command, has been filled with earth at a cost of $10,497 59, thus releasing from daily service a tortuous and dangerous track, decreasing the distance and lessening the daily expense of working trains. Other grades have been much improved and many of the station yards enlarged, notably that at Grand Rapids, where $8,661 98 were expended.

When the Receiver took charge of the line only about 100 miles had been ballasted, and that only in part. Since that date 150 miles have been lifted and fully ballasted; 23 miles partly ballasted, and 16 miles have been lifted with sand from the sides, at a cost of $103,335 57. One trestle work at Brandy Creek has been made solid earth embankment with an iron pipe for waterway six feet in diameter; and another trestle work at Indian Mill Creek was also filled up, and an open stone culvert built for waterway 18 feet wide. Thirty-seven culverts have been renewed with stone walls and roofs of old iron rails; three culverts renewed with sewer pipe, and two with iron pipe 16 inches in diameter.

One new station house has been erected at the joint expense of the D. & M., and Chicago and Northwestern roads, at the crossing at Durand Station, and one at the junction of the Grand Rapids and Indiana with the D. & M. at Grand Rapids. This was also done at joint expense of the two roads. All the station houses on the line have received attention. The freight house at Detroit was crushed by snow in the winter of 1876-7. It has been thoroughly rebuilt upon an improved plan at a cost of $11,003 71.

The rolling stock belonging to the company at the date of the Receiver's appointment was reported in the books as follows: 30 line engines, 4 shunting engines, 27 passenger cars, 1 pay car, 295 box, 29 cattle, 138 flat, 2 repairing, 6 baggage, 3 mail and express, and 16 way cars; total cars 517. Several of these have been worn out and broken up; 67 new cars, including five passenger cars, have been built in Receiver's shops and charged to operating expenses at a cost of $70,102 48, and the number of cars on hand at this date is 523, namely: 22 first class passenger cars, 4 second class passenger cars, 1 pay car, 7 passenger and baggage combination cars, 1 smoking car, 3 mail cars, 6 baggage cars, 11 way cars, 340 freight box cars, 124 flat cars, 1 wood train boarding car, 2 bridge repair cars, 1 auxiliary car.

Four Mogul engines have been purchased, and four old engines have been worn out and broken up, leaving the present number the same as in April, 1875, namely, 30 line engines and 4 shunting engines.

All the shop machinery and tools turned over to the Receiver remain intact.

The following named lands have been acquired by the Receiver for the purpose of facilitating the traffic of the company, namely:

A lot of land at Pontiac for the purpose of straightening the line at a cost of	$100 00
A lot at Grand Rapids in order to enlarge the station yard	400 00
A lot at Grand Rapids for the use of the gravel	150 00
A lot at Springfield for gravel pit	400 00
Right of way for a siding at Holly	425 00
Right of way for a siding at Pontiac	260 50
Total	$1,735 50

The expenditures thus noted in detail, have transformed the line from its dilapidated and dangerous condition of 1875 to its present state, which is alleged by engineers to be at least equal to that of any other road in the State, thus enabling the Receiver to perform the service expeditiously, regularly and with safety and satisfaction to the public.

The ratio of working expenses to gross receipts in 1875 was 89.98, in 1876 it was 86.08, and in 1877 81.04 per cent, notwithstanding the diminution in revenue in 1877 against 1876 was $52,832 95. The total revenue expenditure in 1876 was 90.55, and in 1877 85.48 per cent of gross receipts. For the entire period under review, the working expenses have been 84.80, and the total revenue expenditure 89.27 per cent of gross receipts.

GENERAL BALANCE SHEET for the period from 16th April, 1875, to 31st December, 1877, being thirty-two and a half months:

To balance brought from net revenue account		$23,810 38
Stores and fuel on hand at 15th April, 1875		159,559 93
Detroit and Pontiac R. R. bond coupons outstanding		4,205 00
Wages for December, 1877, including those unclaimed since 15th April, 1875		46,039 91
Bills payable:		
Issued for loans to pay fuel and ties	*$55,000 00	
Issued for loan to pay for bridge across Grand River	10,000 00	
Issued for premium of insurance on through freight across Lake Michigan	9,357 50	
		74,357 50
Certificates of indebtedness issued by receiver:		
To Cleveland Rolling Mill Co., for steel rails	$208,398 70	
Dickson Manufacturing Co., Scranton, Pa., for four locomotives	42,000 00	
Detroit Bridge and Iron Works, Detroit, on account of Grand river bridge	10,000 00	
For costs of foreclosure suit by order of court	32,200 00	
		292,598 70
Sundry accounts:		
For store accounts unpaid	$14,451 16	
Car mileage accounts	15,151 64	
State tax from 1st July, 1877, to 1st January, 1878, payable 1st July, 1878	12,585 70	
Commissioners of Eastern Asylum for the Insane of Michigan, Pontiac	4,978 21	
Great Western Railway Co. and other lines	4,216 50	
Sundry other accounts	6,889 58	
		58,272 79
		$658,844 11
By general stores and fuel on hand at 31st December, 1877		$39,552 26
Insurance premiums paid, chargeable to year 1878		11,367 05
Steel rails, balance of 7,555 tons divisible over future years		212,537 45
Liabilities at 15th April, 1875, paid by the receiver		216,498 89
Costs of foreclosure suit paid by order of the court		49,450 00
Bills receivable		5,728 75
Balance in banker's hands, traffic balances, and sundry accounts due to the receiver		71,709 71
Four locomotives from Dickson Manufacturing Co., Scranton, Pa., as per contra		42,000 00
Part of cost of Grand river bridge to Detroit Bridge and Iron Works as per contra		10,000 00
		$658,844 11

* Fifteen thousand dollars of this sum has been paid in January, 1878.

An Elegant Parlor Car.

The Baltimore Sun notices the arrival at Camden Station, Baltimore and Ohio Railroad, on the 20th ult. of a costly and handsomely furnished sleeping and parlor car, just finished at the works of the Harlan & Hollingsworth Company, Wilmington, Delaware, for the Woodruff Sleeping and Parlor Coach Company. The interior of the car is 54 feet long, and at night is furnished with six sections of double berths. The flooring for the upper tiers of berths slips down by a novel mechanical arrangement, and is contained during the day in compartments along the sides of the car. There are dressing rooms for ladies at one end of the car and for gentlemen at the other. The platforms are fitted with railing, the gates of which are securely closed while in motion. The car is called the "Grace," and is in charge of Mr. F. Rahm, of Pittsburg, President of the Woodruff Company, and P. Harvey, Conductor. It will be taken to St. Louis and placed on the line from that place to Peoria, Illinois.

A Portable Railway Track.

A portable railway track was recently shipped by Messrs. Atkins' Brothers, of Pottsville, Penn., to parties in this city, for the owner of one of the large sugar plantations in Cuba. It is 1½ miles long, and is designed to be used in carrying the cane to the mills, instead of by the old process of ox and mule carts. The soil is very soft on these plantations, and the quadrupeds make but slow progress. This track, which contains over seven hundred pieces, is so fitted that it can be laid and relaid at any point necessary for use by the most inexperienced, and is calculated to effect a great saving in labor.

☞ The Russian government has just concluded a contract with the Morris & Cummings Dredging Company, of New York, for deepening to a uniform depth of 20 feet the channel of the river Neva, between Cronstadt and St. Petersburg. Twenty-five thousand dollars were cabled to Russia as earnest money. The dredging "plant" will cost $200,000. Most of it will be constructed in this country, and will be on hand ready for operation on 1st May next. The quantity of mud, etc., to be excavated is estimated at 15,000,000 cubic yards, and the work must be completed in four years.

☞ At the annual meeting of the stockholders of the Marietta and Cincinnati Railway Company, held in Cincinnati on the 20th ult., the old board of directors was re-elected with the exception of J. Donnell Smith, resigned. Henry C. Smith, of Baltimore, was elected in his stead. Over five millions of stock was represented at the meeting. After the adjournment of the stockholders, a quorum of the newly elected directors met and organized by the election of John Waddle, of Chillicothe, Ohio, as President, Charles F. Low as Secretary, and Wm. E. Jones as Registrar.

☞ The stockholders of the Cincinnati and Baltimore Railway Company held their annual meeting in Cincinnati on the 20th ult. The former directors were re-elected. Wm. T. McClintick, of Chillicothe, Ohio, was again chosen President, Charles F. Low Secretary, and Wm. E. Jones, Registrar. Stock to the amount of $918,250 out of $1,250,000, the entire capital, was represented at the meeting.

RAILROAD AND CANAL DIVIDEND STATEMENT.

Showing the amount of Stock Outstanding, the Dividend Periods and the date of last Dividend.

Marked thus (*) are leased roads.	Stock outstanding.	Dividend Periods.	Last Dividend Payable.

Consolidation Coal Co.

From the report of the directors of the Consolidation Coal, which was presented at the annual meeting of the stockholders in Baltimore on the 20th ult., we learn that the total receipts for the year 1877 were $1,475,558 91, and the total expenditures (including $235,960 11 interest and sinking fund) $1,482,604 84—showing a deficiency of $7,045 93. The total funded debt January 1, 1878, was $2,825,500. There was mined and delivered from the Consolidation Company's mines, in 1877, 348,385 tons of coal, a decrease of 8,432 tons from previous year. The total transportation of coal on all the company's railroads in 1877, was 1,549,646 tons, a decrease of 169,207 from preceding year. To the great stagnation of business throughout the country, the unusually active competition of low-priced soft steam coals, foreign as well as domestic, and the increased competition resulting from ruinously low prices of anthracite coal, is attributed the falling off in business, which applies to the whole region. The strikes combined to reduce the active working season of the company to half its usual time, and proved very detrimental to its general interests.

The report says that the necessity of reducing the cost of coal at the mouth of the mine to that which prevails in the regions competing is admitted by all the companies in the region. One of the difficulties attending a proper adjustment of this subject is the superfluous amount of labor in the Cumberland field, and efforts to remedy this are also being made.

The president and directors of last year were re-elected, as follows: President, Charles F. Mayer, Baltimore; Directors, Galloway Cheston, Wm. F. Burns, Wm. F. Frick, John Gregg, William Donnell, Baltimore; William Whitewright, David W. Bishop, George B. Warren, Jr., New York; Robert Garrett, Decatur H. Miller, Baltimore.

Debt of Louisiana.

A dispatch from New Orleans says that the amendments to the constitution were finally passed on the 25th of February, and then adds:

This settles the question of a convention and forever decides against any manner of repudiation of the State debt, placing the bonds on the firmest basis. The Moffet Punch bill, the revenues from which will also be placed to the interest fund, will very probably pass a canvass of the General Assembly showing a large majority in its favor. These measures for the better security of the State bonds and placing them beyond dispute were recommended by the capitalists and bondholders and indorsed by a large majority of the people, and as this action of the Legislature places the State solidly against repudiation of any portion of her bonds the fact is received with unusual favor.

☞ The branch of the Pittsburg, Cincinnati and St. Louis railroad, extending from the West Virginia end of the bridge at Steubenville to Wheeling, and known as the Pittsburg, Wheeling and Kentucky railway, was opened for traffic on the 25th ult.

☞ A certificate of incorporation has been filed in the office of the Secretary of State of Ohio of the Quaker City, Fairview and Freeport Narrow Gauge Railroad, crossing in Guernsey and Harrison counties. Capital stock, $150,000, in shares of $50 each.

Philadelphia and Reading Railroad.

Comparative statement of gross receipts, tonnage and passengers, of the Philadelphia and Reading Railroad Company, for month of January:

GROSS RECEIPTS.	Jan. 1878.	Jan. 1877.
Railroad traffic	$610,768	$711,729
Canal traffic	992	386
Steam colliers	62,162	68,446
Richmond coal barges	56	243
Total Railroad Co.	$673 980	$780,806
Reading Coal and Iron Co.	364,134	431,037
Total of all	$1,038,114	$1,211,843
TONNAGE AND PASSENGERS.		
Tons of coal on Railroad	231,323	343,747
Tons of merchandise	246,314	267,144
Passengers carried	541,600	552,763
Coal transported by steam colliers	49,662	28,042
TONS OF COAL MINED.		
By Coal and Iron Company	96,935	146,082
By tenants	36,121	71,027
Total mined	133,056	218,009

Pittsburgh and Lake Erie Railroad.

The work on the Pittsburgh and Lake Erie Railroad is progressing in a satisfactory manner. Fifty of the seventy-four miles placed under contract are now nearly ready for the cross ties, the grading having been almost entirely completed. Eighteen miles of the road, extending from Youngstown to Mahoning, have been graded, and tracklaying on that portion will be commenced next week. The section between Sawmill Run and Phillipsburg, on the south side of the Ohio, is being pushed forward as rapidly as possible. The company has filed its acceptance of the ordinance granting the right of way through the city, and it is expected that the construction of that portion of the road between Temperanceville and Brownstown will be commenced in a short time. It is the intention to have the entire road completed by the time the bridge over the Ohio opposite Rochester is finished.—*Pittsburg Chron.*

☞ The House Committee on Pacific Railroads has directed a favorable report on the bill to extend for ten years the time for the completion of the Northern Pacific Railroad. An amendment has been made authorizing the company to issue bonds to the amount of $25,000 on each mile of the road, with the assent of two thirds of the stockholders.

☞ The imports of barley into the United States from Canada during the year 1877, were 6,825,082 bushels, of which 5,803,131 bushels were shipped eastward, and 1,021,951 bushels westward.

☞ The officers of the Waterloo and Magog Railway Company, recently elected, are: Ralph Merry, President; E. T. Brooks, Vice President; C. C. Colby, Managing Director; A. H. Moore, Secretary and Treasurer.

☞ The Lancaster and Millersville Railroad is entirely out of debt. An extension of the road has recently been made, which was paid for from a special fund, of which $2,800 remaining was turned into the treasury.

☞ During the past year 890 miles of new telegraph lines were opened in Australia, and the total mileage now working amounts to 9760 miles.

☞ N. M. Brown, late Assistant Superintendent, has been unanimously elected Superintendent of the Housatonic Railroad.

American Railroad Journal.

Saturday, March 2, 1878.

Financial and Commercial Affairs.

From speculative and mercantile sources, a much less urgent demand was reported for Money during the week, and rates have shown little variation in the loan or discount lines. The offerings of capital have been in excess of the requirements of responsible borrowers, and the disposition to make investments of a more or less permanent character has been less manifest. Call loans were quoted here at from 4@6, the principal negotiations having been within the range of 4½@5; and very choice to strictly prime mercantile credits were rated at 4½@7 per cent per annum. The City bank exhibit of last week indicated an enlargement in the loan and discount average of $799,200, and an increase in the item of circulation of $25,700. The average of deposits was diminished $1,237,400. The legal tender reserve was reduced $867,600; and the specie average $632,200. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $18,633,750, as against $14,824,200 the preceding week, and $16,016,775 the week ending Feb. 9, (the latter the highest aggregate reached this year.) The City bank exchanges in currency reached $289,487,492, or a daily average of $57,897,498.

The outstanding amount of legal tender notes is $349,110,424. The National bank circulation is now $320,595,780 of currency notes and $1,432,120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $3,857,000.

On Tuesday of this week, the cash balances in the National Treasury were of currency, $8,363,337; special fund for the redemption of fractional currency, $10,000,000; special deposit of legal tenders for the redemption of certificates of deposit, $35,015 000; coin, $131,480,668, including $48,144,400 in coin certificates.

In the line of Government Securities, the offerings have been generally more extensive, largely on speculative and foreign account, leading to some further decline in values, as influenced by the reports and rumors relative to Congressional action, on the various financial issues now pending. The demand from home buyers has been fairly active at the ruling figures. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 105⅝@105¾; do. coupon, 105¾@105¾; do. 1865, new, registered, 103½@103⅝; do. coupon, 103½@103⅝; do. 1867, registered, 105½@105¾; do. coupon, 105½@105¾; do. 1868, registered, 108⅜@108⅝; do. coupon, 108⅜@108⅝; do. ten-forties, registered, 103⅞@104⅛; do. coupon, 106⅛@106¾; do. five per cents, 1881, registered, 103@103⅛; do. coupon, 103@103⅛; do. 4½ per cents, 1891, registered, 101⅞@102⅛; do. coupon, 102⅞@103; do. 4 per cents, 1907, reg., 100⅞@101⅛; do. sixes, currency, 119@119½.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $346,629,050, and $13,493,000 as security for public deposits.

State bonds have been less sought after and quoted weaker, though toward the close a freer investment business was reported at steadier rates. Railway Mortgage loans have attracted less attention at easier and irregular prices, but at the close the favorites of the actual interest bearing loans were held more confidently, and were in fair request on investment account. And in the line of Railway and Miscellaneous share property business has been on a restricted scale, on one or two days, extremely light; attended by more or less of irregularity and depression as to values, though the changes for the week have not been, as a rule, very important. Toward the close, the bearish element in the market seemed most potential, as reflected in falling prices, through speculative manipulations.

The income of the Government from internal revenues last week was about 3¼ millions, and from Customs last week again about 2⅛ millions.

Speculation in Gold has been on a less confident basis, and the price in the local market has receded, on freer offerings. The export drain was light. The customs call was moderate for the season. The extremes of the price during the week have been 101⅝@102⅛, closing on Wednesday at 101⅞ as against 101⅞ on Wednesday of the preceding week. The specie outflow last week was only $158,885—making the total exports of specie hence since January 1, $2,041,031 against $2,186,384 the same time in the preceding year. The imports of specie at this port last week reached $82,166, and since January 1st have been $2,887,579 as against $2,833,724 same time in the preceding year. The Customs demand for gold last week reached $1,077,163 or an average of 895,433 per day.

Foreign Exchange has been offered less freely and quoted decidedly firmer, but not active. Bankers' sixty day bills on London closed on Wednesday at $4 82½@$4 83½; sight bills on London at $4 84½@$4 85⅛ to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $6,456,383 as against $5,253,264 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $2,587,526 of Dry Goods, and $3,868,857 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the aggregate value of $7,313,838, against $4,314,529 same week in 1877.

Hardware, Boots and Shoes and Dry Goods, have been meeting with readier sale, but prices in several instances, have ruled in favor of purchasers.

Domestic produce has been less freely dealt in. Cotton, Breadstuffs and Provisions were less sought after, and toward the close, quoted as a rule weak and irregular, though Wheat left off more firmly. Naval Stores and Petroleum have been in very moderate request, however, steadier prices. Foreign merchandise has been less active, but without further important changes as to values.

Metals have been in comparatively moderate demand, but quoted about steady. Eglinton Pig Iron quoted at $24@$24 50; Glengarnock $25@$25 50; Coltness $26 50@$27; No. 1 American Pig at $18@$19 50; No. 2 do. at $17@$18 50 Forge $16@$17. American Rails at works $33@$37. Old Rails $19. Wrought Scrap $22@$23. Steel Rails, on the basis of $48 at tide water. Ingot Copper in slack request on the reduced basis of 17¼ for early delivery.

At the auction sale of 50,000 tons Scranton on Wednesday, Feb. 27, prices ruled a shade lower than in January, ranging from 3.07½@3.55 as against 3.10@3.60 in January.

Ocean freights have been moderately active but rates have been quoted generally weak. Liverpool steamer rates at the close for Grain, quoted at 9½d. Flour, at 3s. 6d.@3s. 9d. Provisions, 37s. 6d.@50s.; Leather, 60s. Measurement Goods at 22s. 6d.@25s. per ton; Cotton, 9-32d. per lb. Liverpool, by sail. Cotton, 9 32d. Grain, at 7@7½d.; Flour, 2s. 3d.; Measurement Goods, 12s. 6d.@17s. 6d. Tobacco 35s.; Oil Cake at 20s.@22s. 6d. Grain rates on charter hence for Cork and orders left off at 5s. 6d.; (Barley contracts at 5s. 9d.@6s.) for Liverpool at 6d. per quarter; for the Continent Grain at 5s. 6d.@5s. 10½d.; and from Baltimore for Cork and orders, 5s. 9d. and from Philadelphia at 5s. 6d.@5s. 9d.; and from Portland at 5s. 9d. Refined Petroleum hence for Cork and orders, 4s.@4s. 3d.; for the Continent, 3s.@3s. 6d. and Java at 35@37ct. and Japan, 45@52½cts. and for Dunkirk (crude) at 3s. 6d. Gibraltar and orders at 4s. 6d.@4s. 9d. Naptha for Morgan Pill at 4s. Cotton by sail from New Orleans to Liverpool 11-32d.@¼d.; from Galveston, at ⅛d.@7-16d.; Ky. Tobacco from New York to Spain at 30s.@32s. 6d. Naval Stores from Wilmington or Charleston for Cork and orders at 3s. 9d.@4s. and 5s. 6d.@6s. Lumber from Brunswick to the River Platte, $18@19. Deals from Portland to Glasgow at 72s. 6d., St. John to Liverpool at 65s.@66s. 3d., and Charleston or Savannah to the United Kingdom at 100@110s.; Hewn Timber from Doboy to do., at 35s. 6d.@37s. 6d. Through Provision freights from the West for Liverpool, by steam, down to 55@62½; for the Continent at 70@85 per 100 lbs.

CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY COMPANY, NEW YORK, March 1st, 1878.

NOTICE IS HEREBY GIVEN THAT A DIVIDEND of three dollars and fifty cents per share has been declared on the preferred stock of the Chicago, Milwaukee and St. Paul Railway Co., out of the net earnings of the year 1877, payable at the Company's office, 68 William St., on the 10th of April next. The transfer books will be closed on the 25th of March, and reopened on the 13th of April next.

JULIUS WADSWORTH, Vice President.

OFFICE OF THE HANNIBAL & ST. JOSEPH RAILROAD COMPANY, 78 BROADWAY, NEW YORK, February 14, 1878.

THE INTEREST MATURING MARCH 1, 1878, on the Fifteen year Eight per cent. Convertible Bonds of this Company will be paid on presentation of the proper coupons at the Bank of North America, No. 44 Wall street, New York, on and after FRIDAY, March 1, 1878. J. A. HILTON, Secretary.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, No. 31 NASSAU-ST., NEW YORK, Jan. 17, 1878.

A DIVIDEND OF THREE (3) PER CENT. HAS been declared by this company, payable on the 1st day of March next, to the holders of the capital stock of this company as registered at the close of the 12th day of February next, after which, and until the 4th day of March, the transfer-books will be closed.

L. V. F. RANDOLPH, Treasurer.

☞ The report of the operations of the United Companies of New Jersey for 1877, made to the State of New Jersey, shows net earnings of railroads, $2,314,933; of canal, $418,063; total net earnings, $2,732,996. To this added $221,525 interest received from investments, making a total of $2,954,521. Out of this, $2,368,589 were paid for debt, interest and taxes, leaving $585,932 available for dividends. The capital of the United Companies is $20,190,400, and the funded debt $19,899,116.

☞ In 1868 a special act of the Missouri Legislature suspended for ten years the operation of the law regulating charges on seven or eight of the railroads in that State. The term has expired, and the State authorities are giving notice that the old law is to be revived. Passenger rates hereafter will only be three cents a mile on main lines and four cents on branches.

Lehigh Coal and Navigation Co.

From the report of the President of the Lehigh Coal and Navigation Co., which was presented at the annual meeting of the stockholders held in Philadelphia on the 26th ult., we learn that the receipts from all sources during the year ending December 31, 1877, were $994,656, and the disbursements for rentals, interest, taxes and general expenses, $1,189,321, leaving a deficit of $194,655 which was charged to the dividend fund, reducing this fund to $463,033. There were carried during the year 3,116,169 tons of coal, an increase of 89,942 tons over the previous year, and of this tonnage 2,150,660 were produced by the Lehigh and Wilkesbarre Coal Co. The report treats at length of the relations of the company with the Central Railroad of New Jersey, and reviews the history of the amicable arrangements by which the company resumed possession of its canals and mines. When possession was resumed, final settlement of accounts was thus made. There were due by the Central Railroad, for rentals and loans, $750,119, of which $398,470 was paid in money and $42,709 in personal property, and the balance of $308,940 was credited to the Lehigh Navigation Co. on the Central's construction loan account. At the same time the Lehigh and Wilkesbarre Coal Co., on final settlement, owed the Navigation Co. $236,977, which was secured on the Coal Company's mines. In final settlement of the construction loan account with the Central railroad, various adjustments were made which reduced the debt of $974,425 due the railroad at the opening of the year, to $368,985 at the close of the year. In making this reduction no money was paid, but the Navigation Co. paid the railroad various securities it held, and also got the benefit of the credit of $308,940 above mentioned. This reduction was of great benefit, as the Navigation Co. was paying 7 per cent interest on this construction loan account. Since April 1st, 1877, the Navigation Co. have resumed operating their own canal and mines, and have received the net earnings from both. The improvements made by the Central Railroad, at a cost of over eleven hundred thousand dollars, and the advanced royalties of over seven hundred thousand dollars, were abandoned to the Navigation Co., without compensation, when the property reverted, subject, however, to a right of redemption until July 1st next. The report estimates that the annual charges on the company for interest, rentals and general expenses are $1,328,700, whilst the average annual income during the last three years that the company managed its own mines and canals was $1,639,666. The report also says:

Although the present value of the improvements is very much less than their cost, the mines are in much better condition, and have a productive capacity of over one hundred thousand tons a month; no further expensive improvements will be necessary for several years. These facts should be considered by the stockholders in their estimates of the future prosperity of this company. The mines thus greatly improved are capable of producing a large tonnage at less cost than formerly, and as the product is nearest to market, and commands the highest price, it is not unreasonable to anticipate large returns in the future.

Marietta and Cincinnati Railroad.

An adjourned meeting of bondholders of the Marietta and Cincinnati railroad was held yesterday at the Rialto buildings, to hear the report of a committee of ten appointed last fall, and to take suitable action. The room was well filled, and about a million dollars of bonds were represented. Mr. Samuel H. Tagart, chairman, stated that the committee had appointed a sub-committee of three, viz: Messrs. W. W. Spence, W. Whitelock and John C. King.

Mr. Spence read a report showing the present status of the road, being the report of the committee of ten. The report says that Mr. John W. Garrett was asked whether the Baltimore and Ohio company would give some form of guarantee in the event of a reduction being made in the principal and rate of interest of the Marietta and Cincinnati bonds. Mr. Garrett favored a re-arrangement in future, but was indisposed at present to make any proposition. He and Mr. John King, Jr., the latter being receiver of the Marietta and Cincinnati, were unwilling to admit the absolute necessity of the Marietta and Cincinnati to the Baltimore and Ohio, as the latter had another route to Cincinnati in the event of the Marietta and Cincinnati severing its close connection. The other route was the Central Ohio division, through Columbus, and the Miami road.

The report speaks of the injustice of the decree for the appointment of a receiver, requiring him to fulfill all obligations of the Marietta and Cincinnati to the Baltimore Short Line, (owned by the Baltimore and Ohio,) the Cincinnati and Baltimore, (largely owned by the Baltimore and Ohio,) the Cincinnati and Indiana, the Cincinnati and Springfield, and the United States Stock Yard Company.

Mr. Garrett considers that these roads are valuable to the Marietta and Cincinnati. The receiver is of opinion that on the first basis of indebtedness the road cannot meet its obligations with its present business or with any probable future increase. It has been suggested that a large reduction of this debt must be made either in the way of principal or the rate of interest. Of first mortgage bonds there are $3,500,000; second mortgage $2,500,000; third mortgage $3,000,000; fourth mortgage $4,000,000. Mr. John L. Taylor, trustee of the first and second mortgages, died in 1871, and no successor has been appointed. The committee forbore making any recommendations. The report was accepted by the meeting.

Mr. Spence said he had written to Mr. King as to the time when the interest coupons on the first mortgage bonds will probably be paid. Mr King replied that if the court will allow he hoped to be able to commence paying those coupons next April.

Mr. Tagart said that the meeting had heard through the report what is the status of the M. and C. He said the road was the property of the bondholders, and it was proper to take steps to get back what belonged to them. The receivership business had been fixed in an obscure Western court, and he hoped the matter would be taken in hand and brought before a proper tribunal, where the subject could be properly heard. The M. and C. was a trunk, which was sapped to support a number of leased lines. If the M. and C. be not indispensable to the B. and O. the former should at least be in the hands of its owners. To meet the question properly money would be needed, and he hoped the bondholders would furnish it.

On motion of Mr. Spence, the meeting unanimously voted to contribute $1 on each $1,000 bond to meet the expenses. The bondholders subscribed their names to a paper, stating the amount of money each will give.

Mr. Andrew Reid, treasurer, will have all the documents printed in a pamphlet, and circulate them to bondholders. It was stated the English bondholders are in sympathy with the objects of the meeting.

Mr. King, the receiver, has had printed a pamphlet, addressed to the committee of ten, dated December 14, 1877, showing the condition of the road and its leased lines. The earnings for four months were considerably in excess of the same period of 1876. Mr. King's pamphlet will be incorporated with the documents to be printed by the bondholders.—*Balt. Sun, Feb.* 23.

Central Railroad of New Jersey.

The joint committee representing all the interests in the Central Railroad Company of New Jersey have at length agreed upon a plan of reorganization, the substance of which is as follows: They deprecate any attempts to enforce separate rights by foreclosures, and claim that an equitable adjustment of the various interests without foreclosures is practicable and necessary. The holders of the consolidated and convertible bonds are asked to surrender, for cancellation, two and a half years' interest, including past due coupons, and accept in exchange a new 7 per cent 24-year mortgage bond, of an issue not to exceed $5,550,000, interest payable semi-annually, secured by mortgage and deposit with the Trustees, on the following plan: 1. Unincumbered real estate now valued at $2,006,099 20; 2. $6,116,000; Lehigh and Wilkesbarre Consolidated bonds; 3. $6,600,000 stock of the Lehigh and Wilkesbarre Coal Company; 4. The lease and stock of the New York and Long Branch Railroad, cost $2,212 988; 5. The lease and stock of the High Bridge Rail road Company, cost $985,582; 6. The lease and stock of the Longwood Valley Railroad Company, cost $317,751; 7. The stock of the American Dock and Improvement Company, $3,000,000; 8. The agreement with the Delaware and Bound Brook and the North Pennsylvania Railroad Companies; 9. The lease and equipment belonging to the Central Railroad Company of New Jersey, (valued at $1,000,000,) of the Lehigh and Susquehanna Railroad Company. Such mortgage to be made a second lien upon the property of the company, now covered by the consolidated mortgage. The property so mortgaged to be unincumbered except as to the American Dock and Improvement Company's mortgage of $4,000,000; the Lehigh and Wilkesbarre Coal Company's prior mortgages, and the rentals as afterward stated. The property to be a further security for the principal and interest of the consolidated and convertible bonds. A sinking fund to purchase and retire such funded interest bonds, of $50,000 per annum after July, 1881, and of all surplus income after paying a dividend of 7 per cent on the stock of the company, is provided for. The consolidated and convertible bondholders are to be entitled to name, through the Trustees of the mortgage, one-third of the Directors until a dividend of 6 per cent has been paid on the stock. Only those who shall sign the agreement and fund their coupons by May 1, 1878, are to have the benefit of the plan. The agreement may be declared binding by the Receiver on the company on April 15 next, although all the holders of the consolidated and convertible bonds may not have signed.

The blanket mortgage bonds, amounting to $3,300,000, issued and held with other collaterals, including the $6,116,000 of Lehigh and Wilkesbarre consolidated bonds, by the creditors of the company to secure about $4,500,000 of floating debt, are to be paid off and canceled. The $11,500,000 of Lehigh and Wilkesbarre consolidated bonds, guaranteed by the Central Railroad of New Jersey, of which $5,384,000 are held by individuals, and the $6,116,000 hypothecated to secure the debts of the railroad and coal companies, are provided for as follows: The holders of $5,384,000 to fund three years' interest, including past due coupons, and to cancel the guarantee of the Central Railroad Company, in lieu of which they are to accept income bonds of the coal company payable, 10 years from May 1, 1878, bearing 7 per cent interest, payable semi annually, if earned, out of the net income of the coal company, after paying existing prior mortgage interest charges. In consideration of the cancellation of the guarantee the railroad company agrees to prefer the bonds above named, and the income bonds, above the remaining $6,116,000, so far as interest is concerned. The coupons upon the last named portion of bonds are to be canceled as they fall due, without accumulation, except pending foreclosure proceedings, and the guarantee is also to be canceled on them. These privileges are not to hold good in respect to holders of the $5,384,000 of bonds who do not sign the agreement by April 15, and fund their coupons and present their bonds to be stamped by May 1. The railroad company are not to instigate, but are to make every exertion to prevent any default or foreclosure of any of the mortgage liens.

The holders of the American Dock and Improvement bonds to the amount of $3,000,000 are required to forbear to prosecute the Central Railroad Company of New Jersey, on account of their guarantee, before July 1, 1883, and in consideration the company is to deposit with the Trustees named in the mortgage $700,000 of the bonds held by the railroad company, which shall be applied at par, so far as may be necessary, in payment of the interest then due and unpaid by the dock company. Any surplus left is to be returned to the railroad company. Holders of the bonds, however, are not to relinquish the guarantee nor the right to be paid their coupons from the sale of lands. The secured creditors, to whom is owing about $4,500,000, hold about $9,500,000 of collaterals belonging to the railroad and coal companies. These have all, with the exception of about $200,000, agreed to grant an extension to Nov. 1, 1880, on condition that the interest and one-twelfth of the principal be paid every three months. This agreement is in writing with the Receiver, and is approved by the Court of Chancery of New Jersey. The collaterals are to be surrendered pro rata as the debts are paid. One installment of the interest and principal up to Feb. 1, 1878, has already been paid by the Receiver, who is to agree to apply the money which may accrue from earnings and be received from the stockholders, to the extinguishment of the principal and interest of this debt, for which $4,977,000 will be required. The Receiver is authorized in his discretion to compromise and settle the unsecured claims, amounting to about $700,000, with income bonds of the railway company, or with such property as is not included in any mortgage or otherwise disposed of under the agreement. The whole amount of income bonds is not to exceed $2,450,000. It is believed that this floating debt can be settled so that $580,000 of income bonds need not be issued.

The stockholders are to pay an amount in cash equivalent to 10 per cent upon their stock, pay-

ment to be made at the time of subscribing to the agreement, or one-fifth of the amount can be paid every three months, thus extending the payments over 15 months. In return they are to receive the new mortgage bonds of the issue provided for the funded coupons of the consolidated and convertible bonds. They are also to surrender for cancellation one out of every 10 shares of stock held by them, and receive, in lieu, at par, an income bond, payable in 30 years, without mortgage, at 7 per cent, if earned, payable semi-annually, interest not to accumulate, and only to be paid out of surplus income of the company after payment of prior charges. If the whole sum of $2,036,800 in cash be not raised from or assessed by the stockholders, the Receiver shall have the right to dispose of any income bonds not taken, to stockholders who shall have taken their proportion of such bonds, on their further surrendering stock for these bonds, and taking mortgage bonds for cash at par, or to any stockholders subsequently on the same terms.

The agreement includes, besides the bondholders, creditors, and stockholders, the railroad and coal companies and their Receivers, the Lehigh Coal and Navigation Company, and the Delaware and Bound Brook and the North Pennsylvania Railroad Companies, all of whom are to agree to perform whatever they can to carry the plan into effect. If executed by the above companies and the Receivers of the Central and coal companies, by a majority of $5,384,000 of Lehigh and Wilkesbarre consolidated bonds, and of the American Dock and Improvement Company's bonds, and if $1,020,000 shall have been paid or assured by the stockholders by April 15 next, the Receiver of the Central Railroad of New Jersey is authorized to declare the agreement binding, and shall proceed to deliver the bonds on May 1 following, and otherwise carry the plan into execution. The Receiver of the Central Railroad of New Jersey, John S. Kennedy, John E. Johnson, Jacob Vanatta, and George Manley are appointed a committee of detail, and have authority to extend the time for the performance of the various acts to be performed beyond the dates above given, and to regulate and direct any matters of detail necessary to the execution of the plan.

Receiver Lathrop has issued as a supplement to the plan a statement giving the details of the company's condition at length, and from the figures adduced the committee make an extended argument, designed to show the feasibility of the agreement. The following is a synopsis:

Liabilities not affected by the plan, and which have always been, and must continue to be, paid by the Central Railroad Company out of the income:

Annual interest on first mortgage bonds	$350,000 00
Annual interest on Newark and New York Railroad bonds	48,117 00
Annual interest on equipment loans, Lehigh and Susquehanna Railroad Company	165 000 00
Annual rent of Long Branch R. R.	33 536 00
Annual rent of South Branch R. R.	26,296 00
Total	$622,949 00

For the year ending December 31, 1877, the earnings of the Central Railroad Company, its branches, and leased lines, were as follows:

Central Division—		
Earnings	$3,208,496 46	
Expenses	2,104,296 66	
		$1,104,172 80
Long Branch Division—		
Earnings	$308,759 65	
Expenses	157,068 47	
		151,701 18
Newark Branch—		
Earnings	$153,860 17	
Expenses	72,049 89	
		81,810 28
High Bridge Branch—		
Earnings	$49,106 09	
Expenses	28 571 62	
		20,534 38
Lehigh and Susq. Division—		
Earnings	$1,938,846 72	
Expenses	847,720 82	
		1,091,125 90
Various other sources—net earnings		85,561 92
Total net earnings, 1877		$2,484,846 46
Rental Lehigh and Susquehanna Division, (83⅓ per cent of gross receipts)		646 511 34
Total net income for 1877		$1,838,335 12

Under the plan, the Central Railroad Company will be relieved of payments, exclusive of dividends, upon stock, as follows:

Interest upon consolidated and convertible bonds, two and a half years, at $1,358,000 per annum	$3,395,000 00
Interest on American Dock and Improvement Company's bonds, two and a half years, at $210,000 per annum	525,000 00
Per annum, $1,568,000; two and a half years	$3,920 000 00

To pay off the secured debt of $4,500,000, as now arranged, will be required the sum of $4,997,250.

Under the plan there is to be paid the annual interest as first stated.	$622,948 00
Interest upon the $5,500,000 new mortgage bonds	385,000 00
Interest upon the $2,450,000 new income bonds	171,500 00
Annual interest account during two and one half years	$1,179,448 00
The annual net income above is	1,838,335 12
Which leaves as the balance of annual net income	$658,887 12
Making for two and one-half years a balance applicable to the payment of the debt of	$1,647,217 80
Amount to be received from stockholders	2,036,800 00
Total amount to be received on basis of 1877 for two and one-half years	$3,684 017 80
This would leave a balance of	1,813,232 20
To pay the secured debt and interest as above of	$4,997,250 00

Which would require an increase of annual net income during the two and one half years of $525,292 88.

The small amount of net income for 1877 has been owing to the general depression of the coal trade, strikes of miners and of the railroad operatives. The company receives 40 per cent of the selling price of coal for transportation. An advance of $1 50 per ton upon 3,000,000 tons, which the company should carry annually, may with reasonable confidence be anticipated. This would give the company a net increase of 60 cents per ton, without increasing the expenses, and at the end of two and a half years there should be received from this source about $2,700,000 to apply upon the balance of the secured debt, stated above as $1,813,232 20. This amount, if realized, would leave a balance on hand at the end of the two and a half years of $1,460,000, with the debt wholly discharged. Thereafter the net income of the company on the basis of these figures should be | $3,688,335 00

And would be distributed as follows:

Annual interest above stated	$622,948	
Interest on consolidated and convertible bonds, ($19,400,000)	1,358,000	
Interest on $8,000,000 new mortgage and income bonds	560,000	
		2,540,948 00
Leaving a surplus of		$1,097,387 90

The stock is reduced by the plan to $18,831,200, and the surplus would give a dividend of nearly 6 per cent to the stockholders.

The Lehigh and Wilkesbarre Coal Company has earned more than the interest on its bonds up to date. The amount of coal income bonds that it is proposed to issue is $1,130,640. This would leave interest payable as follows:

Interest on prior liens	$315,000
Interest on income bonds	79,144
Interest on consolidated bonds	376,880
Total	$771,024

A sinking fund was provided for in the mortgage of 10 cents per ton on 3,000 000 tons, equal to $300,000 annually. This added to the other would make a total of interest after three years of $1,071,024, which must be paid before the $6,116,000 of non-preferred bonds can come in. A profit of 37 cents per ton on 3,000 000 tons would suffice, and the preferred stock would be extinguished in less than 18 years.

It is believed that at the end of five years the American Dock and Improvement Company will be in a position to pay the interest on its own bonds, and that no call will be made on the $210,000 of bonds provided by the Central Railroad Company in case of a deficiency.

☞ The President, upon the recommendation of the Secretary of the Interior, has accepted the eighth section of the Southern Pacific Railroad of California, being forty-two miles, commencing one hundred miles south of Goshen and running to the point where the company began to build southwestwardly toward Los Angeles, under the clause attached to the Texas Pacific Act. All the rest of its completed road in California had been previously accepted, and patents for the lands along this section will be issued without further delay.

☞ The County Court of Jackson county, W. Va, has authorized a vote of the people on the question of subscribing $100,000 toward building a narrow gauge railroad from Parkersburg to Charleston.

☞ The track of the Pittsburg, Castle Shannon and Washington Railroad having been completed to Finleyville, regular trains will run between Castle Shannon and that point on and after the 4th of March.

☞ Thomas D. Messler, of Pittsburgh, has been elected President, and F. M. Hutchinson Secretary and Treasurer, of the Lawrence Railroad Company.

☞ A number of bids for contracts on the Pennsylvania Railroad in Maryland have been received, and the work will be pushed forward with energy.

Housatonic Railroad.

The receipts from operations of the Housatonic Railroad for the year ending September 30, 1877, were as follows:

From freight		$349,280 68
" passengers		168,405 98
" milk		47,261 11
" express		12,750 00
" wharfage		1,241 24
" mails		10,486 15
		$589,407 16

Expenses:

Assistant Superintendent.—N. M. BROWN.

Testing Railroad Bridges.

The following letter, addressed by Prof. George L. Vose, of Bowdoin College, Maine, to the editor of the Portland Argus, appears in the issue of that paper for Feb. 23:

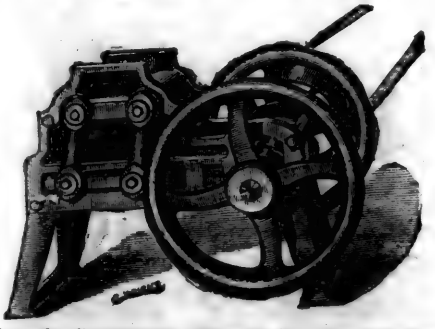
The Lewistown Journal of Feb. 18 states that the Railroad Commissioners have just inspected the bridge over the Little Androscoggin in Auburn; that they tested it by the rapid transit of one of the heaviest engines, that the bridge showed a deflection of only five-eighths of an inch, and that they pronounce the bridge "safe for present use." The fact that this bridge, which relies entirely upon a trestle under the middle of it, settled only five-eighths of an inch speaks well for the bed of the river, but proves nothing in regard to the bridge. Testing a bridge by running an engine over it at a high speed is supposed by some persons to mean something. Every rotten and worn out bridge that has broken down has been tested in the same way. It simply means that it did not break down at that time. In August, 1871, the bridge over the Hampden Road, near Bangor, broke down under a passenger train. A freight train had passed over a short time before, as the saying is, "safely." In May of the same year Mr. Noyes, then Superintendent of the road, ran a locomotive back and forth over the bridge to test it, and "it betrayed no signs of weakness." In August the bridge fell, and "disclosed the utter unfitness of the bridge for the service required of it;" and this Hampden bridge, the Commissioners say, "was never regarded as unsafe." The day before the Ashtabula bridge fell a dozen fast and heavy trains passed over it "safely." The day before the Tariffville bridge fell the usual trains passed over it. Do these facts prove that these bridges were safe? They prove it just as much as the recent test proves that the bridge over the Little Androscoggin is "safe for the present." Just what the Commissioners mean by "safe for the present," I do not know. The expression is of doubtful significance.

In 1874 the Commissioners suggested that the Little Androscoggin bridge be rebuilt. This, however, was not done. In 1875 they suggested the same thing, and again it was not done. In 1876 the Commissioners said that it "must be rebuilt the coming Spring." This was a year ago. Meanwhile nothing had been done to it except to put a trestle under the middle of it. In the report for 1877, just out, the Commissioners again say that the bridge over the Little Androscoggin should be rebuilt before Spring opens, and adds that "this bridge is old and will not be safe for the passage of trains over it if the ice should take away the temporary trestle which now in a great measure supports the truss." How is it that this bridge, which is old, rotten, worn-out, which has been condemned for four years, and which relies upon a trestle which is liable at any time to be knocked out, has suddenly become "safe for the present," would puzzle any one but a Railroad Commissioner to see. It is just this slipshod inspection, this guessing that a bridge will stand, until it falls, that lies at the bottom of half the bridge disasters in the country.

Your readers may be sick of all this talk, but suppose that by precisely such criticism as I am making, the Ashtabula and Tariffville disasters could have been prevented. Would it not have been well worth while? It is a good deal better to look forward to a possible disaster to prevent it, than to look back upon an actual disaster which might have been avoided.

Chicago, Milwaukee and St. Paul Railway.

The Chicago, Milwaukee and St. Paul Railway Company have in view several important extensions. The first and most important of these will be the construction of a line of road from Algona, the present terminus of the Iowa division, to Yankton, on the Missouri river, a distance of 180 miles. In order to enable the company to make the proposed extension, the state of Iowa will make a grant of lands, provided by congress. An active contest for this grant has been in progress for some time between the St. Paul and the Burlington, Cedar Rapids and Northern companies, which bids fair to result in favor of the former, as the senate committee of the state legislature has decided by a large majority to so report. The construction of the proposed 180 miles of road southwestward will place the St. Paul Company in position to make connections with lines of railroad leading to the Pacific coast, and it is not at all unlikely that the Northern Pacific will be first favored.



Another important addition contemplated by the St. Paul Company is the extension of the Hastings and Dakota branch from Glencoe, the present terminus, to Granite Falls, a distance of 75 miles. Granite Fall possesses water power facilities which are said to be second only in magnitude and consequent importance to Minneapolis, and it therefore promises to develop into a large manufacturing point. About thirty miles of the road are already graded, and the ties and iron have been purchased, thus ensuring the completion of the extension this year.—*Mil. Wis., Feb. 23.*

☞ The gross earnings of the Philadelphia and Erie Railroad Company for the month of January, 1878, were $220,495 79, the expenses $138,520 40, and the net earnings $81,975 39—an increase over the net earnings of the previous year of $5,645 77.

☞ The receipts of the Pennsylvania Canal Company during the year 1877 were $390,333 and its disbursements $431,230, of which $186,540 was for interest on the first mortgage and general mortgage bonds. At the close of the year it had a cash balance of $73,071, the loss on the year's operations having been $38,605.

☞ The interest on the dividend bonds and interest funding notes of the Atlantic, Mississippi and Ohio Railroad Company, which fell due January 1st, 1878, will be paid on after March 1st, at the office of the receivers, 23 Nassau street, New York.

Can I Obtain a Patent?

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further precedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

Make a note of the time when you first think of an invention, date and keep all writings, sketches, drawings and models of it. It will be well to have persons sign the former as witnesses, and this may be done without exhibiting the contents. To establish title to your invention, even after obtaining a patent, you may have to prove that you made it before any one else, and never gave it up.

The Coal Trade.

For the week ending the 16th instant, the total anthracite production, as reported by the several carrying companies, amounted to 124,700 tons, against 275,178 tons in corresponding week last year a decrease of 150,748 tons. The total amount of anthracite mined for the coal year is 1,558,645 tons, against 1,713,013 tons for same period last year, a decrease of 154,368 tons. The quantity of bituminous coal sent to market for the week amounted to 31,714 tons, against 70,031 tons in corresponding week last year, a decrease of 38,317 tons. The total amount of bituminous mined for the year is 218,013 tons, against 350,652 tons for corresponding period last year, a decrease of 132,639 tons. The total tonnage of all kinds of coal for the week is 156,414 tons, against 345,209 tons in corresponding week last year, a decrease of 188,795 tons. The total tonnage of all kinds of coal for the coal year is 1,776,658 tons, against 2,063,665 to same date last year, a decrease of 287,007 tons. The receipts at Perth Amboy for the week ending on the 16th instant were 555 tons, the shipments 4298 tons, leaving a stock on hand of 101,516 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the second week of February was 88,029 tons, of which 68,038 tons were coal, and 14,991 tons coke. The total carried for the year is 522,035 tons, of which 407,225 tons were coal and 114,810 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad brought no coal last week to Port Richmond whilst 23,500 tons were shipped thence. There were no shipments over the Reading Railroad for the week ending last Saturday, February 23.—*Phila. Ledger, Feb.* 25.

American Railroad Journal.

New York, Saturday, March 9, 1878.

Pennsylvania Railroad.

The earnings of the main line and branches of the Pennsylvania Railroad from Pittsburg to Philadelphia for the year ending December 31, 1877, were $18,983,456 25, the expenses $10,751,138 64, and the net earnings $8,232,317 61. To the above is to be added interest received from cash investments and securities $2,165,862 16, and from branch roads for use of equipment $345,720 09, making the total earnings $10,743,899 86. From this is to be deducted for rentals of branch roads, interest on the funded and unfunded debt, &c. $4,679,971 30, making the net income of the main line and branches $6,063,928 56.

The earnings of the New Jersey division, including canal and branch roads, were $8,960,697 23, expenses $6,227,701 26, and the net earnings from operating, $2,732,995 97; interest on investments $221,525 39—total, $2,954,521 36. The total payments on account of dividend, interests, &c., were $4,487,089 40, making a net loss on this division of $1,482,518 04, leaving the balance to profit and loss on the main line, after deducting loss in operating United Railroads and Canal, of $4,581,410 52.

The total earnings of the Philadelphia and Erie Division were $3,172,992 70, the expenses $2,049,-627 34 and the net earnings $1,123,365 36. Deducting $239,189 90, interest charged on equipment, the net earnings applicable to pay interest amounts to $884,175 46.

Out of the balance of net earnings stated above at $4 581,410 52, there was paid in dividends, and State tax on same, $2,586,076 01, leaving a balance to credit of profit and loss in favor of the lines east of the cities of Pittsburg and Erie of $1,995,-334 51. The exhibit thus made shows that the net income of the company for the past year was a fraction over six per cent.

The deficiencies in the companies connected with the road to meet their liabilities during the same period were $975,026 31. Deducting these from the above balance of $1,995,334 51, leaves a balance to profit and loss of $1,020,308 20. The final summary of the report makes the following exhibit: amount to credit of profit and loss December 31, 1876, $10,054,197 93. Balance to credit December 31, 1877, $1,995,334 51, to which is to be added $461,868 40 realized from old accounts, making an aggregate of $12,511,399 94. Against the above there were charged off during the past year as bad debts, reduction in value of securities and losses $10,164,017 94, making the actual balance to the credit of profit and loss on December 31, 1877, $2,347,382.

The earnings on all the lines east of Pittsburg and Erie in 1877 were $31,117,146 18; and the expenses, including rentals and interest on equipment, $20,932,728 49—leaving as net earnings $10,184,417 69.

On all the lines west of Pittsburg the earnings were $23,042,574 15, the expenses $15,044,982 34, and the net earnings $7,997,591 81: from which deduct rentals, interest, dividends, etc., $7,925,-673 95—leaving as net profit $71,917 86.

The gross earnings of all lines east and west of Pittsburg were $54,159,720 33, the expenses (excluding rentals, interest, dividends, etc.,) $34,-022,329 40, and the net earnings $20,137,390 93.

The number of tons of freight carried east of Pittsburg and Erie was 18,405,711; do. carried one mile, 2,180,459,888. Number of tons of freight carried west of Pittsburg, 14,870,884; do. carried one mile, 1,459,762,931. Total number of tons, 33,276,095; total mileage of do., 3,640,-222,819.

Number of passengers carried on all lines east of Pittsburg and Erie, 13,007,882; do. carried one mile, 298,752,780; number carried west of Pittsburg, 7,753,123; do. carried one mile, 244,344,-440. Total passengers carried, 20,760,955; do. carried one mile, 543,097,170.

Southern Pacific Railroad.

The report of the Southern Pacific Railroad Company was filed in the office of the Secretary of State of California on the 19th ult. From this we learn that the amount of capital stock authorized is $90,000,000; amount subscribed, $38,122,-000; actually paid in, $36,763,900. Expended for the purchase of lands, $811,086 95; for construction of road, $63,561,059 19; for buildings, $791,266 38; for engines, $533,127 32; for cars, $1,219,127 94. Indebtedness of the company, $29,300,000 on first mortgage bonds, and $1,188,-626 62 on personal accounts. Amount due the company, $67,267 14. Amount received from transportation of passengers, property, mails, express matter, and from other business of the road, $3,961,606 61. Amount of freight transported, 142,476 tons. Paid for repairs and current expenses, $2,005,358 66. The amount of freight carried, as given above, applies to the northern division of the road, all that portion south of Goshen being operated under lease to the Central Pacific Railroad Company, and to be embraced in the report of that company. The company have 20 engine houses, 18 repair shops, 48 engines, 68 passenger, 10 baggage, 3 paymaster and boarding, 924 freight, 12 dump, 117 hand, 68 section and 20 water cars.

☞ The report for December last of Mr. Hugh J. Jewett, receiver of the Erie Railway Company, was filed in the office of the County Clerk on the 28th ult. It is shown in the report that the balance on hand on the first of the month was $456,-947 41, that the receipts for the month were $3,-270,298 17, the disbursements, $2,793,679 47 and balance on hand at the close of the month $476,-618 70. The report further states that at the close of the month the certificates of indebtedness outstanding amounted to $1,482,028 86.

Chicago and Alton Railroad.

DIRECTORS' FIFTEENTH ANNUAL REPORT.

To the Stockholders of the Chicago and Alton Railroad Company:

The Board of Directors submit the following Report for the year ending December 31st, 1877:

LENGTH OF ROAD OPERATED.

	Main Track.	Second Track.	Side Track.
Chicago to Joliet (leased)	37.20	36.48	18.52
Joliet to East St. Louis (owned)	243 50	25.58	53 44
Dwight to Washington & Branch to Lacon (owned)	79.80		6.71
Roodhouse to Louisiana (owned)	38.10		3 75
Coal Branch (owned)	3.98		2.80
Chicago and Illinois River (leased)	23.86		1,81
St. Louis, Jacksonville & Chicago (leased)	150.60		12.96
Louisiana and Missouri River R. R. (leased)	100.80		9.56
	677.84	62.06	109.55

Number of stations upon the several lines, 136—of which 116 are in Illinois, and 20 in Missouri.

CAPITAL STOCK.

Preferred shares	$2,425,400
Common shares	10,065,300
Convertible scrip outstanding	72
Total	$15,490,772

FUNDED DEBT.

First Mortgage Sinking Fund bonds, due November 1st, 1877	$2,000
First Mortgage 7 per cent bonds, due January 1st, 1893	2,383 000
Income bonds, 7 per cent, due January 1st, 1888	1,088,000
Consolidated 6 per cent Sterling bonds, due July 1st, 1903, £900,000, say	4,379,850
St. Louis, Jacksonville and Chicago Railroad bonds, assumed in purchase of road from Roodhouse to Louisiana, First Mortgage 7 per ct., maturing April 1st, 1894	564,000
Second Mortgage 7 per cent, maturing July 1, 1898	188,000
Total stock and bonds	$21,090,622

The amount of capital stock remains the same as at the date of our last annual report, with the exception of a small amount of scrip which has been retired and canceled.

The bonded debt of the company has been reduced during the year $30,000.

The stock and bonds issued by your company represent the cost of the lines owned by it, and the expenditures made for improvements and rolling stock upon lines held under lease.

In pursuance of the terms under which the several leased lines are held and operated, there has been expended upon them for improvements and additions an aggregate sum amounting to about $4,600,000, which deducted from the total amount of stock and bonds above stated, leaves a balance of $16,490,622, represented by the lines of railway and other property owned by your company, and by leasehold interests in other lines above designated. The sum last named is equal to about $38,500 for each mile of main track owned by your company.

GROSS EARNINGS.

	1876.	1877.
From passengers	$1,218,820 91	$1,211,851 78

		4,422,857 46
Balance, December 31, 1877		$64,612 49

The bill before the Legislature, at its last session, changing the mode of imposing taxes upon railroad property, to which reference was made in our last annual report, passed the State Senate, but was not reached in the House of Representatives in season for definite action. Notwithstanding this failure to obtain proper legislation, the State Board of Equalization, at its session in August last, reached the result intended to be accomplished thereby, by a resolution, adopted with only two dissenting votes, that "A fair and equitable assessment of the tangible property of railroads leave nothing to be assessed as capital stock." This body is a permanent one, and it is thought that after this deliberate expression of its conclusion no attempt will be made to tax the capital stock of your company in future. In pursuance of this resolution, no taxes were imposed upon the capital stock of railroads for the year 1877. The back taxes upon capital stock for the year 1874, amounting to $132,472 26; for 1875, amounting to $116,663 73, and a portion of those for 1878, amounting to about $75,000, will probably have to be paid during the present year. The taxes upon capital stock for the year 1876 are enjoined, and, according to a late decision of the Supreme Court of this State, cannot be collected.

The general assets of the company, at the close of the year, in addition to its railway and equipment, consisting of supplies, fuel, etc., on hand for future use, securities of the Mississippi River Bridge Company, bills and accounts receivable, stock, cash, and cash assets considered good in excess of bills and accounts payable, amount to about $1,800,000 which may be considered the accumulated surplus in which is included the balance to the credit of Income Account.

The Mississippi River Bridge has been leased by this company from December 3d, 1877, in perpetuity, at a fixed rent of $68,000 per annum, which rent our company has agreed to apply in payment of 7 per cent dividends on $300,000 of the stock of the Bridge Company, and 6 per cent interest on $700,000 of its 35-year mortgage bonds, with a covenant to retire said bonds at maturity, after which the amount of rent will be reduced to $21,000 per annum, the amount required to pay 7 per cent dividends on the stock.

The Mississippi River Bridge Company's capital stock and indebtedness is represented by the amounts above named, and it is agreed that no more stock and no more bonds shall ever be issued.

The net earnings of the Mississippi River Bridge for the year, based upon rates corresponding with those charged on similar traffic over the bridges at Hannibal and Quincy, after deducting taxes and all expenses for operations and repairs, amount to $112,018 86, or $49,018 86 more than the annual rent.

In consideration of money advanced and used in the construction of the Bridge, the several amounts of capital stock and mortgage bonds above named have been sold to our company and are now held by it.

The net profit derived from traffic during the year, after deducting therefrom all fixed charges, rents, taxes on property, and expenses properly chargeable thereto, is equal to 7.58 per cent on the share capital of the company outstanding, both preferred and common.

PASSENGER TRAFFIC.

The number of passengers transported during the year was 860,257, a decrease of 13,618 or 1.55 per cent compared with that of the preceding year; the proportion between through and local passengers being 5.68 per cent of the former to 94.32 per cent of the latter.

The number of through passengers transported shows a decrease of 1,544, compared with that in 1876.

The number of local passengers transported was, in 1876, 824,218; in 1877, 812,144; a decrease of 12,074 passengers.

The average distance traveled by each passenger, in 1876, was 47.18 miles, and in 1877, 47.36 miles.

Average rate paid per mile by all passengers was, in 1876, 2.956 cents; in 1877, 2.974 cents.

Average rate per mile paid by local passengers being 3.329 cents in 1876, and 3.350 cents in 1877.

Average rate per mile paid by through passengers being 2.210 cents in 1876, and 2.274 cents in 1877.

Average fare paid by all passengers being $1 39 in 1876, and $1 41 in 1877.

Earnings by transportation of passengers from other roads in 1877, $165,891 77; during 1877, $151,682 30—decrease, $14,209 47.

Earnings by transportation of passengers to

other roads in 1876, $138,198 18; and in 1877, $148,603 02—increase $10,414 84.

Earnings by transportation of local passengers in 1876, $914,730 96; in 1877, $911,566 46—decrease, $3,164 50.

Number of passengers carried one mile in 1876, 41,231,777; in 1877, 40,743,271—decrease, 488,506.

	1876.	1877.
Number of passengers transported to Chicago	89,779	89,183
Number of passengers transported from Chicago	102,421	97,603
Number of passengers transported to St. Louis	72,574	78,830
Number of passengers transported from St. Louis	71,885	75,292
Number of passengers delivered to St. L., K. C. & N. Railway, at Mexico	11,170	13,974
Number of passengers received from St. L., K. C. & N. Railway, at Mexico	5,450	4,578

FREIGHT TRAFFIC.

The freight transported during the year amounted to 1,560,188 tons; a decrease of 258,047 tons, or 14.11 per cent over that of 1876.

The through freight amounted to 346,067 tons; an increase over that of the preceding year of 64,082 tons, or 22.72 per cent.

The local freight amounted to 1,214,121 tons; a decrease of 322,134 tons, or 21 per cent, compared with that transported in 1876.

The proportion between through and local freights being 22.18 per cent of the former to 77.82 per cent of the latter.

In 1876 the proportion of through and local freights transported was 14.50 per cent of the former, and 85.50 per cent of the latter.

The number of tons of freight transported one mile was, in 1876, 217,835,161 tons; in 1877, 211,947,565 tons—decrease, 5,887,596, or 2.7 per cent.

The average rate per ton per mile for transporting freight was, in 1876, 1 626 cents; in 1877, 1 447 cents—decrease in rate, 0.179 of one cent

The average distance each ton was transported was, in 1876, 119.80 miles; in 1877, 135.85 miles—increase, 16 05 miles.

The amount of freight delivered to the St. L., K. C. & N. Railway, at Mexico, was, in 1876, 81,245 tons; in 1877, 77,372 tons—decrease, 3,873 tons, or 4.7 per cent.

The amount of freight received from the St. L., K. C. & N. Railway, at Mexico, was, in 1876, 112,647 tons; in 1877, 93,258 tons—decrease, 19,389 tons, or 17.2 per cent.

The amount of freight transported to Venice and East St. Louis was, in 1876, 166,326 tons; in 1877, 136,359 tons—decrease 29,967 tons, or 18 per cent.

The amount of freight transported from Venice and East St. Louis was in 1876, 149,068 tons; in 1877, 178,243 tons—increase 29,175 tons, or 19.6 per cent.

The amount of freight transported to Chicago was, in 1876, 819,472 tons; in 1877, 723,263 tons—decrease 96,209 tons, or 11.7 per cent.

The amount of freight transported from Chicago was, in 1876, 278,107 tons; in 1877, 258,406 tons—decrease 19,701 tons or 7.1 per cent.

The aggregate mileage of freight cars on your lines during the year 1876 was 34,262,381; in 1877, 32,776,748—decrease, 1,486,633, or 4.8 per cent.

The average tonnage of all freight cars hauled in regular freight service, loaded and empty, was, in 1876, 6.441 tons, in 1877, 6.466 tons per car.

The whole number of miles run by locomotives during the year, was 3 618,198 miles; being 195,268 miles less than 1876.

The cost per mile run for repairs, wages of engineers and firemen, fuel, oil, waste cleaning, etc., was 17.62 cents; in 1876, 19 19 cents.

Of the whole amount of operating expenses 62 per cent was paid for labor and personal services; 33 per cent for supplies of various kinds purchased, and 5 per cent for miscellaneous expenses.

ROLLING STOCK.

The number of locomotives and cars upon your lines at the close of the year is the same as last reported, comprising 156 locomotives, 151 of which are constructed for burning coal and 5 for burning wood.

Forty-three locomotives are equipped with the Westinghouse Automatic Air Brake, and nine with the same description of air brakes applicable to driving wheels.

The cars owned by your company consist of 98, for use in passenger trains, and 3,080 freight cars of different kinds. Ninety-four of the passenger coaches and other cars, designed for use in passenger trains, are equipped with the Westinghouse Automatic Air Brake.

PERMANENT WAY.

The policy of substituting steel rails for those of iron, and permanent structures for those of perishable materials, has been steadily pursued by your company, and very great improvement has been made during the year.

Number miles main track laid with steel... 4173 2
Number miles main track laid with iron... 322.58
Number miles main track laid with steel in 1877 ..... 32.50

IMPROVEMENTS.

The expenditures during the year under this head embrace the additional cost of substituting iron bridges and masonry in the place of wooden structures rebuilt, and the additional cost of steel over iron rails used in renewals, additional side tracks, buildings, etc., making an aggregate of $126,929 44.

Totals	$64,623,512 00	$646,235 12

Interest paid by United States, $37,896,324 50; interest repaid by transportation of mails, &c., $9,159,131 12; balance of interest paid by United States, $28,737,203 38.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, February 28, 1878.

JOHN SHERMAN,
Secretary of the Treasury.

Quicksilver Mining Co.

The report of the Quicksilver Mining Co., which was presented at the annual meeting of the stockholders held in this city on the 27th ult. shows the product of the mine for the year ending ending December 31, 1877, was 28,996 flasks, an excess over the product of 1876 of 8,447 flasks. The company has no floating debt. It has on hand in cash, quicksilver, ore and supplies in value equal to $672,270. The directors chosen for the ensuing year are: A. B. Baylis, George W. Butts, B. Wall, Edward Brandon, James D. Smith, James H. Banker, Charles Fries, W. H. Hayes, S. W. Boocock, George A. Hoyt and John Ewen, Jr. The officers, are: A. B. Baylis, president; George W. Butts, vice president; David Mahany, treasurer and secretary.

☞ According to a Prussian Government return the total increase of the Prussian railway system in 1877 amounted to 674.8 kilometres of new lines. Of this increase, 265.3 kilometres was in Government or State lines, 8.7 kilometres in lines worked by the State, and the residue, 400.8 kilometres, in private or non-State lines. Comparing the increase of 1877 with that of 1876, we find that the total length of new line opened in 1876 amounted to 610 kilometres, as against 674.8 in 1877.

American Railroad Journal.

Saturday, March 9, 1878.

Financial and Commercial Affairs.

A calmer temper has been apparent in financial circles during the week. The further announcements of failures and suspensions (including some old and respectable mercantile houses) have not occasioned much surprise, and have had little weight in shaping the course of business. The Money market has worked smoothly for really responsible borrowers, who have found little difficulty in making prompt provision for their wants. The offerings of capital have been liberal, especially so in the call loan line, at the ruling rates. Call loans were quoted here at from 3@6, the principal negotiations having been within the range of 4@5; and very choice to strictly prime mercantile credits were rated at 4½@7 per cent per annum. Discount applications have been more rigidly scrutinized in view of the recent failures. The City bank exhibit of last week indicated an enlargement in the loan and discount average of $2,797,100, and an increase in the item of circulation of $31,600. The average of deposits was augmented $3,038,800. The legal tender reserve was reduced $840,100; and the specie average increased $947,100. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $12,980,950, as against $13,633,750 the preceding week, and $16,016,775 the week ending Feb. 9, (the latter the highest aggregate reached this year.) The City bank exchanges in currency reached $400,609,690, or a daily average of $66,768,280.

The outstanding amount of legal tender notes is

$348,680,426. The National bank circulation is now $320,486,233 of currency notes and $1,432,-120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $8,-011,000.

The liquidation of the public debt of the United States in February reached $2,250,287; and since July 1, $18,121,094.

The disbursements of the U. S. Treasury in February reached $10,186,612, including on account of civil and miscellaneous, $3,214,527; war, $3,169,449; navy, $1,104,986; interior (Indians and pensions), $2,647,649.

The U. S. Sub-Treasury receipts in February were $43,809,204 (of which $8,127,373 from Customs;) payments, $40,959,869, (of which $84,818 were for coin interest.)

Government Securities have been in better demand, largely on home investment account, leading to an improvement in prices, leaving off firmly. The final passage of the Silver Enactment, over the veto of the President, made little impression on business interests. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 106⅛@106⅜; do. coupon, 106⅛@106⅜; do. 1865, new, registered, 104¼@104⅜; do. coupon, 104¼@104⅜; do. 1867, registered, 106⅜@106¾; do. coupon, 106⅛@106⅜; do. 1868, registered, 108⅝@109; do. coupon, 108⅝@109; do. ten-forties, registered, 104⅜@104½; do. coupon, 104⅛@104¾; do. five per cents, 1881, registered, 103⅝@103¾; do. coupon, 103⅝@103¾; do. 4½ per cents, 1891, registered, 102¼@102½; do. coupon, 102¼@102⅝; do. 4 per cents, 1907, reg., 101@101¼; do. coupon, 101¼@101⅜; do. sixes, currency, 118⅞@119½.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $346,597,550, and $13,-593,000 as security for public deposits.

State bonds have attracted more attention from investment buyers, and have been quoted, toward the close, generally firmer as to price. Railway Mortgage loans have also been more sought after and the favorites of the actual interest bearing loans left off more firmly. And in the line of Railway and Miscellaneous share property business has been somewhat brisker, and at the close prices of the speculative favorites were generally quoted stronger; in instances showing renewed buoyancy; aided, in part, by the ease in Money, and favored also by the reports of the very heavy produce freight traffic of the great trunk lines of railway.

The income of the Government from internal revenues last week was about three millions, and from Customs last week again about 2¾ millions.

Gold fell off rather sharply, under freer offerings, and a less urgent inquiry from nearly all sources. The customs drain is limited for the season, and the export movement unimportant. The extremes of the price during the week have been 101¼@101⅞, closing on Wednesday at 101¼ as against 101⅞ on Wednesday of the preceding week. The specie outflow last week was only $109,998—making the total exports of specie hence since January 1, $2,151,029 against $2,899,814 the same time in the preceding year. The imports of specie at this port last week reached $789,363, (of which $587,851 were from Liverpool) and since January 1st have been $3,676,-942 as against $3,361,131 same time in the preceding year. The Customs demand for gold last week reached $2,007,485 or an average of $334,-573 per day.

Foreign Exchange has been fairly active and quoted stronger in price, but left off tamely, and a trifle weaker. Bankers' sixty day bills on London closed on Wednesday at $4 83⅛@$4 84⅛; sight bills on London at $4 85¼@$4 86¼ to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $5,652,404 as against $6,619,818 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $2,-351,173 of Dry Goods, and $3,301,231 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the extraordinarily large aggregate value of $8,-147,765, against $4,900,232 same week in 1877; and since Jan. 1 have $60,594,691, against $47,-775,350 same time last year.

Metals have been more freely dealt in, but generally quoted weak as to price, on comparatively liberal offerings of stock. Eglinton Pig Iron quoted at $24@$24 50; Glengarnock $25@$25 50; Coltness $26 50@$27; No. 1 American Pig at $18@$19 50; No. 2 do. at $17@$18 50. Forge $16@$17. (with sales reported of 2,000 tons No. 1, and 3,000 tons No. 3, for water pipe purposes on p. t.) American Rails at works $33@$37. Old Rails $19. Wrought Scrap $22@$23. Steel Rails, on the basis of $42@$43 at tide water. (4,000 tons sold on p. t.) Ingot Copper in moderate request on the basis of 17⅛@17¼ for early delivery.

Under the less favorable foreign advices, dealings in Domestic produce have been less extensive especially in Breadstuffs and Provisions which have been depressed and irregular as to values, leaving off heavily. Cotton, which opened tamely closed up with more animation, particularly for early delivery, at steadier rates. Export purchases were on a more liberal scale on Monday and Tuesday, chiefly for the Liverpool market, with resulting heavy shipments by sail and steam (amounting on Tuesday as reported to about 15,-000 bales, part of which, however, was on through freight account). Naval Stores and Petroleum have been in generally slack demand at barely steady rates. Foreign merchandise has been moderately sought after and quoted as a rule weak as to price.

Business in Ocean freights has been fairly active but rates have generally favored shippers. The movements were chiefly in the line of Breadstuffs, Provisions and Cotton. Liverpool steamer rates at the close for Grain, quoted at 8d. Flour, at 3s. 6d. Provisions, 35s.@42s. 6d.; Leather, 55s.@60s. Measurement Goods at 22s. 6d.@25s. per ton; Cotton, ⅛@5-16d. per lb. Liverpool, by sail, Cotton, ⅛@9 32d. Grain, at 7d.; Flour, 2s. 3d.; Measurement Goods, 12s. 6d.@17s. 6d. Tobacco 35s.; Oil Cake at 21s.@22s. 6d. Grain rates on charter hence for Cork and orders left off at 5s. 6d.; (Barley contracts at 5s. 9d.@6s.) for Liverpool at 5s. per quarter; for the Continent Grain at 5s. 6d.@6s. and from Baltimore for Cork and orders, 5s. 6d.@5s. 9d. and from Philadelphia at 5s. 6d.@5s. 9d.; and from Portland at 5s. 9d. and to the Cape of Good Hope, 40s.@50s. per ton. Refined Petroleum hence for Cork and orders, 4s. 9d@4s. 3d.; for the Continent, 3s.@3s. 6d. and Java at 32@37ct. and Japan, 45@52½cts. and for French ports (crude) at 4s.@4s. 3d. Gibraltar and orders at 4s. 6d.@4s. 9d. Cotton by sail from New Orleans to Liverpool ⅛d.@13-32d.; from Galveston, at 7-16d.; Ky. Tobacco from New York to Spain at 30s.@32s. 6d. Naval Stores from Wilmington for Cork and orders at 3s. 9d.@4s. and 5s. 6d.@6s. and from Charleston or Savannah at 3s. 6d.@3s. 9d.@5s. 6d.@5s. 9d. Lumber from Savannah or Brunswick to the River Platte, $18@19, and Savannah to Spain at $15. Deals from Portland to Glasgow at 72s. 6d., St. John to Liverpool at 65s.@66s. 3d., and Charleston or Savannah to the United Kingdom at 100@110s.; Hewn Timber from Doboy to do., at 35s. 6d.@37s. 6d. Through Provision freights from the West for Liverpool, by steam, down to 50@55; for the Continent at 65@80 per 100 lbs.

CENTRAL RAILROAD COMPANY OF NEW JERSEY.

All parties interested in the stock or bonds of this company, in the bonds of the American Dock and Improvement Company, or of the Lehigh and Wilkesbarre Coal Company, are invited to call and sign the agreement for the equitable adjustment of its affairs.

To participate in the benefits of the agreement stockholders must sign it on or before 25th March.

Copies of the agreement may be obtained, and subscriptions to same will be received, at the office of the railroad company, No. 119 Liberty-st.; at the office of the Receivers of the Lehigh and Wilkesbarre Coal Company, No. 71 Broadway, or at the office of J. S. KENNEDY & CO., No. 41 Cedar-st., New-York.

F. S. LATHROP,
JOHN S. KENNEDY,

JACOB VANATTA
GEORGE MANLEY,
} Committee of Detail.

CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY COMPANY, NEW YORK, March 1st, 1878.

NOTICE IS HEREBY GIVEN THAT A DIVIdend of three dollars and fifty cents per share has been declared on the preferred stock of the Chicago, Milwaukee and St. Paul Railway Co., out of the net earnings of the year 1877, payable at the Company's office, 69 William St., on the 10th of April next.

The transfer books will be closed on the 25th of March, and reopened on the 13th of April next.

JULIUS WADSWORTH, Vice President.

Union Pacific Railroad.

At the annual meeting of the stockholders of the Union Pacific Railroad Co., held in Boston on the 6th inst., the following gentlemen were elected directors: Sidney Dillon, David Dows, Jay Gould, J. Richardson, all of New York; Elisha Atkins, F. Gordon Dexter, Frederick Nickerson, Fred. L. Ames, E. H. Baker, all of Boston; William L. Scott, of Erie, Pa.; Henry H. Porter, of Chicago; S. H. H. Clark, of Omaha; John Sharp, of Salt Lake City; G. M. Dodge, of Council Bluffs; W. A. H. Loveland, of Colorado. Sidney Dillon was re-elected President, Elisha Atkins Vice President, Henry McFarland Secretary and Treasurer, H. B. Wilbur Auditor, and Oliver W. Mink Assistant Secretary and Assistant Treasurer.

From the report which was presented we learn that the number of miles of road in operation December 31, 1877, was 1,042.4.

The earnings and expenses for the years 1876 and 1877 compare as follows:

	1876.	1877.
Gross earnings....	$12,883,858 84	$12,478,203 86
Operating exp....	5,268,211 20	5,278,421 69
Surplus earnings..	$7,618,647 64	$7,199,782 17
Percentage of expenses.....	40.88	42.23

—showing a decrease in gross earnings of $418,654 98, with an increase in operating expenses of $5,210 49, making a decrease in surplus earnings of $418,865 47.

The gross earnings are exclusive of Omaha Bridge. The expenses are inclusive of taxes.

The disbursements for interest during the year were $3,285,110; and for quarterly dividends, $2,939,600—total, $6,224,710.

The funded debt of the company December 31, 1876 and 1877, compares as follows:

	1876.	1877.
First Mortgage..	$27,232 000	$27,231,000
Sinking fund.....	14,188,000	14,045,000
Income bonds...	1.000	1.000
Land grants....	7,404,000	7,324,000
Omaha bridge	2,279,000	2,225,000
Total..	$51,104,000	$50,826,000

The percentage of operating expenses in 1877 shows an increase of 1.40 per cent over 1876. This increase arises from the large quantity of steel rails laid during the year on the main line, the company being encouraged to do so by the cheapness of these rails at the present time.

The policy of the company is to substitute steel rails for iron as fast as it can economically be done, the company beside having other use for the iron rails taken up.

The present amount of steel rails in track is 192 miles.

The equipment of the road now consists of 163 locomotives, 169 passenger and baggage cars, 3107 freight cars.

The increasing freight business requires more cars, and the company have contracted for 250 box cars, to be delivered early in the spring.

For the same reason more motive power is needed, and ten locomotives have already been contracted for.

The production and cost of the coal mined by the company for the years 1877 and 1876 compare as follows:

	Tons.	Cost of Mining.	Average cost, per ton.
1877	276,480	$312,131 37	$1 13½
1876	264,771	375,520 56	1 41¾
Increase.	10,709	....	.....
Decrease.		$63,389 19	.28¼

The decrease of 28¼ cents per ton in the cost of mining has resulted in a net saving to the company in last year's operations of $78,861 53.

The sales of coal for private use compare as follows:

	Tons.	Amount.	Av. per T.
1877	92,289¾	$578,327 60	$6 26.6
1876	65,042	423,687 00	6 51.4
Increase	27,247¾	$154,640 60	

This business is rapidly growing and promises to be an important source of revenue to the company.

The amount received from the sales of coal, as above, is the price delivered at the station at which it is consumed, and includes the cost of transportation. The price varies according to distance from the mines, and the average price of $6 26 is for sales at various points along the entire line of the road.

The earnings and expenses of Omaha Bridge are as follows:

	1876.	1877.
Earnings	$482,862 88	$475,273 16
Ordinary expenses	$192,221 29	$174,644 48
Rip-rapping	34,267 16	42,326 54
Rep. Bridge blown away		61,699 99
Total expenses	$226,498 45	$278,671 01
Surplus	$256,364 43	$196,602 15
Interest on bonds	$225,006 53	$199,655 68
Bonds redeemed	51,000 00	54,000 00
Total	$276,006 53	$253,655 63
Deficiency	$19,742 10	$57,053 48

The sales of land compare as follows:

	Acres.	Amount.	Average per acre.
1876	125,905.21	$375,540 82	$2 98
1877	69,015.87	343,768 02	4 98
Increase.			$2 00
Decrease.	56,889.34	$31,772 80	

The sales during the first six months of 1877 were quite small, owing to the dread of the grasshoppers, which destroyed almost the entire crop of 1876.

The crops of 1877 were excellent and have caused considerable demand for our lands, as well as giving the road a large and increasing business.

	Acres.	Amount.
The total sales to December 31, 1877, were	1,394,108.81	$6,083,510 02
Less sales canceled	75,829.01	366,384 79
Total	1,318,279.80	$5,717,125 28
Average price, $4 33 6.		
Interest received on contracts		$502,021 92
Received on forfeited contracts		46,091 61
Total proceeds		$6,265,238 76
Less exp. Land Dep't.	$828,483 46	
Less taxes on land	584,003 03	
		1,412,486 49
Total net proceeds		$4,852,752 27
Whole issue of land grant bonds		$10,400,000 00
Purchased and canceled to date		3 076,000 00
Outstanding December 31, 1877.		$7,324,000 00

There is in the hands of the company contracts bearing interest, which are to be applied as fast as paid to canceling outstanding bonds:

Contracts	$3,009,117 20	
Cash	406,035 00	
		3,415,152 20
Leaving to be provided for by future sales		$3,908,847 80

The company has on hand, still unsold, 10,764,761,947 acres of valuable farming, grazing and mineral lands.

Railroads of Rhode Island.

The Railroad Commissioner of the State of Rhode Island, in his Annual Report, just issued, under the head of "Work for the Year," says:

The New York, Providence and Boston Railroad Company have completed the Greenwood bridge; have laid fifteen miles of new steel rails; expended $8,994 95 for new cars; $2,333 31 for real estate; $3,162 53 for dredging; $2,118 54 on ferry boat; $15,091 55 for ferry slip at New London; $3,129 88 for improving ferry at Groton, and $2,619 34 for a tenant house. The whole amount expended during the year for maintenance of way, and for purchase or repairs of rolling stock, was $226,865 60, of which $222,870 65 was charged to expenses, and $3,994 95 was charged to equipment account.

The Providence and Worcester Railroad Company have expended $93,845 70 for purchase or repairs of rolling stock, and $163,826 96 for maintenance of way. This makes a total of $257,172 66, all of which was charged to expenses.

The Boston and Providence Railroad Company have completed a splendid and substantial bridge over the Blackstone River, at an expense of about $65,000, a large proportion of which was charged to profit and loss and the balance to expenses. They have also charged to profit and loss $31,654 07, as depreciation on some stock they held and for some accounts which they deemed to be worthless. They start on their new year with a credit on the profit and loss account of nearly $400,000. They have expended during the year for purchase or repairs of rolling stock $178,902 89, and for maintenance of way $307,826 84, making total of $486,729 23, all of which was charged to expenses.

The Hartford, Providence and Fishkill Railroad Company have expended for maintenance of way $188,251 66, a large proportion of which was for new rails, and $93,972 25 for purchase or repairs of rolling stock, of which $2,602 72 was for new rolling stock, making a total of $282,223 91, all of which was charged to profit and loss.

The Providence and Springfield Railroad Company have replaced about thirty tons of new iron rails. They report as expended for purchase or repairs of rolling stock $2,176 84, and for maintenance of way $6,981 12, which aggregate of $9,157 96 was charged to expenses. They also report as expended during the year $24,181 64, which was charged to construction account, and very properly so, as it was for land damages growing out of the original lay-out of their road, and for new stations, the building which had been deferred. They, however, commenced their new year with an addition of $13,761 07 to their surplus account.

The Newport and Wickford Railroad and Steam boat Company have expended for purchase or repairs of rolling stock $3,889 14, and for maintenance of way $1,375 94, making a total of $5,265 08, which was charged to expenses. The report of this corporation for this year is so entirely at variance with all other business matters of the year that I feel compelled to especially refer to it and that their position may be easily seen, I herewith compare their returns of the year with the one of the previous year:

	1876.	1877.
Total receipts	$48,419 86	$48,761 43
Net earnings	1,181 60	7,192 76

How this result has been obtained I cannot explain, particularly so, as the number of passengers, and tons of merchandise transported, have materially decreased, as compared with the previous year. They are, however, to be congratulated on the result, and they commence their new year with their debt decreased and $4,488 40 added to their surplus account.

The Narragansett Pier Railroad Company have expended $943 08 for purchase or repairs of rolling stock, and $6,563 26 for maintenance of way, which amounts were charged to expenses. Their previous report being for only a portion of a year, I cannot well compare them.

The Wood River Branch Railroad Company have charged to expenses the $344 88 as expended by them for purchase or repairs of rolling stock, with the $1,778 65 expended for maintenance of way.

The Old Colony Railroad Company have expended during the year $174,236 17 for purchase or repairs or rolling stock, and $351,321 15 for maintenance of way, making an aggregate of $525,557 32, which was charged to expenses. Ten new freight, and ten gravel and coal cars, have been added to their rolling stock, and five locomotives, three passenger cars, two baggage cars, twenty-one freight and nineteen gravel cars have been rebuilt. Four thousand and twelve tons of steel, and 1,260 tons of iron rails, and 102,435 new sleepers have been used in repairing and improving the track, and 1,217 tons of rails have been taken up, repaired and relaid.

The Fall River, Warren and Providence Railroad Company have paid $5,856 05 for use of rolling stock, and $2,517 16 for maintenance of way, which amounts were charged to expenses.

The Providence, Warren and Bristol Railroad Company have expended $8,046 65 for purchase or repairs of rolling stock, and $23,455 58 for maintenance of way, which total amount of $31,532 23 was charged to expenses. Their net earnings for the year show an increase of $19,387 76. They commence their new year with their indebtedness reduced $20,000.

The New York and New England Railroad Company have expended as follows: $102,717 94 for purchase or repairs of rolling stock, and $289 866 24 for maintenance of way. This total of $392,584 18 was charged $350,265 87 to expenses, $33,718 76 to construction, and $8,600 05 to equipment. The amount charged to construction was $1,639 99 for extension of double track, $2,631 66 for improvements and land at Franklin, Mass; rendered necessary in order to make their connection with the Rhode Island and Massachusetts Railroad, and which charges are perhaps justifiable. The $8,600 05 was for new cars. This charge, and the one for extension of double track, seems to me not to be justifiable, but I propose to refer to it again in another place in this report. They have laid during the year 1,445¼ tons of new steel rails and nearly 51,000 new ties. Their net earnings for the year show an increase of $93,321 58 over the previous, while their receipts only show an increase of $9,854 58. They commence their new year with their indebtedness reduced $2,868 98 and their surplus increased $70,521 60. This corporation has leased the Rhode Island and Massachusetts Railroad and are operating it.

The Pawtuxet Valley Railroad is leased to the Hartford, Providence and Fishkill Railroad Company.

The Union Railroad Company show an increase in their receipts of $8,333 83, as compared with the previous year, with an increased expenditure, so as to make their net earnings somewhat less than the previous year.

As work proposed for the coming year, I do not hear of any to report, although I feel quite confident that should business matters decidedly improve, railroad enterprises that have been allowed to slumber will speedily assume life.

I dislike exceedingly to be compelled to report that any of our railroad corporations have again increased their equipment or rolling stock account.

In my last report I referred at length to this method of doing business: that various expenditures of the year, which, in my judgment, were nothing more or less than legitimate expenses, were charged to other accounts, and dividends were paid on a wrong basis.

Instead of changing my views, I am more strengthened in them that I am correct. When on account for rolling stock has once been opened, and the quantity requisite for the business has been procured and charged to it, there are only two ways to proceed. The original amount being carried forward from year to year, no other charges should be added to it. The two ways,

then, are as follows: if the amount for subsequent purchases of rolling stock, is to be charged to that account, then a certain percentage on the whole amount should be yearly charged to expenses, to equal the depreciation. The other way is: charge the full amount of each purchase to that account; and yearly, before making up the accounts of the year, have all the rolling stock appraised by competent, disinterested persons, and let the amount they report represent the full value on that account.

Northern Central Railway.

At the annual meeting of the stockholders of the Northern Central Railway Company, held in Baltimore on the 28th ult., the following gentlemen were elected directors: Thomas A. Scott, Wistar Morris, S. M. Felton, H. M. Phillips, George B. Roberts, Edmund Smith, George Small, B. F. Newcomer, S. M. Shoemaker, J. N. Hutchinson, Dell Noblit, Jr., and M. B. Sellers. Thomas A. Scott was elected President, A. J. Cassatt Vice President, Stephen W. White Secretary, John W. Davis (also General Agent) Assistant Secretary.

From the report which was presented we learn that the gross revenue of the main line with its leased and controlled roads was as follows:

From passengers	$698,177 40
From freight	3,152,692 66
From express	69,278 29
From mails	46,191 05
Miscellaneous	104,048 38
Total	$4 070,387 78

And the operating expenses were:

For conducting transportation	$862,697 63
For motive power	709,405 80
For maintenance of way	844,164 89
For maintenance of cars	255.441 69
General expenses	74,215 33
Total	$2,745,924 84
Leaving as net earnings	$1,324,462 94

In comparison with 1876 there was a decrease in gross earnings of $299,537 72, equal to 6.85 per cent.

The total expenses in 1877, including $185,433 74 for betterments, show a decrease of $496,400 78, or 16.81 per cent less than 1876, making the increase in the net earnings $196,863 06.

In addition to the net earnings of	$1,324,462 94
There was received from dividends and interest	184,814 33
And contribution for operating Elmira, Chemung and Canandaigua divisions, (from Pennsylvania Railroad Company)	65,770 23
Total net receipts	$1,575,047 50

Of this, $849 540 was applied to the payment of total interest on the entire mortgage indebtedness of the company. The remainder was further applied to payment of interest, rentals, etc., for other of the lines, making the the total payments $1,513,842 11, leaving balance of net income for 1877, carried to credit of profit and loss account, $61,705 39. The item of $145,625 30, interest and gold premium upon the $2,000,000 7 per cent gold bonds of the Shamokin Valley and Pottsville Railroad Company, appears for the first time. The board decided to charge hereafter the interest on these bonds to the annual income account, crediting to that account the net earnings derived from the operations of the coal property. Notwithstanding the fact that this large additional charge has been made to the income account, and that no credit has been taken for the net earnings of the coal property, which have not as yet been paid over to your treasurer, amounting to $31,599 91; notwithstanding also the expenditure of $185,433 74 for betterments to the property, the net earnings of the company have exceeded the charges of all kinds against the same by the sum of $61,705 39. The board considers this to be a satisfactory result, when the continued depression of trade is considered, affecting very greatly, as it does, the coal and iron interests, which supply so large a proportion of the traffic of the lines.

In 1877 1,903,645 passengers were carried, a decrease of 423,953 over 1876. Revenue from passengers, $698,177 40; decrease, $233,605 52. Tons of freight moved, 6,160,171; increase, 581,-147, or 10.42 per cent. The coal tonnage of the Northern Central was 899,151 tons, against 822,-172 in 1876. The coal tonnage of the other lines shows an aggregate increase.

The board disposed of $1,685,000 consolidated general mortgage gold bonds for $1,433,404 16, which was applied, $500,000 to the payment of York and Cumberland bonds due Jan. 1, 1877, and $928,404 16 to redemption of bills payable. The amount of bills payable has been reduced from $1,345,822 56 to $376,557 77 in the year.

The profit and loss account is now debited with a balance of $368,413 58. This has resulted from charging directly to this account the discount on all the company's bonds sold, and all the interest paid (prior to 1877) on the bonds of the Shamokin Valley and Pottsville Railroad Company. Sundry old claims paid, together with the depreciation of certain securities held by the company to represent the same at their market value, are also charged to profit and loss.

The report refers to the good results from the grain elevator at Canton, it having yielded over 7 per cent interest on the entire cost.

The prompt action of Mr. George C. Wilkins, Superintendent of the Baltimore division, and the sensible and prudent course of the other officers and men in the service of the company during the railroad strikes last summer are commended, and the board express gratification at the honorable action of both officers and employes. A decided improvement was made in the condition of the property throughout the year.

Mr. A. J. Frey, of York, offered a resolution accepting the report and thanking the board for the manner in which the affairs of the company had been conducted.

Mr. Edward Worthington, of Baltimore county, seconded by Mr. L. L. Conrad, Baltimore, offered a substitute that the report be referred to a committee of three, to be submitted at a future meeting. Mr. Worthington said a report had been read, and but few understood what they had heard. If stockholders are never to get anything, he wanted the fact to be known.

Mr. Conrad said the history of the company is that the more it earns the less show there is for stockholders. Interest on the bonds is always paid, but by some new sort of bookkeeping the reports are made to show that the stockholders are further from getting anything than before.

Mr. Frey said he had confidence in the management, and believed the stock will rise in the early future. Firebrands had been thrown in other meetings of the stockholders.

Mr. Thomas A. Scott said it was indirectly charged that the Northern Central was used to further the interests of another company. He wanted to say as positively and clearly as possible that such a charge is not true. On the contrary, the Northern Central had been allowed more than its proportion for business done, because of its terminal facilities, which could be said of but few other roads. The report was a clear, strong showing. Over $700,000 remained to be used for other obligations, after paying all mortgage indebtedness. He did not think any road more solvent or stronger, and not 90 per cent of corporation or private business interests could make so good a showing for 1877. He objected to the criticism and innuendo against the board by Mr. Worthington's substitute. He said the directors of the Pennsylvania Railroad Company are honorable men. If the stockholders desire to examine the accounts of the company they will be granted every opportunity, but the public would construe the adoption of the substitute as indicating a lack of confidence.

Other gentlemen took part in the discussion.

Mr. Worthington's substitute was defeated by a close vote, and Mr. Frey's resolution accepting the report was adopted.

A motion that hereafter annual reports be printed in two Baltimore and one Philadelphia paper a week before the meeting was seconded by Col. Scott, who heartily approved of that measure, and the motion was adopted.

The Silver Bill.

The following is the full text of the bill, entitled "An act to provide for the coinage of the standard silver dollar and restore its legal tender character," passed on the 28th of February, 1878, over the President's veto by a vote of two-thirds of each branch of the National Legislature:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled:

That there shall be coined at the several mints of the United States silver dollars of the weight of 412½ grains Troy, of standard silver, as provided in the act of January 18, 1837, on which shall be the devices and superscriptions provided by said act, which coins, together with all silver dollars heretofore coined by the United States of like weight and fineness, shall be a legal tender at their nominal value for all debts and dues, public and private, except where otherwise expressly stipulated in the contract, and the Secretary of the Treasury is authorized and directed to purchase from time to time silver bullion at the market price thereof, not less than $2 000 000 worth per month, nor more than $4,000,000 worth per month, and cause the same to be coined monthly as fast as purchased into such dollars, and a sum sufficient to carry out the foregoing provisions of the act is hereby appropriated out of any money in the Treasury not otherwise appropriated; and any gain on seigniorage arising from this coinage shall be accounted for and paid into the Treasury, as provided under existing laws relative to the subsidiary coinage; provided that the amount of money at any one time invested in such silver bullion, exclusive of such resulting coin, shall not exceed $5,000,000; and provided further that nothing in this act shall be construed to authorize the payment in silver of certificates of deposit issued under the provisions of section 254 of the revised statutes.

SECTION 2. All acts and parts of acts inconsistent with the provisions of this act are hereby repealed.

SECTION 3. That immediately after the passage of this act the President shall invite the Governments of the countries comprising the Latin Union, so called, and of such other European nations as he may deem advisable, to join the United States in a conference to adopt a common ratio between gold and silver for the purpose of establishing internationally the use of bi-metallic money and securing fixity of relative value between those metals; such conference to be held at such place in Europe or in the United States at such time within six months as may be mutually agreed upon by the Executives of the Governments joining the same. Whenever the Governments so invited, or any three of them, shall have signified their willingness to unite in the same the President shall, by and with the advice and consent of the Senate, appoint three commissioners, who shall attend such conference on behalf of the United States and shall report the doings thereof to the President, who shall transmit the same to Congress. Said commissioners shall each receive the sum of $2500 and their reasonable expense, to be approved by the Secretary of State; and the amount necessary to pay such compensation and expenses is hereby appropriated out of any money in the Treasury not otherwise appropriated.

Section 4. That any holder of the coin authorized by this act may deposit the same with the Treasurer or any Assistant Treasurer of the United

States in sums not less than $10, and receive therefor certificates of not less than $10—each corresponding with the denominations of the United States notes. The coin deposited for or representing the certificates shall be retained in the Treasury for the payment of the same on demand. Said certificates shall be receivable for customs, taxes and all public dues, and when so received may be re-issued.

Hoosac Tunnel.

The annual report of General Manager Prescott, sent to the Senate on the 1st inst., embraces the usual detailed description of the line; also a statement of the Treasurer that there remains on hand of the appropriation of 1877 for the completion of the road the sum of $17,248 75, and also the $10,000 to construct the Union Station at North Adams. It also embraces the detailed report of Wm. P. Granger, chief engineer of the work accomplished under his supervision during the year, the most important of which was the building of the facade at the east end and on the arch at the west end of the little tunnel. Work has been commenced upon the central drain in the tunnel, and will be covered by the first of March. The matter of the Connecticut River Railroad crossings, and the freight and passenger accommodations at Greenfield, and the passenger station at North Adams, are referred to in detail, and the desirability that these conveniences should be speedily provided is emphasized. No accident of any nature has occurred on the road during the year, and the road and road bed are in excellent condition. In the experience of a year and a half there has been at no time the slightest trouble in the tunnel for want of ventilation, and when the wind is in certain directions the tunnel is often entirely free from smoke. The economy of double tracking the tunnel at the present time is suggested on the ground that material and labor can be obtained at low prices. The increase of business during the year has been highly satisfactory, the number of passengers over the road has been 120,879 against 68,715 in 1876. The total tons of freight moved over the road was 325,992. The total tons of through in 1877 were 282,967, against 202,093 in 1876. The total receipts were: For passengers $46,825 67; for freight tolls, $92,869 90; for mail service, express and extra baggage, $4,445 68. The total expenses were $60,235 31, of which $2,416 27 were for re-rolling old iron, leaving the net receipts of the road $97,905 94. This is nearly equal to five per cent on two millions of the debt incurred in construction of this tunnel. The New York Central Road is sending a large business over the line, placing it on equal terms with all its other connections. If the present policy is fixed and rendered permanent through a constitutional amendment the New York Central Company would send over this line an amount of business which would soon settle the question as to whether the Troy and Greenfield Railroad and Hoosac Tunnel would earn a net sum annually sufficient to meet the interest on the debt incurred in their construction, and the manager adds: "But I have yet to learn that the New York Central Company object to the use of the Southern Vermont road, or any other connecting line which may be built to it on equal terms. They are certainly in a position in every respect to fear no railroad competition for business over this road." The Troy and Greenfield railroad with its present connections stand the fourteenth in tonnage of our twenty six railroads. When it is considered that it moves but a few cars of coal, while the others move coal in large quantities, it becomes evident that it moves a larger tonnage in general merchandise than several of the oldest corporations.

Comparative statistics of the Fitchburg and Boston and Albany roads are introduced showing that the business of the former exceeds that of the Boston and Albany nine years ago, and that the Boston and Albany road still increases its tonnage, notwithstanding the large and increasing business through the tunnel. The manager discusses his duties at length, and argues that he is the agent of the Governor and Council, and has no executive authority to make combinations or originate contracts. Had the manager the authority, he could enforce no such contracts for business over connecting lines over which he has no control. His protest against the policy of the Troy and Boston Company in declining to run the express train reaching Troy during Saturday night, thus obliging passengers either to stay over Sunday in Troy, or transfer to, and purchase local tickets to Boston on the train run through by the Boston and Albany Railroad—thus far has led to no change of policy on their part in these respects although it is directly and indirectly very prejudicial to the interests of the line. The relations with the connecting roads have been satisfactory and some improvements are suggested. In conclusion he concurs with the Legislative Committee of last year, that the present system of management should continue at least five years.

Northern Railway of Canada.

At the annual meeting of the proprietors held in Toronto on the 20th ult. the Secretary read the following report of the Canadian directors for the year 1877:

To the Proprietors of the Northern Railway of Canada:

The Canadian directors have the honor to present their report for the year ending 31st December, 1877:

The gross traffic receipts have amounted to $728,472 10 (£149,686 1s. 9d. stg.) as against $784,801 38 in 1876, showing a decrease of 7.17 per cent.

The working expenses of the year have amounted to $415,773 15 (£85,432 16s. 0d.) as in comparison with $458.552 22 (£94,223 1s. 1d. stg.) in 1876, and showing a decrease of $42,779 07, or 9.06 per cent. In relation to gross earnings, the working expenses of 1877 have shown a rate of 57.07 per cent, against 58.42 in 1876, being a reduction of 1.35 per cent in favor of '77.

The net revenue of the year has amounted to $312 699 15 (£64,258 5s. 0d. stg.) as against $326,249 16 (£67,037 10s. 0d. stg.) in 1876, being a reduction of $13,550 01 (£2,784 5s. 0d. stg.) or a decrease of 4.15 per cent.

It will thus be seen that whilst the general stagnation of trade has pressed upon the company's resources with some severity, the effect has been practically overcome by the reduced cost of working, resulting from the falling prices in the year of wages and supplies of all classes; and although exceptional expenditure has unavoidably occurred in Parliamentary and kindred services, and although the burthen of taxation has sensibly increased, yet on the whole the net revenue has been well maintained to the average of previous years.

By reference to Account No. 2, it will be found that all the maturing revenue liabilities of the company have been duly paid, that the interest of every class of its debentures (including the new five per cent, issue) has been punctually met at due dates, and that in addition to a charge of $13,364 69 (£2,746 3s. 5d. stg.), on new and additional works, rolling stock, &c., the sum of $11,105 94 (£2,282 0s. 10d. stg.), has been appropriated to the writing off and closing of suspense accounts, bad and doubtful debts, and the like; carrying forward a balance of $1,618 71, (£332 12s. 3d. stg), to 1878.

The works and equipments of the lines have been maintained in thorough condition of repair and efficiency, and its traffic has been operated with unbroken punctuality and safety, all accident and damage claims to person or property being represented by the small charge of $829 31, (£170, 8s. 1d. stg).

The Company's Act of 1877, reported at the last annual meeting, has been availed of by an issue of five per cent first mortgage bonds on favorable terms; and thereupon the financial conditions imposed by the Government of Canada have been complied with, and every liability to that government paid off.

Under authority of an unanimous vote of the proprietors at a special general meeting held on the 14th November, 1877, a lease of the line of the North Simcoe Railway Company has been concluded, to take effect on the completion of that railway ready for traffic operation. Under the lease (which will be laid before you) this company will not be involved in any responsibilities or engagements other than as lessees, working the completed line under revenue arrangements.

As some doubts have been raised as to the respective powers of the companies, it has been thought expedient to introduce a bill confirmatory of the lease, and it is proposed to avail of the opportunity for securing such general powers as will prevent the necessity for further appeals to the legislature in regard to the leasing or working of the lines of other companies, and for securing and defining the rights of the company in connection with the extensive system of sidings and branches constructed upon and serving the properties of its customers. The draft bill, already deposited, will be submitted for your approval.

Appended are the reports of the auditors, with the balance sheet and usual departmental and statistical returns.

All respectfully submitted,

By order,

WM. THOMSON, President.

FRED. CUMBERLAND, General Manager.

WALTER TOWNSEND, Secretary.

Toronto, 29th February, 1878.

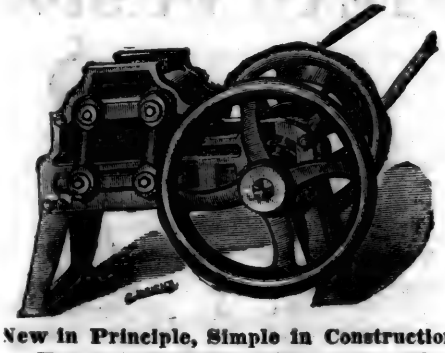
Cleveland and Pittsburg Railroad.

The income of the Cleveland and Pittsburg Railroad Company for the year ending December 31, 1877, was as follows:

From passengers	$460,745 30
From freights	1,766,227 68
From mails, express, etc.	103,860 68
From Pittsburgh, Fort Wayne and Chicago consolidated earnings	61,492 07
Total income	$2,392,825 73

And the expenditures were:

Conducting transportation	$412,994 67	
Motive power	288,868 20	
Maintenance of way	333 547 99	
Maintenance of cars	121,503 66	
General expenses and taxes	120,307 65	
	$1,291,662 18	
Rental, interest, etc.	1,248,950 69	
Sinking funds	63,824 00	
		2,599,436 87
Deficit in the year's account		$207,111 14



—being less than the deficit for last year by $5,305 78.

The results as compared with those of the previous year are as follows: the earnings from passengers, freight, etc., increase, $48,803 93; the operating expenses, decrease, $99,785 29; the net earnings of the road proper, increase, $148,589 22; the receipts from settlement of consolidated earnings with Pittsburgh, Fort Wayne and Chicago Railway, decrease, $140,496 98—leaving an increase in the net income of $8,092 24. These results are regarded as very favorable under the existing situation, being an earning of 5¼ per cent on the capital stock after deducting interest

on bonds. Rental paid to Pittsburgh, Fort Wayne and Chicago Railway, and Sinking Fund contributions, as follows: total income, $2,392,325 73; operating expenses, $1,291,662 18; interest on bonds, $346,371 11; lease of track and interest P., F. W. & C. Railway, $100,652 05; sinking funds, $63,824; total expenditures, $1,802,569 34; balance applicable to dividends, $589,616 39; being 5¼ per cent, as above stated, on $11,240,934—the amount of outstanding capital shares, after reducing the $19,800 of old certificates outstanding to their equivalent in the guaranteed 7 per cent shares.

Can I Obtain a Patent?

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

Make a note of the time when you first think of an invention, date and keep all writings, sketches, drawings and models of it. It will be well to have persons sign the former as witnesses, and this may be done without exhibiting the contents. To establish title to your invention, even after obtaining a patent, you may have to prove that you made it before any one else, and never gave it up.

The Coal Trade.

For the week ending the 23d ultimo, the total anthracite production, as reported by the several carrying companies, amounted to 230,102 tons, against 267,074 tons in corresponding week last year a decrease of 36,972 tons. The total amount of anthracite mined for the coal year is 1,788,747 tons, against 1,980,087 tons for same period last year, a decrease of 191,340 tons. The quantity of bituminous coal sent to market for the week amounted to 33,831 tons, against 56,688 tons in corresponding week last year, a decrease of 23,-307 tons. The total amount of bituminous mined for the year is 251,344 tons, against 407,290 tons for corresponding period last year, a decrease of 155,946 tons. The total tonnage of all kinds of coal for the week is 263,433 tons, against 323,712 tons in corresponding week last year, a decrease of 60 279 tons. The total tonnage of all kinds of coal for the coal year is 2,040,091 tons, against 2,387,377 to same date last year, a decrease of 347,286 tons. The receipts at Perth Amboy for the week ending on the 23d ultimo were 7325 tons, the shipments 5789 tons, leaving a stock on hand of 103,053 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of February was 79 458 tons, of which 62,638 tons were coal, and 16,820 tons coke. The total carried for the year is 601,493 tons, of which 469,863 tons were coal and 131,630 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad brought 18,000 tons of coal last week to Port Richmond whilst 17,500 tons were shipped thence. There were 80,500 tons shipped over the Reading Railroad for the week ending Saturday, March 2. —*Phila. Ledger, March* 4.

American Railroad Journal.

New York, Saturday, March 16, 1878.

A New Coal Road.

The Bradford (Towanda) Argus says that surveyors are now locating a railroad line from Minnequa, Bradford county, Penn., on the line of the Northern Central Railroad, to the coal fields on Little Pine creek, in Tioga and Lycoming counties. The road is twenty-five miles long. Colonel Potts is connected with the enterprise, which is conducted under the auspices of Philadelphia and Boston capitalists. This coal road is a connecting link with a projected road leading to Binghamton, New York, and bringing the Lycoming coal fields seventy-eight miles nearer Eastern markets. It is also expected and proposed to continue this same connection from Minnequa west, going over some eighteen miles of the proposed coal road, then striking through by Wellsboro, up Pine creek to Kettle creek, thence to the mouth of the Sinnemahoning, there to connect with the low grade Portage road, thus making direct connection from Boston to Pittsburg and Chicago, via Albany, Binghamton, Towanda, Minnequa, thence via Wellsboro to Pittsburg, shortening the rail connection from Boston to Pittsburg one hundred and thirty-five miles. Also a new road is proposed making connections from Pittsburg to Chicago, shortening the route sixty miles between those two places. The consumption of bituminous coal in Northern New York and the East and on Lake Champlain is immense. They are at present using coke for furnaces in New York State and on Lake Champlain that is prepared in the vicinity of Pittsburg, which is shipped to Boston via Erie, Pa., and New York Central Railroad. Coal in this section of country will make just as good coke as that in the Pittsburg region. Lake Champlain ores are largely needed in Pittsburg iron works.

Iron Tube Cars.

The recent building of a new style of freight cars in this city has caused inquiries concerning and interest in the new cars. The cars are flat ones, made, as to platform and frame, of wrought iron pipes and steel rods, and, 25 in number, were built for the Boston and Albany road. Flat and box freight car bodies made of wrought iron pipes and steel rods have been in use as an experiment for a number of years by several railroads in the country. The Providence and Worcester road has experimented with them for three years, and from one car of the iron tube make at first it is now ordering all cars, to replace its stock, as it wears out, of this make, and has at present 10 in use. Barnum has used 18 of the cars during the past 21 months in the transportation of his show. The Chicago, Burlington and Quincy Railroad has 20 box and 10 flat iron tube cars, and the Boston, Clinton, Fitchburg and New Bedford road four in service. The special merits claimed for the iron tube car are a saving of 25 per cent in dead weight, a greater durability, a 50 per cent saving in repairs, security against fire, greater elasticity of motion, an increased weight carrying capacity, practically limited by the strength of the truck only, etc. By a compilation from reports of the Railroad Commissioners of this State it is found that the eight leading railroads during the last five years have averaged 3.91 tons of dead weight for every ton of freight carried, and it is claimed for the iron tube cars that at least a ton of dead weight can be saved to a car. This saving ought to mean a dividend to any railroad equipped with the new cars. The same eight roads are found to have expended in five years $8,838,688 in repairs on cars, an average of $75 53 per car. The iron tube cars are believed to save 50 per cent of this expense. It is significant that the cars now built are much the same as they were 40 years ago, while the steel rail has succeeded the iron rail, which indeed was the successor of the wooden one. It seems time that improvements on the car was made, and those interested in the iron cars believe they have secured that improvement.—*Worcester Press.*

Atlantic, Mississippi and Ohio Railroad.

A second report to the holders of consolidated bonds of the Atlantic, Mississippi and Ohio Railroad Company has been issued in England, under date of January 16, 1878, by John Collinson. Mr. Collinson spent several months in this country during the latter part of 1877 assisting in bringing about a reorganization of the company. The report states that the earnings from June 13, 1876, to September 30, 1877, were $2,805,066 92, ordinary expenses $1,835,742 01, leaving a net revenue of $969,327 91. The extraordinary expenses for renewals and further construction, less the value of old materials, were $266,837 02 additional. The total liabilities October 1, 1877, were $1,141,291, and there was a deficiency of $607,835. Between June 13, 1876, and September 30, 1877, the receiver paid out, in addition to the sums required for proper current expenses, $266,837 for extraordinary renewals and constructions; back labor $50,775, back taxes $19,057, secured debts and supplies $41,209. During the same time the deficit in resources to meet liabilities was reduced $268,522, leaving the deficit $607,835.

It is proposed to consolidate the Atlantic, Mississippi and Ohio, which is 408 miles long, with the East Tennessee, Virginia and Georgia Railroad, 272 miles long, and the Memphis and Charleston Railroad, thus forming the shortest and nearly a direct route from Norfolk, on the Atlantic ocean, to Memphis, on the Mississippi river. The bondholders' committee of the Atlantic, Mississippi and Ohio state that they have secured the services of H. A. V. Post, of the firm of Perkins, Livingston, Post & Co., of this city, to act as their agent in this country in regard to the proceedings for the foreclosure and reconstruction of the company. Mr. Perkins, of the same firm, is one of the receivers of the company.

☞ The Brainerd Tribune says that Genl. Rosser, recently returned from Washington, reports the prospects of the Northern Pacific extension of time bill bright and still brightening. He thinks the company will build one hundred miles of its own road and a narrow gauge to the Black

Hills this year. He says Mr. Williams, the purchasing agent, is already contracting ties for the work.

Eureka Consolidated Mine.

There have been rich and valuable discoveries made during the last week in the deep workings of the Eureka Consolidated mine, ore having been met with of a higher grade than ever found in the mine. Some of it is fabulous in value, and at the same time it promises to be an extensive deposit, and one that will add largely to the resources of this magnificent property. There is one peculiarity of the ore discovered that upsets a good many theories. It has been understood, and admitted on all sides, that no chloride ore is ever found below the water level, but, as this is the character of this last discovery, that theory will have to be abandoned as untenable. However, the speculations and surmises of the scientists matter but little as long as we are assured of the existence of rich and extensive deposits. It being found at a depth of over 1,000 feet is an assurance of the permanence and inexhaustibility of the vein, and insures the future prosperity of the mining interests in Eureka district.—*Eureka Sentinel.*

Cleveland, Columbus, Cincinnati and Indianapolis Railway.

The earnings and expenses of this road for the years ending December 31, 1876 and 1877, were as follows:

Earnings:	1876.	1877.
From passengers	$800,828 26	$680,918 78
" freight	2,537,009 40	2,453,808 76
" express	77,646 63	74,494 53
" mail	79,528 14	75,717 78
" rents	49,655 37	41,532 61
" interest & dividends	131,790 06	107,888 69
	$3,676,457 86	$3,434,356 15
Expenses, viz:		
Freight expenses	$856,380 81	$853,177 79
Passenger expenses	260,515 14	243,478 24
Legal expenses	15,628 45	14,242 32
General expenses	108,396 50	104,624 98
Repairs of locomotives	179,040 72	202,711 55
Repairs of pass. cars	70,091 66	76,270 35
Repairs of freight cars	200,338 22	195,814 83
Repairs of track	410,618 50	418,888 66
Repairs of buildings	64,342 21	68,996 66
Repairs of fences	15,056 17	14,683 66
Repairs of bridges	32,192 93	64,074 86
Oil and waste	56,873 57	51,381 02
Fuel account	281,927 66	266,498 14
Stock damages	5,062 23	4,420 16
Loss and damages	13,695 24	7,945 83
Gratuities & damages	24,798 34	20,711 00
Telegraph expenses	46,743 05	49,812 03
Balance car service	160,368 22	113,512 25
	$2,801,535 62	$2,770,344 28
Earnings less exp.	$874,892 24	$664 011 87
Add balance from previous year		494,803 86
Total		$1,158,815 73
Disbursed as follows, viz:		
Taxes		$175,282 45
Interest on bonds		426,877 50
Sundry accounts charged off as worthless		103,743 86
Surplus December 31, 1877		452,961 92
Total, as above		$1,158,815 73

The gross earnings in 1876 were $3,676 457 86, and the total expenses, including taxes and interest, were $3,401,922 14, leaving a balance of $274,535 42. In 1877, the earnings were $3,434,-356 45, the expenses, taxes and interest, $3,372,-454 23, and the balance $61 901 92. The ratio of expenses to earnings in 1876 was 76.20 against 80.08 in 1877. The President in his report says:

There has been a marked diminution in the volume of both passenger and freight traffic, coupled with depressed freight rates throughout the year. Compared with 1876 the gross earnings have fallen off $242,101 71, or 6.58 per cent, and the expenses are less by $31,221 34, or 1.11 per cent.

The average rate received per ton mile of freight, is 0.890 cents compared with 0.814 cents the previous year.

The low cost rate per ton mile of 0.756 cents in 1876 it has not been practicable to improve, but from the effects of diminished tonnage, whilst maintaining the property to standard, the cost rate per ton mile has been increased, and stands at 0.849 cents.

From similar causes affecting the passenger traffic, the cost per mile per passenger has been 1.481 cents, as against 1.236 cents in 1876. The average rate received on this traffic shows an increase, being 2.859 cents per mile per passenger, as against 2 658 cents in 1876, but the rate of that year was extraordinarily depressed.

In this matter of traffic, rates and cost, special attention is directed to a new table (page 22) of the Auditor's Report, for a better understanding of the effects of low rates upon the net earnings of the railway.

And it is observed that the effect of a single mill added to the average freight rate per ton mile on the business of the past year, would be to increase the net earnings exceeding $275,000.

It is again stated that the affairs of the railway have been conducted with watchfulness and prudence, but under exceptionally difficult circumstances.

It is simply impossible from the geographical position of the railway, and its peculiar relations in respect of traffic, to earn any considerable amount of net money from such terribly depressed freight rates as have obtained during the past three years.

The line is measurably limited in anything approaching local business, i. e., business which yields uniform and fairly remunerative rates; but, in the main, its dependence has gradually and of necessity grown to be upon the through traffic, which must be carried at whatever rates a constant and heretofore fierce competition may impose.

The disastrous effect of this is to be noted in the table of the Auditor's Report just referred to, where it is seen that in 1869 the tons moved one mile of freight were 116,325,486, at a gross rate per ton mile of 1.797 cents, and at a cost rate per ton mile of 1 448 cents.

In 1877 the number of tons moved one mile were 275,686,300, an increase of 137 per cent, and at a gross rate of 0.890 cents per ton mile, or a decrease of 50.47 per cent. The cost rate in 1877 being 0.849 cents per ton mile, or a decrease of 41.16 per cent, and the cost rate per ton mile of 1869 being 62 1 per cent greater than the gross rate received per ton mile in 1877.

The Bonded Debt has been decreased during the year $59,000, and now stands at $6,055,000.

There has been advanced since the last report, to the Indianapolis and St. Louis Railroad, the amount of $74 000, and to the Cincinnati and Springfield Railway, $178,696 10.

The construction account for 1877 amounts to $20,083 80, which includes the completion of the yard and tracks connected with the shops improvements at Brightwood.

The results of the pool between Dayton and Cincinnati with the Cincinnati, Hamilton and Dayton Railroad have been to the mutual satisfaction of both companies.

The pool between the Indianapolis and St. Louis and the Terre Haute and Indianapolis Roads has however been abrogated as of December 31st last.

Under the provisions of this pool the joint earnings were divided, 48 per centum to the Indianapolis and St. Louis Railroad and 52 per centum to the Terre Haute and Indianapolis Railroad, the local and passenger business in its conduct being yielded to the shortest road.

The result was a surrender, as was expected, of some portion of the traffic of the Indianapolis and St. Louis Road, and a payment to it by the Terre Haute and Indianapolis Road, under the pool working, from November 1st, 1876, to December 31st, 1877, of about $150,000.

This proved unsatisfactory to the Terre Haute and Indianapolis Railroad Company; and the Indianapolis and St. Louis Company refusing to yield the traffic of its line and revenue together, by a proposed readjustment and change in the per centage divisions of traffic and earnings, the pool was terminated by mutual agreement.

It will be observed from the Auditor's comparative statement of earnings and expenses, that the track, equipment, buildings and all appurtenances have been thoroughly maintained.

The operating expenses of the year include the cost of changing the gauge of the railway and its equipment from 4 ft. 9½ inches to 4 ft. 8½ inches, the standard gauge of the Eastern and Western States, and the gauge of all the principal connections of this railway north of the Ohio River, (except the Erie Railway and one of the Missouri railroads), as well as the gauge of all main connecting lines from New Brunswick to California.

This change will prove to be in the future judicious and economical in the maintenance of the equipment and renewal of car wheels, and it has opened the road to a free and full employment of all of the equipment of the 4 ft. 8½ inches standard gauge of connecting and distant roads.

During the year an engagement has been made with the Michigan Car Company of Detroit, for 150 new box cars, built to the pattern and under the specifications of this railway. The cars have now been delivered, and are leased at the current rate of mileage of three-fourths of one cent per mile of actual service. The cars can be purchased hereafter at an agreed price.

The number of locomotives in service at the close of the year was 139, classified as follows: freight, 84; passenger, 24; switching, 31.

The mileage of the year was: for passenger service, 934,094; for freight service, 3,060,199; for construction, fuel and repairs, 119,489—total, 4,113,782, a decrease, compared with the preceding year, of 569,096.

The passenger and freight equipment in service at the close of the year was as follows: 32 passenger, 16 smoking, 8 sleeping, 2 parlor, 1 directors', 1 paymaster's, 16 baggage and express, 3 U. S. postal, 1 mail, 1,841 box, 265 stock, 632 flat, 676 coal, 65 caboose, 5 derrick, and 3 relief tool cars.

The equipment for the Cincinnati and Springfield line was as follows: 16 locomotives, 15 passenger, 6 baggage, 2 U. S. postal, 100 box, 100 stock, 100 coal, and 11 caboose cars.

The total number of passengers carried was 695,128; of whom 632,830 were way, and 62,298 through. Number of passengers carried one mile, 29,066,177. Average rate per passenger per mile, 2.843 cents, against 2.222 cents in 1876, 2.541 cents in 1875, 2.716 cents in 1874, and 3.009 cents in 1873.

The total number of tons of freight carried was 1,624,200; of which 1,052,432 tons were through and 571,768 way. Of the through freight 843,342 tons were carried eastward and 209,090 westward. Of the way freight, 355,847 tons were carried eastward, and 215 921 westward. Total eastward bound, 1,199,189; do. westward do. 425,011. Number of tons carried one mile, 275,686,300. Average rate per ton per mile, 0.890 cents, against 0.814 cents in 1876, 1.005 cents in 1875, 1.192 cents in 1874, and 2.362 cents in 1873.

The renewals for the year embrace the follow-

ing: 170,589 cross ties, 2,358.83 gross tons Bessemer steel rail, 1,485.58 gross tons re-rolled iron rail, 405,600 lbs. railroad spike, 248,818 iron joint splices, 108,654 lbs. track bolts and nuts, 8,500 repaired rails. 40¾ miles of track were re-laid during the year—25 miles with Bessemer steel rails, and 15¾ miles with re-rolled iron rails.

The excess of expense in repairs of track this year over 1876, is due to the fact that no part of the cost of steel rails has been charged to construction, nor has any cost of additional or new sidings built during the year—all cost having been charged to expense account.

The gauge of the track was changed during the months of September and October from 4 feet 9⅛ inches to 4 feet 8½ inches causing a small additional expense for spike and labor; but as the work was done from time to time, mostly with the regular force, no separate account was kept of the cost.

During the year three locomotives were built by the company to replace 4 broken up, the cost of which was charged to repairs of locomotives.

ABSTRACT OF LEDGER BALANCES, Dec. 31, 1877.

ASSETS.

Construction		$17,998,642 22
Materials on hand:

Union Pacific Railroad.

At the annual meeting of the Union Pacific Railroad Company, held in Boston on the 6th inst., the following resolutions, offered by Mr. Isaac Thatcher, were adopted:

1. The stockholders acknowledge the necessity for a sinking fund to provide for the final payment of the Government debt, and the delay in providing one has occurred from their belief that some proposition would come from the Government that they could accept, and preferring that the fund should be held by the Government as more satisfactory to both parties to the contract.

2. The company is willing to anticipate the debt upon any basis or plan submitted that is not a burden upon its present and a menace to its future prosperity and business.

3. The stockholders realize that any sum fixed by Government that forces the company to increase its revenues to meet it must result in higher rates, and fall entirely upon the road's patrons acting as a check upon the future development of the country, and they do not deem it prudent to agree to any sum that its present earnings do not justify them in paying. Upon the stockholders rest the future management, economy and final reimbursement of the debt to the Government.

In assuming this responsibility they should have a fair remuneration for maintaining the company's credit, sustaining the road and managing so vast a property. That the road should be maintained, and from year to year made permanent, is one of the conditions of the contract that not only the Government is interested in, but that the entire country tributary to it is entitled to have.

The future earnings of the company are dependent upon many contingencies. The other projected lines over the continent are in time certain to be built, thus dividing the through business; the earnings upon Government business are liable ere long, from the settlement of the country adjacent to our line, to be reduced to a nominal sum above the mail pay, thus cutting off one of the principal elements in fixing a sinking fund at the present date.

The stockholders therefore believe that the company is not justified in accepting any sum in excess of one million of dollars on a yearly payment to a sinking fund, such sum to include all claims or charges, annual or otherwise, now made by the Government. Any additional sum the company cannot now in justice to itself and the duties it is required to perform, consent to, believing with the uncertain future it would be very doubtful if the company could meet it.

They therefore suggest to the Board of Directors that it is not prudent or wise to accept any settlement that fixes a sum in excess of that amount. If no satisfactory arrangement is made with the Government the stockholders believe it to be sound financial judgment to establish a volunteer sinking fund, and therefore request the Board of Directors to establish such a sinking fund as will ultimately provide for the principal and interest of the Government debt, the semi-annual contributions to it to be such a sum as not to unnecessarily tax the public and Government in freights and fares, and in our judgment should not exceed the sum heretofore named—one million dollars. The sinking fund, if invested in the company's securities, could be made to earn eight per cent interest per annum instead of five or six that we would earn under Government supervisors, and this would enable the company to reduce its debt more rapidly.

Hon. John B. Alley considered the action of the Government unjustifiable. He said the company had carried out their contract with the Government, but the latter had failed to keep equally good faith with them. Nothing could be clearer than the language of the charter, that the Supreme Court had decided in favor of the road as against the Government, and he characterized the action of the Government for the last two years as harsh, unjust and unreasonable. He said that no corporation had derived so much benefit from the road as the Government and people of the United States. It had been said that the contract was onerous, but even if it was there was no question as to it being binding.

☞ The Chicago and Alton Railroad Company has finally decided to build the Louisiana and Missouri River railroad from Mexico, Missouri, to Kansas City. The new line west from Mexico will be known hereafter as the Kansas City, St. Louis and Chicago. A contract is being made for the construction of the line with steel rails and iron bridges, depots, &c., at about $14,000 per mile. The money for this work has been secured by the disposition of the bonds of the company. The distance from Mexico to Kansas City is 162 miles, and it is proposed to build the road at once.

☞ The Ohio Central Railroad, formerly Atlantic and Lake Erie, and reorganized under the above name in 1876, is to be sold at Master Commissioners' sale at Bucyrus, Ohio, on the 27th of March. It was intended to run from Pomeroy to Toledo, 235 miles, but is in operation from Moxahala to New Lexington, 7½ miles.

☞ The Cleveland Southern (Narrow Gauge) Railroad Company has been organized to build a road from Cleveland southward through Berea, Liverpool and Medina to Wooster, and thence via Zanesville, Maxahala and Athens to Pomeroy, a distance of 204 miles.

☞ The grading on the Columbus and Gallipolis railroad between McArthur and Gallipolis, Ohio, will be completed about the 20th of this month.

Total entered warehouse.	$4,817,780	$4,687,481
Add entered for consump.	14,761,435	13,813,040
Total entered at port ..	$19,579,165	$18,450,527

☞ The Railway Angle Iron Company of Boston are making a rail of angle iron to be laid on wooden stringers. For a narrow gauge road the rails are made of 17 pounds per yard, and for a standard gauge of 28 pounds. It is claimed that on account of the elasticity of the stringers, the rails will not crush out as fast as the T rails, and that there will be a great saving in wear and tear of rolling stock, and that a less number of section hands will be required. The Boston, Winthrop and Point Shirley Railroad (narrow gauge) is built with the new rails.

Commerce of New York.

The foreign imports at New York for the month of February, 1878, are officially stated as follows:

	1877.	1878.
Entered for consumpt'n.	$13,135,513	$11,566,577
Do. for warehousing	5,129,528	5,150,245
Free goods	6,664,480	6,153,024
Specie and bullion.....	1,729,747	2,856,868
Total entered at port...	$26.659,268	$25,726,714
Withdrawn fr. wareh'use	5,559,897	5,883,551

The foreign imports at New York for two months from January 1, were:

	1877.	1878.
Entered for consumpt'n.	$24,329,708	$22,619,078
Do. for warehousing...	10,675,876	10,026,329
Free goods	16,255,478	14,028,079
Specie and bullion.....	3,004,543	3,679,917
Total entered at port..	$54,265,605	$50,353,403
Withdrawn fr. wareh'se	12,488,372	10,863,487

American Railroad Journal.

Saturday, March 16, 1878.

Financial and Commercial Affairs.

Throughout the week the report in the financial line has been of decided ease in Money, with a comparatively moderate inquiry noted from nearly all sources for accommodation, though toward the close the increasing volume of operations at the Stock Exchange tended to stimulate the demand for aid on speculative account. The backwardness of the Spring trade in most commercial lines has served to limit the discount applications. Call loans were quoted here at from 3@6, the principal negotiations having been within the range of 3½@5; and very choice to strictly prime mercantile credits were rated at 4½@7 per cent per annum. The City bank exhibit of last week indicated a contraction in the loan and discount average of $185,400, and an increase in the item of circulation of $46,600. The average of deposits was further augmented $1,222,500. The legal tender reserve was reduced $2,482,000; and the specie average increased $3,790,500. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $12,983,825, as against $12,980,950 the preceding week, and $16,016,775 the week ending Feb. 9, (the latter the highest aggregate reached this year.) The City bank exchanges in currency reached $377,110,111, or a daily average of $62,851,685.

The outstanding amount of legal tender notes is $348,680,426. The National bank circulation is now $320,453,635 of currency notes and $1,432,120 of national gold bank notes. National Bank notes received at the Treasury Department last

week for redemption were to the amount of $2,615,000.

An unusually active business has been reported in Government Securities on home investment and on speculative account, but at variable prices, leaving off more firmly. Large purchases are represented as having been made in the London market on account of operators here. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 106¾@107; do. coupon, 106¾@107; do. 1865, new, registered, 104@104⅛; do. coupon, 104@104⅛; do. 1867, registered, 106⅞@107; do. coupon, 106⅞@107; do. 1868, registered, 108⅝@108⅞; do. coupon, 108½@109; do. ten-forties, registered, 101¾@104⅞; do. coupon, 104⅞@105⅛; do. five per cents, 1881, registered, 104¼@104⅜; do. coupon, 104⅛@104¼; do. 4½ per cents, 1891, registered, 102⅝@102¾; do. coupon, 102½@102¾; do. 4 per cents, 1907, reg., 100@100⅛; do. coupon, 101@101¼; do. sixes, currency, 118½@119.

The Secretary of the Treasury has issued a new circular, inviting popular subscriptions to the new 4 per cent bonds which will mature in 1907. Subscriptions may be paid for with "coin" or with currency checks, which latter the National Bank of Commerce of this city, as a designated depository of public funds, will receive and convert into coin, and credit the same to the National Treasury.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $346,055,850, and $13,593,000 as security for public deposits.

A moderate degree of animation has been noticeable in State bonds which have met with a fair call from investment buyers, and have shown rather more firmness as to price. Railway Mortgages have been quite freely dealt in, and the favorites of the actual interest bearing loans have been quoted stronger. And in the line of Railway and Miscellaneous share property business has been on a more liberal scale, and the market characterized by decided buoyancy. The speculative temper has been much more confident, and has served to develop activity throughout the general list. The calmer position of affairs in the financial and commercial lines has tended to quicken the upward movement.

The income of the Government from internal revenues last week was about 2¾ millions, and from Customs last week again about three millions.

In the absence of any important demand for Gold, and in view of the steady accumulation at this centre of specie, the price has fallen almost to par, or within one per cent of that basis, on a very speculative movement, and an unusual lack of interest in this feature of business. Little difficulty is experienced in meeting the legitimate requirements of the market. The extremes of the price during the week have been 100¾@101⅜, closing on Wednesday at 101 as against 101⅞ on Wednesday of the preceding week. The specie outflow last week was only $44,816—making the total exports of specie hence since January 1, $2,195,844 against $3,085,177 the same time in the preceding year. The imports of specie at this port last week reached $70,203 and since January 1st have been $3,747,145 as against $3,782,022 same time in the preceding year. The Customs demand for gold in the local market last week reached $2,109,598 or an average of $351,599 per day.

On a lighter offering of strictly first class bills Foreign Exchange has been again quoted stronger in price, on a fairly active demand, closing, however, tamely. Bankers' sixty day bills on London closed on Wednesday at $4 84½@$4 85; sight bills on London at $4 86¼@$4 87 to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $6,608,083 as against $8,258,919 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $2,436,729 of Dry Goods, and $4,171,854 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the aggregate value of $6,488,220, against $4,130,180 same week in 1877; and since Jan. 1 have been $67,032,911, against $51,905,530 same time last year.

Metals have been moderately active, but the advantage as to values has been in favor of buyers. Eglinton Pig Iron quoted at $24; Glengarnock $24@$24 50; Coltness $25@$25 50; No. 1 American Pig at $18@$19 50; No. 2 do. at $17@$18 50. Forge $16@$17, (with 2,000 tons American sold on p. t.) New Iron Rails at works $33@$37. Old Rails $19@$20. Wrought Scrap $22@$23. Steel Rails, on the basis of $42@$43 at tide water. (10,000 tons sold on p. t.) Ingot Copper in less demand on the basis of 17⅛ for early delivery.

Business in Domestic produce has been less satisfactory both as to volume, and the course of prices. Breadstuffs and Provisions have fluctuated widely, leaving off irregularly, on a restricted movement, though the further decline in ocean freights favored export operations. Cotton has been quoted about steady, as a rule, on, however, a very moderate show of animation, particularly for forward delivery. Naval Stores and Petroleum have been in rather more demand but quoted weaker in price. Foreign merchandise has been in comparatively light request for the season, and has been quoted heavy and irregular as to values, in most instances.

Ocean freights have shown increased depression, on a restricted call for accommodation, and more liberal offerings of room on berth and tonnage on charter. The movements in the line of Breadstuffs, Provisions and Cotton were less extensive Liverpool steamer rates at the close for Grain, quoted at 6½@7d. Flour, at 3s. Provisions, 27s. 6d.@37s. 6d.; Leather, 50s. Measurement Goods at 20s.@22s. 6d. per ton; Cotton, 3-16@⅛d. per lb. Liverpool, by sail, Cotton, 15-64@⅛d. Grain, at 7d.; Flour, 2s. @2s. 1½d.; Measurement Goods, 12s. 6d.@17s. 6d. Tobacco 30s.; Oil Cake at 18s. 9d.@20s. Grain rates on charter hence for Cork and orders left off at 5s. 6d.; (Barley contracts at 5s. 9d.@6s.); for the Continent Grain at 5s. 6d.@6s. and from Baltimore for Cork and orders, 5s. 6d.@5s. 9d. and from Philadelphia at 5s. 6d.@5s. 9d.; and from Portland at 5s. 9d. and to the Cape of Good Hope, 40s. per ton and from San Francisco to the United Kingdom at 52s. 6d.@58s. 9d. Refined Petroleum hence for Cork and orders, 4s.@4s. 3d.; for the Continent, 3s.@3s. 6d. and Java at 32½@35ct. and Japan, 45@50cts. and for French ports (crude) at 4s.@4s. 3d. Gibraltar and orders at 4s. 3d.@5s. 6d.; Smyrna, cases, 27½. Crude do. Havre or Dunkirk, at 3s. 9d. Cotton by sail from New Orleans to Liverpool 7-16d. @15-32d.; from Galveston, at 15-32d.; Ky. Tobacco from New York to Spain at 32s. 6d.@35s. Naval Stores from Wilmington for Cork and orders at 3s. 9d.@4s. and 5s. 6d.@6s. and from Charleston or Savannah at 3s. 6d.@4s.@5s. 6d.@6s. Lumber from Savannah or Brunswick to the River Platte, $18@19, and Savannah to Spain at $15. Deals from Portland to Glasgow at 72s. 6d., St. John to Liverpool at 66s. 3d.@67. 6d., and Charleston or Savannah to the United Kingdom at 100@110s.; Hewn Timber from Doboy to do., at 35s. 6d.@37s. 6d.

CENTRAL RAILROAD COMPANY OF NEW JERSEY.

All parties interested in the stock or bonds of this company, in the bonds of the American Dock and Improvement Company, or of the Lehigh and Wilkesbarre Coal Company, are invited to call and sign the agreement for the equitable adjustment of its affairs.

To participate in the benefits of the agreement stockholders must sign it on or before 25th March.

Copies of the agreement may be obtained, and subscriptions to same will be received, at the office of the railroad company, No. 119 Liberty-st.; at the office of the Receivers of the Lehigh and Wilkesbarre Coal Company, No. 71 Broadway, or at the office of J. S. KENNEDY & CO., No. 41 Cedar-st., New-York.

F. S. LATHROP,
JOHN S. KENNEDY,
JOHN P. JOHNSON,
JACOB VANATTA
GEORGE MANLEY,
} Committee of Detail.

CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY COMPANY, NEW YORK, March 1st, 1878.

NOTICE IS HEREBY GIVEN THAT A DIVIdend of three dollars and fifty cents per share has been declared on the preferred stock of the Chicago, Milwaukee and St. Paul Railway Co., out of the net earnings of the year 1877, payable at the Company's office, 68 William St., on the 10th of April next.

The transfer books will be closed on the 25th of March, and reopened on the 13th of April next.

JULIUS WADSWORTH, Vice President.

Plumas National Quartz Mining Company.

Attention is called to the advertisement of the Plumas National Quartz Mining Company, situated in California, near Granville, Plumas county. R. M. Wilson, Esq., United States Deputy Mineral Surveyor for California, a gentlemen holding a high position for honor and accurate knowledge, has made an exhaustive report upon this property, which shows it to be one of the most promising gold mines in California. The company is running for the present only one twenty-stamp mill, with a capacity of 25 tons per day, or 650 tons per month, and yet so rich is the net yield that the company binds itself to the payment of not less than $72,000 per annum for dividends, and they believe the amount will exceed $100,000 this year. An additional mill of forty stamps, says Mr. Wilson, will insure a net increase of not less than $20,000 per month, which will be equal to 24 per cent per annum, or 2 per cent per month on the entire capital of the company, viz., $1,000,000. It is the intention of the directors to put up this mill during the summer. The title to the property is clear. It is out of debt, and it is the purpose of the managers to allow no debt to be contracted. The president, Charles W. Reed, Esq., of Sacramento, Cal., is an old citizen of that State, of high character and large wealth. H. C. Bidwell, manager and superintendent, is a gentleman of integrity and ability. The secretary and assistant treasurer, Mr. A. P. Marshall, is a citizen of New York, and is well and favorably known to our business community. The Farmers' Loan and Trust Company of this city, is the registry office of this Company. The company has declared a dividend of six cents per share for February, payable on and after the 10th instant.

☞ At Chicago, Ills., on the 9th inst., under an order of the United States Court Mr. Bishop, Master in Chancery, sold the Chicago and Iowa Railroad to J. M. Walker, Attorney for the Chicago, Burlington and Quincy Railroad, for $900,000, $15,000 being cash down. Walker bid it in for the bondholders. The attorney for the Chicago and Iowa road gave notice that he would appeal to Judge Drummond to set aside the order of sale. The road is about eighty miles long and runs from Aurora to Foreston, Ill.

☞ The Ohio State Journal says that it is expected that the Columbus and Gallipolis Railroad will be completed and in running order as far as the Marietta and Cincinnati road, by the first of June at the farthest.

☞ The Portland and Oxford Central Railroad, which has been unused for some time, is being put into a condition to resume business.

☞ Col. R. E. Ricker has been appointed General Manager of the New York Elevated Railroad Company.

☞ The Montreal, Portland and Boston Railway has been re opened for traffic under the Presidency of S. T. Willett.

☞ Israel Washburn, Jr., has been elected President of the Rumford Falls and Buckfield Railroad Company.

☞ The Delaware and Raritan Canal will be opened on Monday, the 18th inst.

Centripedal Railway System.

The New York Board of Trade and Transportation has issued a pamphlet describing the centripedal railway system devised by Mr. Albert G. Busby. This consists essentially of a substantial permanent way, composed of a centre or bearing rail and two outer or steadying rails, combined with distience or brace pieces so as to form one continuous structure. The cars and locomotives have double flanged bearing wheels adapted to the centre rail, and side steadying wheels without flanges adapted to the outer rails. Each set of wheels has a separate and independent axle, and all are arranged so as to have a swinging and lateral as well as perpendicular motion, each independent of the other. It is claimed that the load is mainly carried on the centre rail, and that there is no grinding action in passing over curves. The centre rail may have a face of any width, and thus the adhesion of the locomotive wheels is materially augmented, admitting of the use of heavy gradients. Curves of fifty feet radius are claimed to be possible under the system.

Railroads of Minnesota.

BY RICHARD SWAINSON FISHER, M. D.

The Railroad Commissioner of Minnesota, the Hon. W. R. Marshall, reports the length of railroads in that State at the close of the official year (June 30) 1876-77, at 1,978.37 miles, and thus accounts for them:

	Length of Line. Total.	Minn.
Central of Minnesota	40	40
Chicago, Dubuque & Minnesota	138.60	25
Chicago, Milwaukee & St. Paul:		
Hastings and Dakota Division	75	75
Iowa and Minnesota Division	262	148
River Division	128	128
Minneapolis and Duluth	15	15
Minneapolis and St. Louis	27	27
Northern Pacific	449	253 50
St. Paul and Duluth	156	156
St. Paul and Pacific (1st Div.) Main	207	207
St. Paul and Pacific (1st Div.) Branch	76	76
St. Paul and Pacific—Melrose Branch	35	35
St. Paul and Pacific—St. Vincent Extension	104	101
St. Paul and Sioux City	121.27	121.27
St. Paul, Stillwater and Taylor's Falls	23 75	23.75
Sioux City and St. Paul	123.50	66.25
Southern Minnesota	167.50	167.50
Stillwater and St. Paul	13	13
Western of Minnesota	4.50	4.50
Winona and St. Peter	327	288.50
Winona, Mankato and New Ulm	8.75	8.75
Worthington and Sioux City	29.55	29.55
Total length of all railroads in operation June 30, 1877	2,692 22	1,978.37

The Northern Pacific and the St. Paul and Duluth own jointly the 24 miles between their junction and Duluth; and the Chicago, Milwaukee and St. Paul and the St. Paul and Sioux City, the 5.20 miles between Mendota and St. Paul. In the separate accounting such length is allowed the companies severally, but the proper deduction is made in the totals.

The only new line opened in the official year 1876-77 was the Worthington and Sioux Falls between the junction 3 miles from Worthington to Luverne 29.55 miles. The following lines have been opened since the close of that year and to December 31, 1877:

	Miles.
Burlington, Cedar Rapids and Northern—	
Albert Lea to Iowa Line	18
Minneapolis and St. Louis—	
Sioux City Junction to Albert Lea	81½
Minnesota Midland (Narrow gauge)—	
Wabasha towards Zumbrota	20
Red River and Manitoba—	
Breckenridge to Barnesville	38½
Western of Minnesota—	
St. Cloud to Brainerd	56
Worthington and Sioux Falls—	
Luverne to Dakota Line	8

—total of all lines opened between July 1 and December 31, 1877, 212 miles. Including these the total length of railroad in the State at the close of the year 1877 was 2,190.87 miles.

The following table shows the miles of railroad at the close of each year (December 31) and the miles constructed yearly since the commencement of railroad building in the State:

Years.	Built.	Total.	Years.	Built.	Total.
1862	10	10	1870	326.50	1,067.50
1863	46.50	56.50	1871	458	1,545.50
1864	43.50	100	1872	356	1,901.50
1865	110	210	1873	7.50	1,909
1866	105	315	1874	40	1,949
1867	114	429	1875	..	1,949
1868	131	560	1876	29.50	1,978.50
1869	201	761	1877	212	2,190.50

It would be difficult to approximate the cost of any one of the above lines. Only in a very few instances does the stock represent money actually paid in. The figures given in the report in relation to cost are otherwise very meagre and incomplete. A few of the newer lines make no returns. The following table reports the stock, bonds and debt, which together are supposed to represent the cost of properties:

Railroads.	Length of Roads. M.	Capital Stock. $	Funded Debt. $	Floating Debt. $	Total Investment. $
Central Railroad of Minnesota	40	587,300	600,000	10,000	1,197,300
Chicago, Milwaukee and St. Paul—					
River Division	128	2,581,979	7,741,844	(None in	5,273,823
Iowa and Minnesota Division	148	2,927,601	3,170,257	excess of	6,097,858
Hastings and Dakota Division	75	1,483,582	1,606,550	assets.)	3,090,132
Chicago, Dubuque and Minnesota	25	422,982	None.	None.	422,982
Minneapolis and Duluth	15	200,000	280,000	None.	480,000
Minneapolis and St. Louis	27	94,819	700,000	None.	794,819

The total debt secured on the railroads in Minnesota was in 1875 $54,729,643; in 1876 $45,796,239, and in 1877 $43,852,710. It is apparent, therefore, that there has been swept away by foreclosure and other causes in the two years from July 1, 1875, to June 30, 1877, no less than $10,876,933.

The total net earnings as given above, had they been honestly paid on the debts aforesaid, would have given at the rate—in 1875, of 1.87 per cent;

in 1876, of 3.92 per cent; and in 1877 of 3.52 per cent.

We are not told how much was actually paid; but if all had been paid that was earned, that whole would have been a very indifferent compensation for the risks of the capitalists who invested their means in Minnesota railroads. But, while this capital was being thus paid the capital itself wilted down about 20 per cent!

And yet this State—Minnesota—cries loudest against the despotism of capital, which it has been robbing since the day of its birth.

Peru, its Mines, Railroads, etc.

The mines of Peru have been worked more or less from the earliest days of which we have any history of the country. Anterior to the occupation of this land by the Incas we have only tradition to inform us, but the precious metals were used by the Incas in large quantities for purposes of ornamentation, and it was the value of these treasures that nerved the arm of the Spanish conquerors to achieve their deeds of daring. The work of mining has been continued to the present day, but it has never been developed to a large degree, in consequence of the distance of the mines from the coast and the difficulties of transportation. The expense attending the working of the mines is also immense in consequence of the desert character of the country, which makes it necessary to transport from the coast even the daily food required to support the lives of the employes. At short distances from the small streams water is rarely found that is fit to drink, and even on the coast fresh water is produced by condensation. Droves of mules and donkeys, imported by the Spaniards, traverse the land to and from the mines like fleets of the desert, and much time is consumed in a voyage of these caravans. The price of labor is low, but animals are considered very valuable property. When a balance is struck between expenses and receipts, the margin of profit is not large. The chief operators in mining, as in all other industrial pursuits of the country, are foreigners.

The method decided upon by the Government to develop the resources of the country was to inaugurate an extensive system of railroads in order to aid in the transportation to and from the mines, and to induce immigration to the rich valley beyond the Western Cordillera, which is but sparsely settled by Indians. It is from the moment when this decision was acted upon that the present financial condition of the country dates. The names of Col. Balta and Mr. Henry Meiggs are inseparably linked with this turning point in the history of Peru.

It was at the time of President Balta's accession to power in 1868 that it was made known publicly that it was the intention of the Government to institute a railroad system for the purpose of developing the interior of the country, and of affording transit to the coast for its resources. It was determined to make the work a Government work, and at the end of the year 1868 President Balta made his contract with Mr. Meiggs for the building of the following railroads:

	Miles.	In Bonds, Soles.	In Cash, Soles.
Mejia to Arequipa..	107	.....	12,000,000
Juliaca to Cuzco....	212	.....	25,000,000
Chimbote to Huaraz and Recuay	172	.....	24,000,000
Pacasmayo to San Pedro & Guadalup	93	5,000,000	2,100,000
Calanique to Magdalena,.....	38	.....	3 750,000
Ilo to Moquegua...	63	6,700,000	5,025,000
Arequipa to Puno..	217	32,000,000	25,280,000
Callao and Lima to Oroya	145	27 600,000	21,804,000
Total	1,042	71,300,000	118,959,000

The funds for this enormous expenditure were raised by foreign loans, which were readily negotiated, as up to this time the credit of the country was good. Messrs. Dreyfus & Co. became the agents of the Government, and a certain amount of guano was hypothecated. Work was commenced on the roads, money became plenty, corruption set in, enormous sums were squandered, a ruinous course of extravagance was run, and Peru found herself, in 1876, with a foreign debt of £37,000,000, with an annual charge of 5 per cent for interest and 2 per cent for sinking fund, or together equal to about £2,590,000; also, with an internal debt exceeding £1,000,000. The budgets for 1871 and 1872 combined show an average annual revenue of £5,898,300, and an average expenditure of £5,791,400. From this exhibit some idea may be formed of the financial condition of the country.

The Government of Mr. Pardo, which came into power in 1872, after the termination of the Balta rule, had difficulties with Messrs. Dreyfus & Co., and being in want of money for current expenses, raised funds on guano security from the Societe Generale in Paris, which enabled it to pay the interest due on bonds to the end of June, 1876, and arrangements with the house of Raphael Raphael & Co., of London, have supplied money lately for the most pressing necessities of Government, but the payment of interest on bonds has ceased, and work on the railroads has been discontinued. Some of the roads are completed, but they yield no revenue to the State.

Meantime the Government has declared the nitre beds of the country, their working, and the exportation of nitre, a Government monopoly, and has from the 15th of January, 1876, taken possession of most of them, promising to pay a valuation to the owners. It has also put a duty on private exportation so high as to make it prohibitory, with the object of forcing all owners of this valuable article to surrender their lands at Government valuation. The above presents, in as concise a statement as possible, the financial condition of Peru; the political phase of the country is not more encouraging.

Gen. Prado was elected to succeed Mr. Pardo as President in 1876. The condition of affairs at that time was as follows: there were still due to the late fiscal agents of the Government, Dreyfus & Co., some hundreds of thousands of tons of guano, the delivery of which would not be completed until 1878. During this interval the Government of Peru is bankrupt, without means to pay current expenses or interest on her bonds. The house of Raphpel Raphael & Co., of London, on the security of 2,000,000 tons of guano hypothecated to them, agrees to supply the Government, with £700,000 per annum for four years from 1876. It is hoped that before the termination of the third year (1879) some returns may begin to be rendered to the new agents from the sale of the guano, and that at the end of the fourth year a sum may be accumulated with which to pay accrued interest on bonds. In the meantime the effort to realize from the nitre-beds is continued by the Government. This arrangement has been indorsed by the bondholders in France and England, and, though the terms are hard, there seemed to be no better way by which they could hope to get any interest on their investment.

Union Pacific Branch Railroads.

The report of the Union Pacific Railroad Company for the year ending December 31, 1877, says:

The Omaha and Republican Valley Railroad has been extended during the last year from Wahoo to David City, in Butler county, a distance of 41½ miles. The road is doing a good business, and is already giving the main line a large traffic which did not formerly come to the road.

The Colorado Central Railroad Company has also extended its road to Colorado Junction formerly Hazard Station, on the Union Pacific Railroad, giving the company a connection with the whole of that road, and opens up to our company the whole business of Colorado and New Mexico, and which should give the road a large business in both passengers and freights not heretofore enjoyed by this company.

Surveys have been made during the past year for a road to the Black Hills, and all the practicable routes have been explored with a view of determining the cheapest and most direct and convenient road to it.

The Utah Northern Railroad is being extended 50 miles northwest from Franklyn, which should give such additional facilities for business as will increase the Montana traffic very materially. It is expected to still further extend the road some 70 or 80 miles this year, which should give our road the preponderance of the Montana business.

The other connecting roads have remained the same as formerly, and are giving the road the usual, and in some cases an increased business.

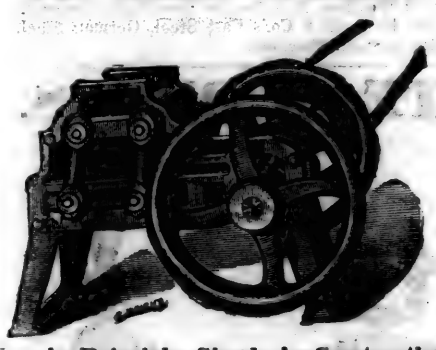
Ohio and Mississippi Railroad.

A meeting of the directors of the Ohio and Mississippi Railroad Company was held in Cincinnati on the 12th inst., at which the controversy which has existed since last October between opposing factions, the one claiming to represent a New York interest, the other a Baltimore interest, was brought to an amicable conclusion, both parties being satisfied that their interests were not antagonistic and could be better promoted by working together in a friendly spirit. The validity of the election of what is known as the regular board was conceded. Two of the old members resigned and Messrs. Ashley and Day, of New York, were appointed in their stead.

The report of the receiver made to the Circuit Court of the United States at Indianapolis for the six months ending January 1, 1878, which showed the ability of the road to make net earnings exceeding the entire interest on the mortgage debt on the Ohio and Mississippi Railway proper, and which was regarded as exceedingly favorable in view of the low rates prevailing during that period, followed, as it has been, by a like favorable showing up to the present time, has induced the belief that the time has come for an earnest effort to restore the credit of the company and remove any necessity for a continuance of the road in the hands of the receiver. To this end a very strong committee, consisting of Robert L. Cutting and W. F. D. Maurice, of New York; John W. Garrett, of Baltimore; W. T. McClintick, of Chillicothe, Ohio, and Sir Alexander T. Galt, of Montreal, all representing very large interests, both in bonds and stock, was appointed to consider and report at an early day a plan for the purpose named.

A noteworthy feature reported to the Board was the large increase of local freight and passenger business, which more than overcame the loss of through freight by reason of the withdrawal of the road from the fearful and ruinous competition which lately prevailed on the latter class of business.

Much satisfaction is expressed at the result of the meeting and in the prospect for the future.



☞ The Superior (Wis.) Times says that the litigation which has lately involved the Wisconsin Central Railroad Company, the Phillips & Colby Construction Company and others has been happily compromised, and it now looks with some degree of hope for a movement in the proposed railroad extension westward from Ashland.

☞ The Bethlehem (Pa.) Times says it has every reason to believe that the Brotherhood of Locomotive Engineers on the Lehigh and Susquehanna railroad has gone to pieces.

☞ The St. Lawrence river is free from ice from the lake to Ogdensburg.

☞ The Gilbert Elevated Railroad will be in operation in about a month. There will be thirteen stations between the Battery and Central Park. Trains will be run at intervals all night, and there will be special trains morning and evening for workingmen. Eighty coaches, forty-five feet long, with seating accommodations for fifty-two passengers each, will be put on at once. Trains will consist of from two to four coaches, drawn by fourteen-ton locomotives.

Can I Obtain a Patent?

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further precedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

The Coal Trade.

For the week ending the 2d instant, the total anthracite production, as reported by the several carrying companies, amounted to 206,080 tons, against 241,539 tons in corresponding week last year a decrease of 33,459 tons. The total amount of anthracite mined for the coal year is 1,996,827 tons, against 2,221,626 tons for same period last year, a decrease of 224,799 tons. The quantity of bituminous coal sent to market for the week amounted to 85,892 tons, against 42,527 tons in corresponding week last year, a decrease of 6,635 tons. The total amount of bituminous mined for the year is 287,236 tons, against 449,817 tons for corresponding period last year, a decrease of 162,581 tons. The total tonnage of all kinds of coal for the week is 243,972 tons, against 284,066 tons in corresponding week last year, a decrease of 40 094 tons. The total tonnage of all kinds of coal for the coal year is 2,284,063 tons, against 2,671,443 to same date last year, a decrease of 387,380 tons. The receipts at Perth Amboy for the week ending on the 2d instant were 750 tons, the shipments 9331 tons, leaving a stock on hand of 94,486 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the fourth week of February was 90,039 tons, of which 66,186 tons were coal, and 23,853 tons coke. The total carried for the year is 691,532 tons, of which 536,049 tons were coal and 155,483 tons coke. These figures embrace all the coal carried over the road, east and west. The Reading Railroad brought 33,100 tons of coal last week to Port Richmond, whilst 14,200 tons were shipped thence. There were 120,000 tons shipped over the Reading Railroad for the week ending last Saturday, March 9. —*Phila. Ledger, March* 11.

Lehigh Coal and Navigation Co.

At an adjourned meeting of the stockholders of the Lehigh Coal and Navigation Co., held in Philadelphia on the 12th inst., affairs of the company were fully discussed.

Mr. S. Dickson presented a series of resolutions, which were adopted, commending the frankness and clearness of the late annual report, and averring "that the results of the last year's operations, in view of the state of the coal trade, are sufficiently favorable to justify owners of a property of such great intrinsic value and exceptional advantages awaiting with confidence the developments of the future."

The terms of settlement with the Central Railroad of New Jersey and the Lehigh and Wilkesbarre Coal Company were approved, and the officers were thanked for the manner in which these delicate negotiations had been effected.

The report of the managers was strongly condemned by Mr. Adams, who declared that due economy had not been observed, more especially in the increase in the item of expenses over the previous year.

Mr. E. W. Clark made a short speech, to show how the expenses had been increased, among other items mentioned being one of $6,000 in securing the conviction of five Mollie Maguires.

A resolution providing that the report should be published hereafter two weeks before the annual meeting was adopted.

☞ The officers of the Kingston and Pembroke (Canada) Railway are: President, C. F. Gildersleeve; Vice President, A. Gunn; Secy.-Treasurer, Geo. Osborne; Supt. B. W. Folger. The earnings of the road were $31,459, from the opening on April 4th to Dec. 31st, (about 78 per cent of which was for freight,) and the running expenses $23,034.

American Railroad Journal.

New York, Saturday, March 23, 1878.

Delaware, Lackawanna and Western R. R.

The statistical returns of this company for 1877 are more than usually interesting to investors; and, as compared with the results of any former years, of greater import. The whole year's business, indeed, has been a lamentable failure—in their own (proper) railroad business to a minor degree; but in their leases and in their coal department the failure has been complete and overwhelming. It is for these reasons that we give enlarged space for the company's statements, the purport of which is only vaguely conceived by the investing public; but which has already seriously affected the whole range of Delaware, Lackawanna and Western securities, and the securities of the lines operated by the company under lease.

The loss in the coal department alone is stated to have been $1,922,660 99. A loss to some extent was to have been expected from the adverse condition of the coal trade preceding and throughout the year. But that a loss to such a figure could possibly have been made is inconceivable and challenges the most rigid inquiries into the whole subject of buying and selling and mining and transportation as practised by the company.

The next drain on the company's resources, and perhaps the most important and imprudent outlay made by the company has been the payments in accordance with the provisions of existing leases. Of the minor leases it is unnecessary to speak. The Morris and Essex lease is the *summum malum* of the question. This road, only 120 miles in extension, has cost in securities $35,000,000, or per road mile $291,666 67. This road is undoubtedly a necessity to the company's business, and the outlet of the company's traffic to tide-water near New York. But its construction, while another equally available line existed, was not warranted, and the result has been that the Morris and Essex and the Central of New Jersey have both come to grief. Neither was there any necessity to build the new Bergen tunnel while the Erie tunnel was already a fixed fact, and its use obtainable at a reasonable cost. The work, however, is now completed, and for all time the Delaware, Lackawanna and Western Company are bound to pay 7 per cent on the cost, or annually as interest thereon $2,450,000! The net earnings of the Morris and Essex Railroad has scarcely covered a fifth of this sum, and hence the large balances in deficit has heretofore been charged against the revenues of the lessor, already infringed upon by the coal losses to the extent of two million dollars.

The whole position of matters is summed up in the following exhibit of the fiscal results of the year's operations:

Net earnings on railroads		$4,401,858 99
Loss on coal		1,922,660 99
Revenue less coal loss		$2,479,197 40
Interest on own bonds	$201,957 00	
Lease rentals	3,185,262 84	
		3,387,219 84
General loss on year's business		$908,021 94
Balance credit Income Jan. 1, 1877		5,213,437 78
Balance Dec. 31, 1877, reduced by losses		$4,305,415 84
Losses in 1877		$908 022 00
Profits in 1876		721,824 00
Losses on two years		$186,202 00

It thus appears that for the past two years the company have been drifting towards bankruptcy, which has only been prevented by falling back on the old account for cash resources. But still it must be recognized that the general business of the country has been severely depressed, and as a matter coincident to such a condition this company have shared in the profitless results of traffic in general.

Consequent on these lapses in affairs, the company's own stock ($26,200,000) fell in price from 120 in March, 1876, to 30½ in June, 1877, and afterwards to the end of 1877 ranged from the lowest then expressed up to 60. It is now ranging between 45 and 50. At the first date the company were paying 2½ per cent quarterly; nothing has been paid since July, 1876.

The effect on the stock of the Morris and Essex ($15,000,000) has in like manner but not to the same relative extent fallen in value. It sold at 106 in March, 1876, and at 51½ in June, 1877. It is now quoted at 70. The dividends on the Morris and Essex stock has been paid by the Delaware, Lackawanna and Western Co., which cannot pay a fraction on their own stock.

It is well known, however, that both stocks are owned or manipulated by the same parties, and probably they are satisfied with this plan of doing business. But it must be galling to owners of Delaware, Lackawanna and Western stocks (not owners of Morris and Essex stock) to see their profits consumed in the support of an enterprise that since its first programme has been eating out the vitals of the parent company, and which has at length landed it in the jaws of bankruptcy. Another year's business with like results would complete the ruin thus proceeding to its logical conclusion.

There are two ways for the Delaware, Lackawanna and Western Company to extricate themselves. They must in the first place relinquish the coal business altogether, and stick to their legitimate business as common carriers, leaving it to others to mine and trade. Taking the whole

coal business for the last ten years, it is well ascertained that there has been no profit in it, but a certain and large loss; and hence the proper policy to pursue would be its abandonment.

The next best thing for the company to do is to modify the Morris and Essex lease. It is too late to meddle with the bonded debt. The relief must come from other quarters, and what so proper as to consolidate the stocks of the companies, and make the two collectively sharers in the profit and loss of an amalgamated corporation.

It is obvious that many years must transpire (if ever) before the Delaware, Lackawanna and Western stock receives any dividends. Together the companies might possibly obtain in a few years sufficient to pay reduced dividends.

Western Union Telegraph Co.

In the Report presented by the Executive Committee at the last Quarterly Meeting of the Board, held December 12th, 1877, the net profits for the quarter ending December 31st (November being partially and December wholly estimated), were stated at $750,188 75.

The official returns for the quarter (ending December 31st) showed the profits to be $736,224 45, or $13,914 30 less than the estimate.

The following revised statement, based upon complete returns, will show the condition of the Company at the close of the quarter ended December 31st, 1877:

Surplus October 1st, 1877, as per last quarterly report		$90,865 61
Net profits, quarter ended December 31st, 1877		736,224 45
		$827,090 06
From which deducting—		
Dividend of 1½ per cent, paid January 15, 1878	$525,931 50	
One quarter's interest on bonded debt	111,639 59	
Interest on amount due for purchase of Atlantic and Pacific Tel. Stock, to December 31st, 1877	9,243 55	
One quarter's proportion of sinking funds	20,000 00	
Construction account for quarter	64,344 68	
Sundry Telegraph Stocks, patents, etc.	7,731 20	
		738,890 53
There remained a surplus, January 1st, 1878, of		$88,199 53
The net profits for the current quarter, ending March 31st, instant, based upon official returns for January, nearly complete returns for February, and estimating the business for March, will be about		$712 475 03
Add surplus January 1st, as above		88,199 53
		$800,674 56
From which appropriating—		
One quarter's interest on bonded debt	$111,600 00	
Interest on balance due on purchase of Atlantic & Pacific Tel. Stock	6.400 00	
One quarter's proportion of sinking funds	20,000 00	
		138,000 00
Leaves a balance of		$662,675 56
A dividend of 1½ per cent on the capital stock outstanding requires		525,931 50
Deducting, which leaves		$136,743 06

In view of the preceding statements the Committee recommend the adoption by the Board of the following:

Resolved, That a dividend of One and one-half per cent from the net earnings of the three months ending March 31st be, and is hereby declared payable on the 15th day of April next, to stockholders of record at the close of business on the 20th day of March, instant.

Resolved, That for the purpose of such dividend the stock books of the company be closed at three o'clock on the afternoon of the 20th March, instant, and be reopened on the morning of the 16th of April next.

Respectfully submitted.

WILLIAM ORTON, President.

New York, March 13, 1878.

Cleveland, Mt. Vernon and Delaware R. R.

The earnings of the Main Line and Massillon Branch for the years ending December 31, 1876 and 1877, were as follows:

	1876.	1877.
From passengers	$133,849 67	$122,728 68
" freight	209,952 42	240,359 81
" express	12 520 00	12,520 00
" mails	14,630 78	11,652 95
" miscellaneous	3,629 73	1,635 24
	$373,582 60	$388,896 16
Expenses, viz:		
Conducting transp.	$75,064 56	$68,040 76
Motive power	80,009 20	80,454 49
Maintenance of way	92,738 53	97,703 59
Maintenance of cars	20,362 24	21,465 75
General expenses, including taxes	41 875 69	39,506 58
	$310,050 22	$307,171 17
Net earnings	$63,532 38	$81,724 99
Against which are the following charges:		
One year's rent of Massillon Branch	$20,000 00	
One-half of one year's interest on first mortgage bonds, according to contract with bondholders	80,000 00	
One year's interest on coupons funded	21,482 09	
		121,982 09
Deficiency		$40,257 10

The results of operating the Massillon and Cleveland Railroad continues to show a large loss to the company. The result of the past two years operation is as follows:

	1876.	1877.
Earnings	$15 498 54	$16,685 13
Expenses	15,687 72	15,679 69
Deficit	$194 18	.....
Net earnings	.....	$955 44
This amount deducted from the minimum rental of		20,000 00
Leaves as loss to the company		$19,044 56
The loss in 1876		20,194 18
Decrease		$1,149 62

The main line of road is 144.04 miles in length, extending from Hudson to Columbus. To which add track of Pittsburg, Cincinnati and St. Louis Railway, and Baltimore and Ohio Railroad, necessary to reach Union Depot, Columbus, not owned by this company, 0.38 mile; also, length of Massillon and Cleveland Railroad, from Clinton to Massillon Junction, on the Pittsburg, Fort Wayne and Chicago Railway, leased, at a rental of 40 per cent of gross earnings, 12.60 miles—making total miles operated, 156.92. Also, Dresden branch incomplete, from Kilbuck Station, 6 miles south of Millersburg, to Dresden, Ohio, on the Pittsburg, Cincinnati and St. Louis Railway, where it will connect with the Cincinnati and Muskingum Valley Railway, 34 miles.

The equipment of the road in use, Jan. 1, 1878, consisted of 20 locomotives, 13 passenger, 10 baggage and express, 70 box, 5 stock, 10 platform, 515 coal, 1 wrecking, 1 tool, and 10 caboose cars.

Tons of local freight carried in 1877, 156,163; foreign freight, 84,344—total, 240,507, against 206,966 in 1876, an increase of 33,541. Total mileage of freight, 12,303,647. Av. rate per ton per mile, 1.95 cents against 2.13 cents in 1876.

Number of local passengers carried in 1877, 223,183; foreign, 8,797—total, 231,890, against 252,477 in 1876, a decrease of 20,497. Total mileage of passengers, 4,301,158. Av. rate per passenger per mile, 2.85 cents, against 2 95 cents in 1876.

Mileage of trains 406,500, against 371,254 in 1876, an increase of 35,246. Earnings per mile run by trains, $0.95 67; expenses 75.56—net earnings, 20.11, against 17.12 in 1876.

The proportion of earnings absorbed by expenses was 78.98 per cent, against 82.99 in 1876.

The total amount of stock subscriptions collected during the year was $2,500 87. The total amount uncollected, but considered good, is $2,-199 13. The report says:

No change has occurred in the condition of affairs connected with the Dresden Branch since the last annual report except the removal of a portion of the rails, which have been utilized by placing them in the Main Line. The grading already done has suffered somewhat in consequence of heavy rains and high water. No expense has been incurred on account of this road during the past year. The importance of completing it to Dresden can hardly be over estimated; particularly in view of the declining supply of coal on the roads now operated by your company, and the favorable developments recently made regarding the manufacture of iron in the Hocking Valley region, the coal for which is similar in its character to that of Perry county, which would have a direct outlet to market via the Dresden Branch and your Main Line. There are many interests that would be greatly benefited by the completion of this road, but until they are awakened to such a conviction as will impel them to united action in the matter, your directors are powerless to take any definite steps toward the consummation of this important work. They feel, however, that they would be derelict in their trust if they did not at least urge it upon the serious attention of both the stockholders and bondholders.

In the last annual report it was stated that the expectations of your directors at the time of the contract between the company and the bondholders in December, 1874, as to the ability of the company to fulfill its provisions in that agreement, had not been realized. Under this contract the company was to pay one-half the coupons maturing January 1, 1878, with yearly interest on the remaining half that were to be held in abeyance for ten years, the payment of the coupons maturing on and after July 1, 1878, to be made in full; but the continued depression experienced by all industrial interests, and the low rates that have prevailed for the traffic that has been done, has prevented the accomplishment of those expectations. Negotiations have been and are still in progress, having in view a complete reorganization of the company, under which all interests and rights will be harmonized and protected, but they have not yet been matured, and therefore your directors are unable at this time to state them. In the meanwhile the net earnings are being used equally in the liquidation of the small floating debt and the interest on the bonds. The payment due January 1, 1877, under the contract has been made in full; and of that due July 1, 1877, amounting

to $39,907, $8,813 65 has been made, leaving due at the close of the year on this account $30,093 35, of which there has since been paid $3,000.

INCOME ACCOUNT, Dec. 31, 1877.

Balance to debit Dec. 31, 1876	$269,094 82

Superintendent.—G. A. JONES.

Treasurer.—J. D. THOMPSON.

Auditor.—E. MISE.

Secretary.—JOSEPH S. DAVIS.

Northern Pacific Railroad.

The Sub-committee of the Senate Railroad Committee on the 16th inst. made a unanimous report to the full committee in favor of Senator Mitchell's bill, extending the time for the completion of the main line of the Northern Pacific Railroad eight years. The bill as amended compels the company to build on the south side of the Columbia River to Portland and Kalama in Washington Territory. It throws all lands open to the settlement of pre emptors at $2 50 per acre, the proceeds to be paid into the United States Treasury, and by the Secretary of the Treasury placed to the credit of the company. When any section or sections of the road are completed and accepted by the Government, then the Secretary of the Treasury shall pay directly to the company the proceeds of all the lands designated by odd sections adjacent to the completed road, in which pre-emption acts are not attached to the company with restrictions that they shall be sold in quantities not exceeding 160 acres to one person, and at not exceeding $2 50 per acre. The bill also provides for the protection of the settlers now on the lands. The even sections are to be thrown open to homesteaders, 160 acres to each person. It also permits those who have been restricted to 80 acres under the existing laws to enlarge their claims to 160 acres. The extension is on the express condition that the Northern Pacific Railroad Company shall commence the construction of their road at Portland, Oregon, within nine months after the date of the passage of the act, and construct at least 33 miles within one year thereafter on the south side of the Columbia River, and each year thereafter 100 miles of the road, at least 25 miles of which shall be on the Pacific coast. The bill further provides that the road from Umatilla to Portland shall be a common road for the use of the Northern Pacific and Salt Lake and South Pass Companies under such terms as they may agree upon, and in the event of a failure to agree, such terms as may be agreed upon by three persons selected by the President of the United States. The extension does not extend to the branch line across the Cascade Mountains, but lands on the branch amounting to 7,000,000 acres are restored to the public domain, and in lieu of these lands an equal amount is by the bill granted to the Portland, Salt Lake and South Pass Company, in aid of the road from Umatilla to Salt Lake, under like restrictions as to the sales of lands by the Government, and on condition that the company shall commence at Umatilla, within six months after the date of the passage of the act, and build and equip 25 miles of road within one year thereafter, 50 miles within each succeeding year, and the whole within four years from the commencement of the work.

Railroads in Manitoba.

The United States Consul at Winnipeg writes to the Department of State that there is much activity in Manitoba in relation to railway matters. Canadian and English parties have purchased the first mortgage bonds of the St. Paul and Pacific Railroad, heretofore held in Amsterdam, and propose to construct the northern extension in Minnesota from the Red Lake River to the Manitoban frontier, a distance of eighty miles, and have it in running order during the coming summer. They also propose to release and complete the Pembina branch of the Canada Pacific Railroad to connect with the Minnesota extension, and by November 1 next, it is expected the trains will be running from St. Paul to Winnipeg, and to a point twenty miles further north, where the branch line crosses the main line of the Canada Pacific Railroad at Selkirk. From this point contracts are in execution for the construction of the main line eastward to the Lake of the Woods, 110 miles, to be completed during 1880. An equal distance westward of Thunder Bay, on Lake Superior, is also under contract to be completed at the same time.

Much pressure is being exerted on the Canadian government to procure the completion of the connecting links of the main road, but financial embarrassments will probably retard the work. The proposal to deflect the line of the Canada Pacific from the Saskatchewan Valley route to one further south, passing through the Manitoba settlements will probably be abandoned, owing to the increased length of roadway and engineering difficulties. Local branch roads of narrow gauge trending southward are proposed as a measure of relief for the settlements.

The Consul thinks that mutually profitable intercourse between the Dominion and the Western States would be greatly aided if the United States and Canada governments were to make international arrangements for aiding the construction of a system of railway from Ottawa to the Sault Ste. Marie, and thence to the Montreal River, there to connect with the Northern Pacific Railroad, besides completing the latter eastward to Duluth. An international trunk line would thus be formed, serving a vast extent of valuable country.

The Erie Foreclosure Sale.

The sale of the Erie Railway, under the decree of foreclosure entered a few months ago, was to have taken place in December last, but was adjourned from time to time in consequence of the legal proceedings begun by James McHenry and his associates. The last adjournment was until the 25th inst. All the formidable suits, however, are still held under advisement by different Judges. In case decisions are reached favorable to the Farmers' Loan and Trust Company before the date fixed for the sale, and in case no restraining order is obtained, the sale will take place on the day mentioned. Such sale will be had at the Exchange Sales-room, and the property of the company, its franchises, &c., are to be bought by the Reconstruction Committee. A similar sale will be had in New Jersey on the same day of the company's property in that State.

Mobile and Ohio Railroad.

A meeting of the stockholders of the Mobile and Ohio Railroad Company was held in this city on the 19th inst. to consider the question of accepting the provisions of "an act for the settlement of all claims of the State of Mississippi for taxes in arrears by the company upon lands and other property, and to provide for the collection of taxes in the future and thus prevent litigation." A series of resolutions were passed indorsing the action of the trustees and receiver in accepting the provisions of this act. William Butler Duncan, President of the Company, said this action would put an end to litigation, much of which had been very vexatious, and the compromise would take the question out of the Courts, where it had been for the last five years. The amount which the company stipulate to pay is $25,000.

American Railway Negotiations.

The London Railway News says the issue in London of new loans during 1877 on behalf of American railroad companies has been of but trifling extent. The Baltimore and Ohio Company, after long delays on account of the state of the money market, issued during the autumn, through Messrs. J. S. Morgan & Co., $8,000,000 bonds, secured by a mortgage on the Chicago Extension, opened the year before last, and the Chicago, Burlington and Quincy Railroad, a new applicant to the London market, obtained, through Messrs. Morton, Rose & Co., a loan of $1,500,000 to repay the purchase of the St. Louis, Rock Island and Chicago Railway.

☞ The annual report of the Santa Cruz Railroad Company for the year 1877, filed in the office of the Secretary of State of California on the 6th inst., shows the capital stock to be $1,000,000, of which $202,964 81 has been actually paid in. Indebtedness of the company, $197,011 20. Amount due the corporation (including $14,118, a subsidy from Santa Cruz county, but which is in litigation), $16,047 10. Amount received from the transportation of passengers, mails, freight, express matter, etc., $45,262 81; current expenses $24,133 24. Freight carried, 14,300 tons.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "§."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

Material changes occurring since the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

Port Dover and Lake Huron Railway.

At the annual meeting of this company recently held at Tavistock, Messrs. Gilbert Moore, S. S. Fuller, John Jackson, Henry Parker, Dr. Cook, D. Tisdale and T. J. Clarke were chosen Directors. Col. D. Tisdale was elected President, Henry Parker Vice President, R. W. Sawtell Secretary-Treasurer, A. D. Wright General Manager, C. N. Scott Superintendent. The Directors' report stated that the effort to sell in Gt. Britain bonds to the amount of £75,000 stg. had not succeeded, and it was now proposed to form a syndicate to buy the unsold first preference stg. bonds at fifty cents per dollar, and advance *pro rata* 25c. per dollar for second preference, which was accomplished. Shareholders permitted issue of £34,400 of second preference bonds, subject to redemption by the company by 1st of April next. There are, therefore, now issued £95,000, or its equivalent, of first preference sterling bonds, and £34,400, of second preference sterling bonds, making together the total sum allowed by the charter, viz: $10,000 per mile. There was a year's interest due on the first preference bonds, due on the 1st January last, but the bondholders postponed their claim for the present. The hope is expressed that the floating debt will be extinguished during the current year. The S. and H. had been operated by the P. D. Railway since its completion to Listowel in December, and it was hoped that an amalgamation of the two companies would take place at an early day.

The bond committee realized from the notes given by subscribers for bonds $40,129 86, and from the sale of the balance of the first preference bonds on loan or conditional sale of second preference bonds the sum of $126,517 26, making in all the sum of..... $166,677 12

Disbursed as follows:

Paid Federal Bank.....	$122,478 64	
Paid the Consolidated, Imperial, Commerce & Montreal Banks and sundry advances of individuals on account and security of bonds and for accommodation of the company.....	34,849 16	
		157,327 80
Leaving a balance of.....		$9,349 32

—which will be more than required for completion of payment for right of way and ballasting.

Whitby, Port Perry and Lindsay Railway.

At the sixth annual general meeting of the shareholders of this company, held at Whitby, Canada, on the 2d inst., the report of the directors for the year ending December 31, 1877, was presented and adopted, from which we learn that the gross earnings during that time were $59,200 45, the expenses $35,905 64, and the net revenue $23,294 81—showing an increase in gross earnings as compared with the previous year of $8,699 14, an increase in expenses of $4,500 08, and an increase in net earnings of $4,199 06. For the first seven weeks of this year the gross earnings show an increase of $7,238 56.

On the 31st December last, the whole floating debt due Messrs. Austin, Fulton, Michie and Holden amounted to $121,428 52, and these gentlemen have agreed to take the remaining second preferential mortgage bonds, amounting in currency to $45,260 31 and the remaining first mortgage bonds, amounting in currency to $4,866 70 and stock of this company to the amount of $64,450, all to be taken at par value in full satisfaction of the floating debt. The President, in addressing the meeting said:

From the figures just read to you I think, taking into account the general depression prevailing in every department of trade—not only in this country, but all over the world—I may congratulate you upon the results of the past year's business. We have paid all working expenses, kept the road-bed, rolling stock, and all the works in a thorough state of efficiency, and had sufficient funds to enable us to pay interest on the $160,000 first mortgage bonds, issued on old road bed; and also the interest on $15,000 a mile on the whole road since the opening of the extension—a result which must be very gratifying to all concerned.

From the experience of the past seven months, since the opening of the line to Lindsay I think I may speak with confidence when I state that I believe the earnings of the road will warrant me in the anticipation that we will be able, after paying all working expenses, to pay interest, not only on the first mortgage bonds of $10,000 per mile, but also on the $5,000 per mile, second mortgage bonds.

Our close connection with the Victoria Railway at Lindsay—which latter line is now in full running order for a distance of 38 miles—(and it is expected the extension to Haliburton will be completed the coming fall making 55 miles—) greatly augments our prospects for the future.

It should be a source of pride to be able to state that under the present management, during the past five years, every liability has been met most promptly—not a man ever having been asked to wait one day longer than his wages were justly due to him. Besides, every liability of both the old and new company and the present company have been honorably discharged—a satisfactory state of things, not always to be said of railroad companies on this continent.

Should you think proper to adopt the report, the floating debt will be completely discharged, leaving the company in an exceedingly gratifying position.

Finances of Tennessee.

A mass meeting was held on the 16th inst. at Clarksville, Tenn., the principal tobacco mart of the State, at which resolutions were adopted that Tennessee is neither a pauper nor bankrupt, and that the Legislature should have promptly settled the State debt at fifty cents on the dollar. The discussion of the State finances is waxing warm in Tennessee, and the prospect is that it will be the prominent issue in the canvass just opening. Fifty cents on the dollar, however, is not what the bondholders propose to accept. Some irresponsible party offered that. The genuine bondholders have declared their willingness to accept sixty cents—not less.

☞ Mr. John P. Gordon, general agent of the Philadelphia and Reading Railroad Company at Phœnixville, Pa., says that in conversation with Mr. S. J. Reeves, president of the Phœnix Iron Company, that gentlemen stated that the Gilbert Elevated Railway and other contracts, will give their seven hundred operatives continued employment for at least two years, by which time we will certainly have recovered from the four years unparalleled business and commercial depression

☞ The managers of the Olean, Bradford and Warren Railroad expect to be able to run trains over their entire line about the 1st of July. This gives Pittsburgh almost direct communication with the upper oil country and Bradford.

American Railroad Journal.

Saturday, March 23, 1878.

Financial and Commercial Affairs.

With more urgent calls for aid in the financial line, chiefly from speculative sources, and for use at the Stock Exchange, Money has been quoted somewhat dearer during the week. At the revised figures, however, lenders have been quite prompt in responding to the requirements of borrowers, whose standing was deemed unexceptionable; and the loan and discount market has been without any indications of stringency. Call loans were quoted here at from 4@7, the principal negotiations having been within the range of 4½@6; and very choice to strictly prime mercantile credits were rated at 4½@7 per cent per annum. The City bank exhibit of last week indicated a contraction in the loan and discount average of $3,841,900, and an increase in the item of circulation of $25,600. The average of deposits was reduced $70,800. The legal tender reserve was cut down $329,700; and the specie average increased $2,429,000. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $16,100,825, as against $13 983,825 the preceding week, and $16,016,775 the week ending Feb. 9, (the latter the highest aggregate reached this year.) The City bank exchanges in currency reached $401,592,977, or a daily average of $66,932,163.

The outstanding amount of legal tender notes is $348,680,426. The National bank circulation is now $319,657,176 of currency notes and $1,492,120 of national gold bank notes. National Bank notes received at the Treasury Department last

week for redemption were to the amount of $2,841,000.

Extensive transactions were reported in Government Securities chiefly for home investment purposes, though in part on speculative account, at generally stronger prices, though leaving off somewhat irregularly. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 106⅞@107⅛; do. coupon, 106⅞@107; do. 1865, new, registered, 104⅜@104⅝; do. coupon, 104⅜@104⅝; do. 1867, registered, 107⅛@107¼; do. coupon, 107@107⅛; do. 1868, registered, 108¾@109¼; do. coupon, 108¾@109; do. ten-forties, registered, 105⅛@105¼; do. coupon, 105@105⅛; do. five per cents, 1881, registered, 104⅜@104½; do. coupon, 104⅜@104½; do. 4½ per cents, 1891, registered, 103@103⅛; do. coupon, 102⅞@103; do. 4 per cents, 1907, reg., 100⅛@100⅜; do. coupon, 101⅜@102; do. sixes, currency, 118⅜@119.

The reported subscriptions to the new four per cent Government loan amount to about five millions.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $345,637,850, and $13,464,000 as security for public deposits.

From investment sources, a fair demand has been reported for State bonds which have been quoted generally steadier as to values, on lighter and less urgent offerings of the favorite loans. Railway Mortgages have been actively sought after and prices of the favorites of the actual interest bearing loans have shown more firmness, closing as a rule with an upward tendency. And in the line of Railway and Miscellaneous share property the dealings have been decidedly more liberal in amount, (rather more so early in the week than toward the close), and on a much stronger basis as to values, in nearly all instances, the speculative movement having been much more confident, giving the advantage to operators for a further advance, to which the more encouraging traffic reports from the great trunk lines of railway have contributed materially.

The income of the Government from internal revenues last week was about 2½ millions, and from Customs last week again about 2⅞ millions.

Influenced by the stronger position of the Sterling Exchange market, and the more threatening aspect of the political situation in Europe, as reflected in the cable advices, Gold ruled somewhat stronger, on a more confident speculative inquiry, though the actual export call was very light, and the customs drain was quite moderate for the season. The extremes of the price during the week have been 100¾@101⅜, closing on Wednesday at 101⅛ as against 101 on Wednesday of the preceding week. The specie outflow last week was only $249,611—making the total exports of specie hence since January 1, $2,444,955 against $3,212,177 the same time in the preceding year. The imports of specie at this port last week reached $398,654 (of which $295,600 from Havana) and since January 1st have been $4,145,799 as against $3,743,658 same time in the preceding year. The Customs demand for gold in the local market last week reached $2,105,000 or an average of $350,88 per day.

An active market has been reported for Foreign Exchange which has been again quoted much firmer in price, though closing, tamely and less buoyantly. Bankers' sixty day bills on London closed on Wednesday at $4 86@$4 87; sight bills on London at $4 88¼@$4 89 to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $6,776,024 as against $7,546,561 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $1,894,828 of Dry Goods, and $4,881,186 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the extraordinarily large aggregate value of $8,154,874, against $4,794,472 same week in 1877; and since Jan. have been $75,187,785, against $56,700,002 same time last year.

Metals have been in generally moderate request, with prices quoted weak and irregular in most instances. Eglinton Pig Iron quoted at $24; Glengarnock $24@$24 50; Coltness $25 00; No. 1 American Pig at $18@$19 50; No. 2 do. at $17@$18 50. Forge $16@$17. New Iron Rails at works $33@$37. Old Rails $19@$20. Wrought Scrap $22@$23. Steel Rails, on the basis of $42@$43 at tide water. (12,000 tons sold on p. t.) Ingot Copper in less demand on the basis of 17@17⅛ for early delivery.

An active market has been noted for the leading kinds of Domestic produce, especially for Breadstuffs and Provisions which, however, have again fluctuated considerably; Breadstuffs leaving off irregularly, and Provisions, as a rule, weaker. Wednesday's purchase for Rye for Germany and Holland were very extensive. Cotton has been moderately sought after and quoted easier in price. Naval Stores have attracted more attention, with Resin quoted a shade dearer. Petroleum has been in less request at easier rates. Foreign merchandise has been generally less freely dealt in, and quoted somewhat depressed and unsettled.

Business in the Ocean freight line has been on a more liberal scale, quickened by the more liberal offerings of room on berth and tonnage on charter and the further concessions made by shipowners. The movements in the line of Breadstuffs and Provisions were quite extensive. Cotton less active. Liverpool steamer rates at the close for Grain, quoted at 6d@6¼d. Flour, at 2s. 9d. Provisions, 25s@32s. 6d.; Leather, 50s. Measurement Goods at 20s.@22s. 6d. per ton; Cotton, 3-16@⅛d. per lb. Liverpool, by sail, Cotton, 15-64@¼d. Grain, at 6d.; Flour, 2s. 1½d.; Measurement Goods, 12s. 6d.@15s. 6d. Tobacco 30s.; Oil Cake at 18s. Grain rates on charter hence for Cork and orders left off at 5s. 6d.; (Barley contracts at 5s. 9d.@6s.); for the Continent Grain at 4s. 8d.@5s. 6d. and from Baltimore for Cork and orders, 5s. 7½d.@5s. 9d. and from Philadelphia at 5s.@5s. 6d.; and from Portland at 5s. 9d. and to the Cape of Good Hope, 40s. per ton and from San Francisco to the United Kingdom at 55s.@58s. 9d. Refined Petroleum hence for Cork and orders, 3s. 9d.@4s. 3d.; for the Continent, 2s. 10½.@3s. 4½d. and Java at 34@35ct. and Japan, 45@50cts. and for French ports (crude) at 3s. 9d.@4s. 3d. Gibraltar and orders at 4s. 3d.@5s. 3d.; Cotton by sail from New Orleans to Liverpool 7-16d. @15-32d.; from Galveston, at 15-32d.; Ky. Tobacco from New York to Spain at 32s. 6d.@35s. Naval Stores from Wilmington for Cork and orders at 3s. 9d.@4s. and 5s. 6d.@6s. and from Charleston or Savannah at 3s. 6d.@4s.@5s. 6d.@6s. Lumber from Savannah or Brunswick to the River Platte, $18@19, and Savannah to Iquique at $15. Deals from Portland to Glasgow at 72s. 6d., St. John to Liverpool at 66s. 3d.@67. 6d., and Charleston or Savannah to the United Kingdom at 100@110s.; Hewn Timber from Doboy to do., at 85s. 6d.@87s. 6d.

At the meeting of the Coal Companies on Wednesday, the production of Coal for April was fixed at 1,125 000 tons. Same month last year shipments being 1,712,653 tons, to meet this large reduction the Del., Lack. and West. will sell but 40,000 tons on the 23d at auction. Prices have been advanced by all the companies in all sizes except Stove, 25 cts. and Stove 15 cts.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Pittsburg, Cincinnati and St. Louis Railway.

At the annual meeting of the stockholders of the Pittsburg, Cincinnati and St. Louis Railway Company, held in Columbus, Ohio, on the 19th inst., the report of the directors was presented showing the gross earnings for the year 1877 to have been $8,097,962, expenses $2,002,918, net earnings $1,075,049; interest on investment, $10,230—total net revenue, $1,085,280; from which was paid interest on funded debt $669,790, interest on floating debt $75,848, rent of Monongahela extension $37,500—leaving surplus, $302,141; gross earnings of leased lines $5,245,720, expenses $4,290,806, net earnings $955,413; interest and rentals, $1,342,964—loss on leased lines, $387,550. Pittsburg, Cincinnati and St. Louis proportion of loss by Terre Haute and Indianapolis Railroad Company in operating the Vandalia road was $46,375; making a total loss, outside of the Pittsburg, Cincinnati and St. Louis Railroad proper, of $433,926, and a net loss, including the latter road, of $131,784. The net loss in 1876 was $445,954, being a gain in 1877 of $314,169. By arrangement with the Pennsylvania Company, for the purpose of enhancing the credit of the Pittsburg, Cincinnati and St. Louis Railroad Company, the former company surrendered to the latter $2,500,000 second mortgage bonds and $3,279,221 in bills payable, leaving the company without a floating debt. The lease of the Pittsburg, Wheeling and Kentucky Railroad was approved and confirmed by a vote of the stockholders. A new Board of Directors was elected for the ensuing year, consisting of Thomas A. Scott, George B. Roberts, Strickland Kneass, J. N. Du Barry, Wistar Morris and H. A. Houston, of Philadelphia; William Shaw, J. N. McCullough, Thomas D. Messler and W. H. Barnes, of Pittsburg; Robert Sherrard, Jr., of Steubenville; D. S. Gray, of Columbus, and A. Gaither, of Cincinnati.

CENTRAL RAILROAD COMPANY OF NEW JERSEY.

All parties interested in the stock or bonds of this company, in the bonds of the American Dock and Improvement Company, or of the Lehigh and Wilkesbarre Coal Company, are invited to call and sign the agreement for the equitable adjustment of its affairs.

To participate in the benefits of the agreement stockholders must sign it on or before 25th March.

Copies of the agreement may be obtained, and subscriptions to same will be received, at the office of the railroad company, No. 119 Liberty-st.; at the office of the Receivers of the Lehigh and Wilkesbarre Coal Company, No. 71 Broadway, or at the office of J. S. KENNEDY & CO., No. 41 Cedar-st., New-York.

F. S. LATHROP,
JOHN S. KENNEDY,
JOHN P. JOHNSON,
JACOB VANATTA
GEORGE MANLEY,
} Committee of Detail.

Houston and Texas Central Railway.

The following is a comparative statement of earnings and expenses for the months of February, 1877, and February, 1878, and for the ten months ending February 18, 1877, and February 28, 1878:

	1877.	1878.
Earnings	$159,600 56	$206,888 49
Expenses (including taxes paid)	152,859 62	134,820 05
Net	$36,740 94	$71,568 44

Increase in net earnings February, 1878, $34,822 50, or 94.77 per cent.

	—10 Mos. ending Feb 28.— 1877.	1878.
Earnings	$2,617,456 30	$2,850,412 12
Expenses (including taxes paid	1,637,498 85	1,412,614 51
Net	$979,957 95	$937,797 61

Decrease in net earnings for ten months ending February 28, 1878, as compared with last year, $42,160 34, or 4.30 per cent.

☞ It is proposed to build a railroad from Truckee to Tahoe city, California.

French Railways and the State.

The railway lines of the ten companies whose systems have recently been purchased by the French Government measure 2,615 kils., and the amount of the expenditure upon them which the Government has agreed to recoup to the companies is 334 million francs, of which 258 millions are to be paid within two years, and 76 millions within three years. Besides this, the State will be at further expense of a sum of 166 millions, to be expended within four years, for supplementary purposes, such as the purchase of lines not yet opened, the completion of those already at work, the augmentation of the rolling stock, &c., &c. In all the state expenditure will be about 500 millions, bringing out the price per kilometre at about 200,000 frs.

According to the plan recently proposed by the French Minister of Finances for the improvement and extension of communication in France by land and water, the expenditure is contemplated of three milliards of francs upon railways, and one milliard upon canals and ports. This outlay is to be spread over ten years, and about 300 millions of it will fall to the share and charge of the great companies, mainly the Northern, and the Paris, Lyons, and Mediterranean. It appears that during the last 25 years, the great companies have expended some ten milliards of francs, or say 400 millions annually. The Government has resolved not to exceed this annual figure, but, year by year, to take upon itself a larger share of it as the companies' participation in it decreases in consequence of their line being bought up by the State.

As to the new lines, they are divided into three groups. The first consists of 7,651 kils. conceded in 1875 and to be completed, upon which the companies this year will have to expend 150 millions and the Government 50 millions. The second comprises 2,897 kils. declared to be of public utility, but not yet constructed, upon which the State, by itself, will expend 50 millions. The third includes 2,100 kils. of local lines which it is desired to bring into the class of lines of general interest, and upon which nothing would be expended until 1879. The recently instituted Topographical Commissions are to carry out their inquiries, the various Chambers of Commerce are to be consulted, and the Departments negotiated with; and in 1879 only is it contemplated to spend 80 millions, provided 500 kils. have been purchased. So that in 1880 only will the Government share of the proposed expenditure become heavy; and even then it will not be, so to speak, the incurring by the nation of fresh financial charges, but simply a kind of conversive process by which a certain amount of annual raising of fresh capital will have been shifted from private enterprise to the State.

Delaware, Lackawanna and Western R. R.

The following is an abstract of the report of this company for the year ending December 31, 1877, prepared for the Pennsylvania State Auditor:

The net earnings from transportation on the entire system of railroads were $4,401,858 39 in the past year. The losses on the coal amounted to $1,922,660 99. The total balance of earnings is, therefore, $2,479,197 40. The interest on the company's bonds was $201,957, and the rentals (interest on stocks and bonds of leased roads) were $3,185,262 34; total of fixed charges, $3,387,219 34. The year's business accordingly resulted in a loss to the stockholders of $908,021 94, which is equal to an assessment of 3.46 per cent on the capital stock of $26,200,000.

The following is the condensed balance sheet:

General Statement, December 31, 1877.

Capital stock		$26,200,000 00
Bonded Debt—		
Second mort. bonds	$1,633,000 00	
Convertible bonds	600,000 00	
Consolidated mortgage bonds	195,000 00	
L. & B. Railroad Co.	587,100 00	
		3,015,100 00
Floating Debt—		
Bills payable	$1,989,462 10	
Taxes (due to December 31)	264,986 39	
Vouchers & accounts (for supplies to December 31)	909,301 06	
December pay-rolls (payable in January, 1878)	285,421 50	
Interest on bonds and dividends (past due and accrued to December 31)	74,535 99	
Rents of leased lines payable on & after Jan. 1, 1878	1,046,183 08	
Bonds and mortgages assumed (on real estate for construction)	160,101 13	
Sundry small items	1,249 62	
	$4,681,240 87	
Deduct:		
Advances to leased roads for construction	$265,387 21	
Advances on coal to be deliv'd	452,353 98	
Accounts receivable	1,596,878 66	
Cash on hand	360,970 77	
Coal on hand	217,314 00	
Bills receiv'ble	95,166 26	
	2,998,070 88	
		1,683,169 99
Income Account—		
Net earnings	$4,401,858 39	
Less loss on coal	1,922,660 99	
Balance of earnings	$2,479,197 40	
Interest on bonds	$201,957 00	
Rentals	3,185,262 34	
	3,387,219 34	
Loss for year 1877 (equal to 3.46 per cent on capital stock)	$908,021 94	
Credit balance of account December 31, 1876	5,213,437 78	
		4,305,415 84
Total		$35,213,685 83
Construction		$28,817,018 44
Changing gauge		804,864 78
Materials on hand		983,401 77
Stocks and bonds (par value being $5,596,887 09)		4,608,400 84
Total		$35,213,685 83

Note.—Construction account represents the cost of 195 miles of railroad in Pennsylvania, or 316 miles of single track, 226 miles of which are laid with steel rails; 158 locomotives and 15,200 cars of different classes; over 15,000 acres of coal lands with improvements thereon; real estate in New York City, Buffalo, Rochester, Chicago and Staten Island, with 28 coal barges.

The coal lands mentioned in the above note, upwards of 15,000 acres, are charged on the books at $5,700,000, and there are improvements on them which cost over $3 000,000. Their value on the books has been diminished from time to time, in proportion to the coal extracted, and no interest has been charged on their cost.

The charge of $804,864 78 for "change of gauge" is retained in its present form because the company has not yet decided what final disposition to make of it.

The stocks and bonds on hand, scheduled at $4,608,400 84, and $5,596,887 09 in par value, are securities of leased roads, earned by cash expended in construction. Their value in the schedule is officially declared to be made up of fair market values; their average value, say 82½ per cent of par, supports this claim.

The losses on coal during 1877 came from small production, low prices and the strike which lasted from July 25 to Oct. 16. The company handled during the year 2,369,880 tons; 1,184,433 its own product, 856,233 purchased, and 329,213 transported for other parties. Under the terms of the company's leases of coal lands, of which it holds 4,000 acres in addition to 15,000 acres owned, it has, down to Dec. 31, 1877, paid for 3,255,624 tons of coal not yet mined.

The total operations, transportation and coal departments of the road in 1876 showed $721,824 above fixed charges; in 1877, $908,022 below, showing a comparative loss of $1,629,846. Actual result of business for the two years a deficiency of $186,198; so that for the two years the company has lost not quite four-fifths of 1 per cent on its capital stock.

The following shows the condition of the company at the close of 1876 and 1877:

Liabilities.	Dec. 31, 1876.	Dec 31, 1877.
Stock	$26,200,000	$26,200,000
Bonds	2,820,100	3,015,100
Net floating debt	880,815	1,698,170
Surplus	5,213,437	4,305,415
Total	$35,113,852	$35,213,685
Assets.		
Construction	$29,520,365	$28,817,018
Materials on hand	1,209,650	983,402
Stocks and bonds, market value	4,383,837	4,608,400
Changing gauge		804,865
Totals	$35,113 852	$35,213,685

Pittsburg, New Castle and Lake Erie Railway.

The Pittsburgh and New Castle Narrow Gauge Railway is steadily pushing ahead. They have ordered two handsome and powerful locomotives from Porter, Bell & Co. These engines are to be of 15-tons weight, and one will be finished by the middle of April, and the other about July 10th. The company is also negotiating for rolling stock, passenger and freight cars, so as to be ready for opening the road between Allegheny City and Zelienpole by the middle of July. One of the tunnels, that at Shaw's summit, 400 feet long and 12 feet wide, is finished, and the other, at Grubb's summit, to be 700 feet long, will be completed before the time set for opening. Both have good roofs of solid rock and will require no brick arching. Forty thousand ties are being delivered along the line, and most of them have been paid for.

☞ The Phœnix Iron Company, of Phœnixville, Penn., has secured the contract for the construction of an aqueduct across the Hudson river.

Canal Towing.

A writer in the New York Herald says that in regard to the most practical and profitable mode of transportation on the canals the steamer and consort takes the lead, and then adds:

The arguments and figures in favor of train towing, either by rail or cable, are too absurd for a practical canal boatman to believe; therefore the writer respectfully declines to mix fiction with facts. Horse boats, like many other things, have had their day. The steamer and consort have superseded horse boats altogether on the Illinois Canal. The Illinois system was adopted on the Erie Canal last season by the old Baxter steamers and several others. The trial proved to be a success, both practically and financially.

The chief advantages of the steamer and consort are, the steamer pushes the consort by means of rigid couplings, which hold the two boats as firm as one entire boat; thereby two full sized boats are run by one crew, saving fifty per cent in labor. In a word, the crew and fuel of the steamer and consort do not cost as much as the crew and tow bills of a single horse boat. The steamer and consort will make nine round trips per season from New York to Buffalo, six trips being the average for horse boats. The former system will deliver eighteen cargoes of grain in New York and return to Buffalo with eighteen cargoes (125 tons each) of merchandise, coal, iron, etc. To make nine trips in 210 days gives us twenty-three days per trip, which will be consumed as follows: nine days to run up, nine days to run down, two lay days in Buffalo, three lay days in New York. This only requires the boats to run four miles per hour in the river and two miles per hour in the canal. By pushing the consort there is but one break in the water, and the double boat runs steadier than the single steamer. No time is lost at locks; the boats are instantly detached from one another and quickly coupled together. Eight minutes is the average time required to lock down and twelve and fifteen minutes to lock up.

We used to tow boats in trains of four on the Illinois Canal, but abandoned the train system on account of the delay at locks. Two boats is the practical limit of doubling up on the canals. By the steamer and consort system every boat keeps moving. Boats can pass up and down alternately at locks. The steamer and consort system has passed the stage of experiment, having been in use for the last nine years, and is endorsed by all practical boatmen on the Erie Canal as being the most independent system yet introduced. They help themselves in the harbor, river and canal.

Those who wish to inquire further into it are referred to the following firms who received and shipped by the steamer and consort during the boating season of 1877: David Dows & Co., Jesse Hoyt & Co., David Fales & Co. and R. L. Williams, of New York; Preston & Wright and Edward Gallagher, of Buffalo.

I will only add that the Erie Canal can defy competition when equipped with steamers and consorts. There will be about fifty rigs ready by the opening of the canal this spring, when freight will be taken so cheaply that those who have predicted to live to see grass grow in the Erie Canal will change their minds. The writer has boated over thirty years—eleven years with steam canal boats—and from my experience I will predict that the boatmen will have the satisfaction of seeing grass grow on some of the railroad tracks.

With a free canal and about forty locks lengthened sufficiently to pass two boats without uncoupling, free wharves in New York and quick despatch in ports, wheat can be freighted for three and a half cents per bushel from Buffalo to New York. My advice to the people of this State is to never give up possession of the Erie Canal to a company who would ruin the best artificial water route in the world, and do not legislate the canal to death. With the toll sheet as recommended by the Canal Board it will produce revenue enough to run the canal, if the money is judiciously expended, and we have every reason to believe it will be.

The Silver Bill and its Effects.

The original silver bill is now safely housed, the Mint is manufacturing the expected dollars as rapidly as its machinery will permit, and none of the severe inflictions that were promised to fall upon the land have taken place. The fears that ran away with the judgment of many good people have been discovered to be groundless. Gold has been pushed down since the advent of the new dollar to the lowest recorded point, and is now as low as it was before the passage of the act. The important point has been reached, the country is satisfied, and is now willing to take an account of stock at present prices, and to go to work with a will to increase the value thereof. The agricultural community have shipped abroad enormous quantities of cereals, while manufacturers have reduced the cost of their productions so much that they come into direct competition with materials of foreign make in such manner as to insure the preference being given to goods from the United States. The result of this is that the exports of this year since January 1, at the port of New York alone, exceed those of the corresponding period of 1877 by over fifteen millions of dollars, and the same period of 1876 by nearly twenty million dollars. At the same time the imports have decreased to such an extent that those of this year are over five millions less than 1877, and nearly eleven millions less than 1876. This immense aggregate of values is represented by goods at the present extremely low prices, consequently the increasing transportation on the railroads has been much more extensive than the figures would apparently indicate. But, even were this not the case, the transportation companies must have a share in the general effects of the success—and a success it is, which make the country teem with unknown wealth and prosperity. The large absorption of Government bonds from foreign holders which has been taking place during the past three months is one of the best signs of the times. It is in effect a nation paying off its outside indebtedness and holding all its creditors in its own country. France owes her large debt almost entirely to her own citizens, and this gives her an element of strength that can never be broken. It is to be hoped that the people of the United States will soon be able to hold the entire debt of the country within their own grasp. Then, in case of hard times, there is no interest to be paid abroad, and, consequently, no grinding down of poor taxpayers to gratify the demands of foreigners for gold.—*Phila. Record.*

☞ The Petaluma (Cal.) Argus says that a rumor is prevalent in San Francisco that the San Francisco and North Pacific Railroad Company, through its President, Peter Donahue, has purchased the Marin Narrow Gauge Railroad, with all its rolling stock, equipments, franchises, etc., possession to be given soon. Also, that the new purchaser will at once widen the track from San Rafael to Saucelito, and at the earliest possible time complete a broad gauge road from Petaluma to the last mentioned place.

☞ Borba, the South American port at which the steamer Mercedita is reported to have safely arrived on the 7th ult., is the first considerable settlement on the Rio Madeira, south of its confluence with the Amazon, being situated in latitude 4½ degrees south and longitude 59 degrees west from Greenwich.

☞ All the cars of the Hull, England, Tramway company, are of American build, the company being able to buy New York cars, delivered in Hull, for an average of £35 per car less than the English prices.

Elkton and Middletown Railroad.

The Middletown Transcript says that there is little prospect of the early building of the Elkton and Middletown railroad, notwithstanding every week we hear that some one has subscribed a few shares and some railroad officials have had a big talk over the matter. It adds:

Baltimore seems to be utterly oblivious to the fact that she is losing the greater portion of the peninsula trade for the want of this little link of twelve miles of railroad, which would cost less than $150,000, but if she can stand it the peninsula can so long as Philadelphia is only fifty miles away, and is ready to receive the bountiful product of the soil.

Railroads in Switzerland.

There were 1,441¼ miles of line in operation in Switzerland at the close of 1876. These 1,441¼ miles had cost £29,016,000, and they were worked by 21 independent Companies. It was estimated at the close of 1876 that a farther expenditure of apital to the amount of £4,000,000 was required in order to complete the lines on hand. Of the capital embarked in the Swiss lines at the close of 1876, 55 per cent had been raised by shares. The rolling stock upon the Swiss lines at the close of 1876 comprised 552 engines, 1,662 passenger carriages, and 10,098 trucks.

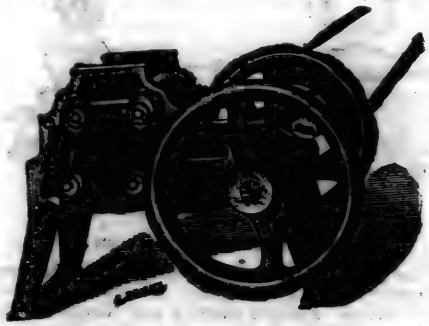
☞ The Pennsylvania Canal Co. at Harrisburg are having their large Weigh Lock Scale rebuilt by Rieble' Bros. This scale was built by the predecessors of this firm and has been in active service for over 15 years weighing loaded boats. It has done remarkably well and weighs almost as sensitive as when first erected notwithstanding its immense capacity, something like 500 tons.

☞ At a meeting of the stockholders of the Lake Erie and Louisville Railroad Company, held at Fremont, Ohio, on the 13th inst., the following directors were elected: James B. Hodgskin, A. Hegewisch, C. M. Taylor, W. H. Andrews, C. O. Tillotson, C. S. Brice, H. R. Baltzer, Hon. Charles Foster, Adrian Iselin, jr., E. Livingston, I. H. Burgoon, A. M. Miller, A. B. Williams. The old officers of the Board were re-elected.

☞ Work is to be begun as soon as spring opens on the extension of the Monadnock Railroad from Peterboro' to Hillsboro', a distance of 18 miles, for which the grading has been done, and the road is to be finished by June 1. This work is of some importance to Springfield as being the only missing link in the most direct line between that city and Concord, N. H.

☞ The Brooklyn City Railroad Company has abandoned the use of steam street cars. The president of the company states that the six motors placed on one of the routes have been run for the past six months at a financial loss, after a fair trial.

☞ A party of capitalists from the East arrived at Austin, Nevada, on the 7th inst. to view the route and resources for a railroad from Battle Mountain to Austin, with a view of building the road should the outlook prove favorable.



☞ The officers of the Osceola Mining Company recently elected, are: President, J. W. Clark; Treasurer, Horatio Bigelow; Secretary, A. S. Bigelow.

☞ The officers of the Columbus and Washington Court House (Ohio) Narrow Gauge Railroad, elected on the 11th inst., are: J. F. Ely, of Washington Court House, President; F. C. Sessions, of Columbus, Vice President; James Purcell, Treasurer; and J. M. Edwards, of Bloomingburg, Secretary. The survey and location of the road was to have been commenced on the 18th inst.

☞ The Secretary of State of West Virginia has issued a certificate of incorporation to the Monongahela Valley Railroad Company, which is to begin at some point on the Pennsylvania line and pass through Monongahela and Marion counties to Fairmont, in that State, the stock amounting to $500,000, divided into 10,000 shares.

☞ Meetings in the interest of the Wellsburg and Washington (Penn.) Narrow Gauge Railroad are being held in nearly all the towns along the proposed route.

Can I Obtain a Patent?
This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

The Coal Trade.

For the week ending the 9th instant, the total anthracite production, as reported by the several carrying companies, amounted to 252,887 tons, against 215,547 tons in corresponding week last year a decrease of 37,340 tons. The total amount of anthracite mined for the coal year is 2,249,714 tons, against 2,437,178 tons for same period last year, a decrease of 187,459 tons. The quantity of bituminous coal sent to market for the week amounted to 32,025 tons, against 40,745 tons in corresponding week last year, a decrease of 8,720 tons. The total amount of bituminous mined for the year is 319,261 tons, against 490,562 tons for corresponding period last year, a decrease of 171,301 tons. The total tonnage of all kinds of coal for the week is 284,912 tons, against 256,292 tons in corresponding week last year, an increase of 28 620 tons. The total tonnage of all kinds of coal for the coal year is 2,568,975 tons, against 2,927,735 to same date last year, a decrease of 358,760 tons. The receipts at Perth Amboy for the week ending on the 9th instant were 6457 tons, the shipments 7943 tons, leaving a stock on hand of 93,079 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the first week of March was 75,888 tons, of which 58,170 tons were coal, and 17.718 tons coke. The total carried for the year is 767,615 tons, of which 594,219 tons were coal and 173,196 tons coke. These figures embrace all the coal carried over the road, east and west.—*Phila. Ledger, March* 18.

A One-Legged Railroad.

The "one-legged" railway now building in the Bradford, Pennsylvania, oil region is attracting a good deal of attention. The construction of the road is simple, rapid and easy. On the hard ground logs six feet long, and from a foot and a half to two feet in diameter are placed at right angles to the line, and from 12 to 15 feet apart, the distance varying. In these logs vertical sawed posts, 14 by 15½ inches, are dovetailed and wedged. These verticals vary in height, and by their length the grade of the road is regulated. On the top of these verticals the horizontal pieces to which the rails are spiked are laid, with their ends squarely against one another. These sleepers are 10 inches by 15½ in thickness. By a proper arrangement of vertical and horizontal pieces of timber, the timbers on which the rails are laid are kept firmly in position, and two wooden rails, three feet and a half below the top of the iron rail, and twenty-two inches apart, are spiked to vertical posts. Across streams and the swampy ground piles are driven. On this one rail a saddle shaped car is mounted and supported by two wheels with double flanges. The gondola car now mounted on the portion of the road completed is twenty-two feet long, nine feet wide, and weighs over 7,000 pounds. The car is a double decker, there being room for freight in the body of the car and on each side of the saddle. Twenty-two inches below a plane tangent to the upper wheels, at the lowest point of their circumference, four smaller wheels are placed in a horizontal position, and in the same plane, their circumferences being twenty-two inches apart. These run against the wooden guide rails, and keep the car in position. The wheels are attached in standards connected with the iron frame work of the car.

☞ At a general meeting of the stockholders and registered holders of first mortgage bonds of the Atlanta and Charlotte Air Line Railway, held in this city on the 13th inst., the following gentlemen were elected directors: Eugene Kelly, Alexander P. Irvin, George Warren Smith, Abram S. Hewitt, William H. Fogg, Pomeroy P. Dickinson, Hiram Sibley, Henry G. Hurdy, Belden R. McAlpine, Hiram W. Sibley, Frank P. Clark, Skipwith Wilmer.

New York, Saturday, March 30, 1878.

Pennsylvania Anthracite Coal Abroad.

The Philadelphia and Reading Railroad Company, keeping steadily in mind its great purpose of widening the market for anthracite coal, on the 18th inst. despatched by Mr. E. A. Quintard, of the Philadelphia and Reading Coal and Iron Company, to Europe, his immediate purpose being to take general charge of the Reading Company's exhibit at the Paris Exposition. A fine display, it is expected, will be made of anthracite coal from the Schuylkill region, and its adaptability to use in self feeding stoves and on locomotives will be shown. Mr. Quintard will visit the Mediterranean for the purpose of investigating the practicability of competing with anthracite coal against the English trade in that market. The company has already sent a few shipments of its coal to Milan and other points on the Italian coast. Mr. Quintard represented the Reading Company at New York for several years, until about a year ago, when he was appointed its general agent. He was quite active during the past year, and did much towards extending the business of the company to points heretofore regarded as belonging exclusively to rival companies.

Heating a Train of Cars by Steam from the Locomotive.

On the 25th inst. a train three cars, kindly tendered by the management of the New York Elevated Railroad Company, made a special trip over that road from the Battery to Fifty-ninth Street and back for the purpose of inspecting a new arrangement now in use on the road for heating a train of cars by steam from the locomotive. By invitation of Mr. W. C. Baker, the inventor, a large number of gentlemen interested in railroads, especially rapid transit roads, were on the train, among whom were Mr. Pullman, Dr. Gilbert, Col. Pelton, Col. Ricker, and others. The arrangement, as described by the constructor, consists of a chain of pipes extending through the cars on each side, connected between the cars and at the locomotive by an elastic hose, wound to prevent condensation, and with couplings similar to those used for the car brakes. The dome or some convenient steam main on the locomotive is tapped for a small pipe, in which is a valve, by which the engineer or fireman can control the heat in the cars. Under the car body are two expansion valves to allow vent for the air when steam is first turned on and also to allow the cold water of condensation to be freed from the pipes and to prevent freezing. The pipes inside the cars are inclosed within other and thinner pipes and the space between the two is packed with fine dried sand. The heat from the hot steam pipes is imparted to the sand, which radiates it through the thin outer pipe. By this means the heat of 350 degrees which is imparted to the inner pipe is given off so gradually as to keep the cars comfortably heated for two or three hours. So that by charging the apparatus before the train starts, and from to time throwing into it the surplus steam which would otherwise have to be blown off and wasted, the necessity for stoves is obviated as well as the danger of fire in case of accident. It is also claimed that the proper ventilation of the cars is rendered easier by this process than by the use of stoves. By charging the train before starting, the cars were kept thoroughly warm till Fifty-ninth street was reached, and it was apparent that there was plenty of heat to last an hour longer. It was, however, desired to test the couplings again, and an additional quantity of steam was thrown into the pipes. In consequence of this the windows had to be opened on the return trip.

Erie Railway.

The gross earnings of the Erie Railway for the month of December, 1877, were $1,465,133 08, the expenses $1,003,874 17, and the net earnings $461,258 91. For the month of December, 1876, the gross earnings were $1,157,416 49, the expenses $982,932 87, and the net earnings $174,483 62—showing an increase in gross earnings of $307,716 59, an increase in expenses of $20,941 30, and an increase in net earnings of $286,775 29. The net earnings of the first three months of the present financial year exceed those of the same period last year by $329,643 15.

Pennsylvania Railroad.

At the adjourned meeting of the stockholders of the Pennsylvania Railroad Company, held in Philadelphia on the 25th inst, the report of the committee appointed under the resolution of March 12th to make inquiry concerning several items in the annual report, more especially touching the proposition "to create a trust for the purchase of certain securities," was submitted. The committee consisted of Daniel Steinmetz, Gustavus Remak, D. B. Cummins, John A. Wright, Louis Wagner, George S. Fox and Thomas Potter. The committee were a unit upon all the topics investigated, except that of the creation of the trust fund. On this point Mr. Potter submitted a minority report.

The majority report, which was submitted by the chairman, Mr. Daniel Steinmetz, states that since the 15th of May, 1874, the company has leased but two short lines, "and these on the basis of cost of operating, which was declared at that date to be the settled policy of the company as to any leases which should be thereafter made, and it was then also determined that no further liability should be incurred on account of guarantees."

The practice of patronizing car trust companies is defended on the ground that it affords the railroad company a ready means to obtain rolling stock at such an annual rental as will within eight or ten years pay for them in full, when they become the property of the railroad renting them.

The committee say it would seem unwise for the railroad company to assume the business now transacted over its lines by the Adams Express Co., inasmuch as the present arrangement is profitable to the road, and any change would result in largely increased expenses for employes, offices and depot facilities and an amount of responsibility from loss of money and freight that would undoubtedly diminish the revenues of the road.

The Pennsylvania Co., the organization of which, as a bureau or corporation, was considered an absolute necessity in 1870, is reported by President Scott as performing "its functions in a way that is valuable to the shareholders of the Pennsylvania Railroad Co.," which is the sole owner of the Pennsylvania Co., and derives the profits arising from its operation.

The committee say the basis of valuation of securities held by the company is determined after full and careful examination of each item, and that the cost of equipment is charged to the account when purchased or built. The equipment account, as charged upon the books of the company, represents a much smaller amount than its present cash value.

In all cases where the Pennsylvania Railroad Co. was called upon to make advances to any companies upon whose obligations it it a guarantor, they are included in the Treasurer's report, and are not additional obligations.

In relation to the profit and loss account as it appears in the annual report the committee make this explanation: "The amount of $7,910,387 90 represents the total reduction in the valuation of the bonds, stocks, &c., held by the company Dec. 31, 1877. The amount of $941,638 95 is made of sundry accounts charged to loss, they being considered of no value. The amount of $1,246,225 86 represents accounts charged off the books as loss, yet kept in a supernumerary book under head of suspense account, so that their existence shall not pass the knowledge of the officers of the company, in case said accounts should have a future value."

As repairs are made to replace the loss caused by the Pittsburg riots, the cost is charged to Allegheny county. The floating debt of the Pennsylvania Railroad Co. was $1,500,000, on Dec. 31, 1877, and that of the Pennsylvania Co. $2,993,699 99. To meet the floating debt of the Pennsylvania Co., $3,200,000 of its bonds had been issued, which are secured by $4,000,000 of 7 per cent guaranteed stock of the Pittsburg, Fort Wayne and Chicago Railway Co.

The committee next considered the subject of a trust fund. In the report of the directors the fixed liabilities on the guaranteed endorsements of the Pennsylvania Railroad Co. are stated at $178,016,293 11, but the committee fear the statement in the report is liable to misapprehension, and therefore make the following explanation as aiding in the better understanding of the character of these liabilities:

The capitalized amount of the liabilities of the Pennsylvania Railroad Co. on account of endorsements of bonds as guarantor or for rentals as lessee, is stated in the report of the board at	$178,016,293 11
Deducting the amount representing the capitalized principal of the stocks upon which the company guarantees certain dividends, and upon which, therefore, its utmost liability is confined to the dividends themselves	68,699,697 10
we obtain	$109,316,596 01

as the amount of the bonds upon which the company is a guarantor directly or indirectly.

Upon these bonds the Pennsylvania Railroad Co. is a direct guarantor of principal and interest as follows:

Under the lease of the United Railroads of New Jersey, to the amount of	$25,496,700 00
On other lines east of Pittsburg and Erie, embracing the Philadelphia and Erie, West Pennsylvania, Chartiers, Connecting and Junction Roads, and the Susquehanna Coal Co., on which it is the sole guarantor, and the Allegheny Valley and the Baltimore and Potomac, on which the Northern Central and Philadelphia and Erie Companies are co-guarantors	32,450,266 66
And on the lines west of Pittsburg and Erie to the amount of	3,150,000 00
In all	$61,096,966 66
On the bonds of the Pennsylvania Canal Co. (interest only guaranteed)	3,000,000 00
On the lines west of Pittsburg and Erie the indirect guarantee of the company, through leases directly made to it, are	30,942,629 35
And through the leases made to your Western lines	14,277,000 00
Making up the total as above, of	$109,316,596 01

The committee call attention to the fact that these bonds are guaranteed by railway property entirely distinct from the main line, and that the company, by foreclosure or purchase of the securities, would practically become the owners of the roads upon which they are a lien.

In the case of the United Railroads of New Jersey, the Fort Wayne, Cleveland and Pittsburg, and other roads west of Pittsburg, whose bonds constitute the larger portion of the Pennsylvania Railroad Company's liabilities, the lessor companies agreed to supply new bonds to take the place of maturing obligations. Many of these securities are selling in the market at a premium of from 5 to 20 cents on the dollar, and if found necessary to renew them the committee think it would not be difficult to do so. If, in renewing these bonds, however, they should not sell for par, the Pennsylvania Railroad Co. would have to make up the deficiency.

The committee then recommend the creation of such a trust as was described and favorably considered in the annual report, and submit the following suggestions and opinions:

1. That the management of the road has been intelligent and faithful, and, with a continuance of prudent and cautious administration, there is no cause for apprehension of disastrous results in the future.

2. That while your company has been since 1873, and is now suffering in net earnings by reason of low rates, the continued depressed condition of the country, and especially from the large amount of guaranteed obligations of other lines, bearing a high rate of interest, incurred during the years of inflation immediately preceding the late panic, yet encouragement for the future is found in the fact that the tonnage of the main line and all its connections is steadily increasing, giving reasonable ground to anticipate, before long, an increase of rates; and, notwithstanding the extent of the obligations above mentioned, they have all been promptly met out of the earnings of your lines—even during the past year of almost unexampled depression and special disasters.

3. That the policy of the directors, as approved in May, 1874, of limiting the extension of the liabilities of the company in leasing new lines, or increasing the guaranteed liabilities either of the Pennsylvania Railroad Co. or of the Pennsylvania Co., is hereby approved, and should be strictly adhered to.

4. That the interests of the company require on the part of the managers the strictest economy, as well in the employment of officers and other labor, as in the purchase of property, straightening the track, erection of buildings, or other improvements not absolutely necessary to the economical administration of the road, and recommend the sale of any property that may not be required for the current business of the company.

5. That the net profits of the company be applied to the reduction of the floating debt as rapidly as the board of directors may deem advisable for the interests of the company.

6. From the dividends to be declared from the net profits of the company an amount, not exceeding two per cent per annum on the capital stock of the Pennsylvania Railroad Co., should be invested in a trust "having for its object the purchase from time to time of the bonds and shares of other companies which are guaranteed by the Pennsylvania Railroad Co., and also of the bonded debt of the Pennsylvania Co.," in such form as the directors shall deem for the best interests of the stockholders and the future prosperity of the company.

In conclusion, the committee respectfully recommend the adoption of the resolution appended to the report of the board of directors as follows:

Resolved, That the creation of a trust, having for its object the purchase from time to time of the bonds and shares of other companies which are guaranteed by the Pennsylvania Railroad Co., and also of the bonded debt of the Pennsylvania Co., be, and it is hereby approved; and that the incoming Board of Directors be, and they are, hereby instructed and authorized to take such action, under the advice of counsel, as may, in their judgment, be lawful, necessary and best adapted to create such trust and to accomplish the objects for which it is designed.

Erie Railway.

The sale of the Erie Railway, which was to have taken place on the 25th inst., has been further postponed for thirty days. The order which was granted by Judge Daniels, of the Supreme Court, is based on the Judge's opinion, rendered last week, in the application of Albert De Beiz, Moritz Lewin Borchard, and Jules Levita, who claim to be bondholders, and sought to be made parties to the foreclosure litigation. By the terms of the order the three applicants, after establishing it as a fact that they are bondholders, are made parties defendant to present charges against Mr. Jewett, the Receiver, and against his management and accounts; to contest the items of indebtedness claimed to be proper charges as to the mortgaged property prior to the lien of the second consolidated mortgage, and the several executory contracts of the Receiver, claimed to have been lawfully made by him, and to be liens, etc. William Allen Butler is appointed Referee to ascertain whether the applicants are bondholders, and to take testimony and report on the facts in their petition; to report on the amount of lawful indebtedness incurred by the Receiver in the execution of his trust, properly constituting a lien upon the mortgaged premises prior to the lien of the second consolidated mortgage; to report on the executory contracts properly made by the Receiver, subject to which the mortgaged property should be sold; to report upon the charges against the Receiver, upon the items of his accounts, etc; to report a particular description of the property which should properly be sold under the judgment, the amount of indebtedness secured by the mortgage, and the amount of outstanding bonds and coupons secured by the mortgage. The postponement of the sale for 30 days is absolute. In case the counsel on behalf of the Farmers' Loan and Trust Company stipulate to deduct from the amount of the judgment such sums as shall be found by the Referee not proper charges prior to the mortgage, and also to deduct any sums improperly allowed to the Receiver, be-

sides stipulating that the applicants shall, if they choose, be entitled to share in the benefits of the reorganization scheme, no further postponement is allowed. In case, however, the Trust Company's counsel refuse to give these stipulations, the sale is further postponed until the coming in of the Referee's report.

Atlantic and Great Western Railroad.

The following is an abstract of the report of the Receiver for the year ending December 31, 1877:

Gross earnings from operation		$3,973,298 82
Operating expenses		3,004,381 46
Net earnings from operations		$968,917 36
Earnings from other sources		9,549 53
Total net earnings from all sources		$978,466 89
Out of which have been paid fixed charges as follows:		
Rental of equipment	$362,927 81	
Rental of all leased lines	313,254 91	
General expenses, taxes, etc	148,113 71	
		824,296 43
Leaving net income for the year		$154,170 46
Out of which have been expended for additions and betterments strictly chargeable to capital account		26,536 25
Leaving net surplus		$127,634 21

The road worked during the year 1877 was the same as at the close of the previous year, consisting substantially of a line 887½ miles long from Salamanca, N. Y., south-westward to Dayton, O., which is crossed 165 miles from Salamanca by a leased line from Cleveland, O., south-eastward 61 miles, and thence north-eastward 27 miles, to a second junction with the Salamanca Dayton line. There are other branches worked in connection with the Atlantic and Great Western and by its officers, but not by the Receiver as such.

The results of operations of the railroad and leased lines from December 10th, 1874, the date of the appointment of the Receiver, to December 31st, 1877, are as follows:

Gross earnings from operation		$11,627,612 76
Operating expenses		9,012,419 22
Net earnings from operation		$2,615,193 54
Earnings from other sources		28,020 67
Total net earnings from all sources		$2,643,214 21
Out of which have been paid fixed charges as follows:		
Rental of equipment	$919,881 21	
Rental of all leased line	974,890 23	
General expenses, taxes, etc	371,735 63	
		2,266,507 07
Net income during receivership		$376,707 14
Out of which has been expended for additions and betterments strictly chargeable to capital account		254,742 18
Leaving net surplus		$121,964 96

And, under orders of the court, during the period of the receivership, there has been expended on account of the indebtedness of the Atlantic and Great Western Railroad Company, the sum of $1,051,573 38 over and above the cash which has been collected from the company's assets.

This is the first year year since the receivership that the income covered the whole yearly expenditures. The aggregate excess of expenditures over receipts in the three years and twenty-two days of the receivership were $552,567, which is the present amount of liabilities over assets.

The average rate per ton mile received upon all freight for 1877 is 0.908 cent, as against 0.905 cent in 1876. The average cost per ton mile of all freight has been 0.7308 cent, which is less than the average cost of 1876. The receiver says:

"From lack of a sufficient equipment it has cost the receivership in rentals of cars and locomotive engines $919,881. Considerably less than this amount would suffice to purchase out right all the equipment required, and the net earnings of the property would have been increased from such ownership over $200,000 yearly.

"The arrangement with the Cincinnati, Hamilton and Dayton and the Cincinnati and Springfield Railroads for transporting the traffic of this line and handling hoist cars between Dayton and Cincinnati has been made permanent by mutual agreement, and is working very satisfactorily to each road."

The freight business of the road for two years has been:

Tons of freight moved—	1877.	1876.
Local	1,211,988	1,693,402
Through	1,592,020	783,254
Total	2,804,003	2,476,656
Tonnage mileage—		
Local	76,971,485	114,090,683
Through	260,407,002	174,269,362
Total	337,378,487	288,360,045

Baltimore and Ohio Railroad.

The Legislature of Maryland has passed by a large majority (60 to 9 in the House, and 16 to 6 in the Senate) a bill for the settlement of all the pending differences and law suits of the State and the Baltimore and Ohio Railroad Company. The bill provides, first, for a settlement of the existing indebtedness of the company to the State. This is to be effected by the payment by the company to the State of $466,911 20—$366,000 in the company's 6 per cent. coupon bonds, running ten years from July 1, 1878, interest falling due semi-annually—and $100,911 20 in cash. The calculation by which this amount is ascertained is as follows:

Capitation tax (so called) on Washington Branch due up to July 1, 1878		$478,433 86
Passed dividends on Washington Branch up to and including that of October 1, 1877		137,500 00
Gross receipts tax (one-half of 1 per cent) on Main Stem from July 1, 1873, to January 1, 1878		92,673 99
Ditto on Washington Branch during same period		7,866 65
		$716,474 50
Less amount due company for payment of interest on sterling bonds in excess of obligation of contract	249,563 30	
		$466,911 20

The company's gold claim is paid without interest, and so with the State's claim on account of the arrears of the one fifth of the passenger receipts on the Washington Branch. A charge of interest on both sides would have made a difference in the totals in the company's favor of nearly $130,000. The payment of the "capitation tax" ceases, and the substitution of the gross receipts tax begins July 1, 1878, that being the date when the Baltimore and Potomac road was opened through as a competing road. The cash payment of $100,911 20 by the company must be made before May 1, 1878.

All existing indebtedness being settled upon this basis, the future relations of the State and company are placed upon a more satisfactory footing, as far as the question of State taxation is concerned, by substituting the gross receipts tax of one-half of one per cent so imposed by the act of 1872 upon all railroads in the State operated by steam, for the State's reservation of one-fifth of the passenger receipts on the Washington Branch. That reservation the State surrenders, and the company surrenders its general exemption from State taxation to that extent, and no further. So far as local city and county taxation is concerned, that question is left exactly where the recent decision of the Court of Appeals leaves it. Such property as the Deer Park and Oakland hotels, in Garrett county, the Metropolitan Branch, in Montgomery and Frederick counties, the company's other property and investments in Baltimore declared by the court to be outside of the original exemption granted in its charter, will be liable to local taxation.

The settlement is one, therefore, not for the past and present merely, but for time to come. It will place, it is hoped and confidently believed, the relations of the State and company in the future upon a basis of peace and harmony. The company will continue a large contributor to the revenues of the State, as it already contributes in many ways to the prosperity of the people. Grafted upon these general provisions of the bill is also a stipulation, or proviso in the nature of a legislative contract, embodying certain provisions in regard to tolls upon the Baltimore and Ohio railroad between the coal mines and Cumberland, &c., which had already become the subject of a private agreement and understanding between the railroad and canal company. The latter corporation expects for this feature of the settlement such an increase of business as may make it also a contributor to the revenues of the State, while it is not contemplated that the stipulation will work an injury to the railroad.

Ohio River Railway.

The Ohio River Railway Company was organized at Ironton, Ohio, on the 20th inst. by electing the following board of directors: George D. Chapman, Columbus; John G. Peebles, Portsmouth; John Means, Ashland, Kentucky; Thomas W. Means, Hanging Rock, and James S. Fulson, French Grand, Ohio; George Williams, Ironton; John Campbell, Ironton; Cyrus Ellison, Ironton, and William D. Kelley, Ironton.

The board elected the following named officers: George D. Chapman, President; John G. Peebles, Vice President; John Means, Treasurer; C. O. Hunter, Secretary; Joel Huntoon, Chief Engineer, and W. A. Hutchins, Attorney.

Active operations will be commenced at once for the construction of this road from Portsmouth to Huntington, which is to make the connecting link between the Scioto Valley and Chesapeake and Ohio railroads.

☞ The business of all lines connecting with the Pennsylvania Railroad east of Pittsburg and Erie, for February, 1878, as compared with the same month in 1877, shows a decrease in gross earnings of $2,790, a decrease in expenses of $48,687, and an increase in net earnings of $40,847. The two months of 1878, as compared with the same period in 1877, show an increase in gross earnings of $9,940, a decrease in expenses of $181,584, and an increase in net earnings of $191,524. All lines west of Pittsburg and Erie for the two months of 1878 show a profit after meeting all liabilities, of $45,698; in the same period in 1877 there was a deficiency of $105,409.

☞ Mr. E. B. Thomas, General Manager of the Cleveland, Tuscarawas Valley and Wheeling Railway, has been appointed General Manager of the entire line of the Cleveland, Columbus, Cincinnati and Indianapolis Railway. The other officers of the road are unchanged.

☞ Six miles of the rail on the Springfield, Jackson and Pomeroy Railroad has already been laid and active work is going on along the entire unfinished line.

Ohio River Railroad.

The Ironton Register, giving an account of the organization of a company to prosecute work on the railroad which is to connect the Portsmouth terminus of the Scioto Valley Railroad with the Chesapeake and Ohio Railroad at Huntington, says:

The capital stock of this company is one and a half millions of dollars, of which more than half, or $775,650, has been subscribed. Of course, this is not enough to build and equip the road, but it may be expected that an enterprise so important to the interests of the communities between Huntington and Portsmouth, thus far advanced by outside capital mostly, will eventually meet with liberal material encouragement from the people most directly interested.

The purpose is to go immediately at work upon the enterprise. Of course, the route will have to be carefully canvassed and surveyed. How long this will take is not known, but it is calculated that this summer the grading will be in full progress, and the road finished before the year closes. The gentlemen managing this enterprise are full of energy and business.

The road will be a paying one, for there is not a better opening for transportation in the United States. The Scioto Valley, which Mr. Chapman built last summer, is crowded with business and steadily gaining strength. The road that connects it with the Chesapeake and Ohio Railroad will certainly get a sufficient business in passengers and freight to make a real paying investment.

Pennsylvania Railroad.

At the annual election for directors of the Pennsylvania Railroad Company, held in Philadelphia on the 26th inst., the following gentlemen were chosen: Thomas A. Scott, Josiah Bacon, Wistar Morris, John M. Kennedy, Samuel M. Felton, Alexander Biddle, N. Parker Shortridge, Henry D. Welsh.

The resolution on creation of trust, as recommended in the majority report of the committee, an abstract of which is given elsewhere, was adopted by a vote of 375,259 out of a total of 481,244 cast; 105,885 votes were cast for the postponement of the trust as recommended in the minority report, and 100 were cast for "no trust at all."

The whole number of shares included in the capital of the company is 1,377,414. About 85 per cent of these is held in this country and about 15 per cent abroad. The entire number of shareholders is some 17,500.

☞ The Holly Manufacturing Company, of Lockport, N. Y., have just gained an important suit, involving the exclusive right of the company to construct water works on the Holly system of direct pumping and without a receiver or stand pipe. The suit was commenced about four years ago at Indianapolis, Ind., before Judge Drummond, in the United States Circuit Court, who decided, affirming the validity of the Holly patent.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Springfield, Troy and Piqua Railroad company, to run from Springfield, in Clark county, through the counties of Clark and Miami to Piqua, capital stock $200,000, in shares of $50 each, by J. F. McKinney and others.

☞ The Columbus Journal say that "the short connecting link between Portsmouth and Huntington will give us direct communication with the Chesapeake and Ohio railroad, and give us a new and short route to the seaboard."

Delaware and Bound Brook Railroad.

A statement of the operations of the Delaware and Bound Brook Railroad Company for the year 1877 has been made to the Comptroller of the State of New Jersey. This road, with the North Pennsylvania Railroad, and the Central Railroad of New Jersey, forms the new "Bound Brook Line" between this city and Philadelphia. The Bound Brook road proper is about 27 miles of this line, and it is of the operations of this portion, with a branch of not quite four miles in length leading to Trenton, that the report is made. The railroad and equipment cost $2,998,046. It has $1,514,000 paid up capital, $1,500,000 bonded debt and $259,033 floating debt, a total capital and debt of $3,273,033. Its gross receipts for the year were $288,466 and its operating expenses $171,422, leaving of net earnings $37,044, as compared with $146,193 for the company's last fiscal year, ending April 30, 1877, which included the heavy traffic of the Centennial period.

Pennsylvania Railroad.

The directors of the Pennsylvania Railroad Company who were chosen on Tuesday met Wednesday for organization, and elected to membership in the board, under a regulation authorizing such action, George B. Roberts, Edmund Smith and A. J. Cassatt. Of the directors elected to represent the city, Alexander M. Fox and William Anpach were admitted to seats, and P. A. B. Widener was declared ineligible, he having not been a stockholder in the company long enough to entitle him to sit as a member. John Price Wetherill was chosen to fill the vacancy; after which the following officers were chosen by a unanimous vote: President, Thomas A. Scott; First Vice President, Geo. B. Roberts; Second Vice President, Edmund Smith; Third Vice President, A. J. Cassatt; Secretary, Joseph Lesley; Assistant Secretary, John C. Sims, Jr.

☞ The revenue of the Dominion of Canada for 1878-9 is estimated at $23,800,000, and the expenditure at $800,000 less, exclusive of $7,500,000 needed to meet the Dominion debentures falling due to England, and $8,300,000 which is to be spent on the Pacific Railway and the enlargement of the Welland and Lachine canals. The debt of Canada is now $160,000,000, or $40 per head of the population.

☞ A Victoria despatch states that Admiral Debersey's report as to the best terminus for the Canada Overland Railway condemns Burrard Inlet and Skeena River as harbors and strongly favors the adoption of the Bute Inlet route, with Esquimault as the terminus.

☞ The gross earnings of the Philadelphia and Erie Railroad Company for the month of February, 1878, were $130,506 74; expenses, $182,365 05; net earnings, $48,141 69; net earnings in 1877, $48,205 63; decrease, $63 94.

☞ Work on the Tuscarawas Valley Railroad between Wheeling and Flushing tunnel has been suspended with the exception of tunneling. The entire completion of the road is not expected before November next.

☞ The coupons due April 1, 1878, from the consolidated bonds of the Houston and Texas Central Railway will be paid by John J. Cisco & Son, No. 59 Wall street.

American Railroad Journal.

Saturday, March 30, 1878.

Financial and Commercial Affairs.

Money has been more active, owing mainly to the increased call from speculative sources, especially for Stock Exchange purposes. The offerings have been on a somewhat restricted scale, and rates have been ruling higher for loans, in a controllable form. The discount applications from responsible sources have been moderate for the season, and promptly and favorably responded to at the current figures. Call loans were quoted here at from 4@7, the principal negotiations having been within the range of 4½@6; and very choice to strictly prime mercantile credits (none other passing without much difficulty) were rated at 4½@7 per cent per annum. The City bank exhibit of last week indicated a further contraction in the loan and discount average of $1,412,200, and a reduction in the item of circulation of $4,400. The average of deposits was diminished $3,146,600. The legal tender reserve was cut down $720,500; and the specie average increased $141,600. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $16,808,575 (the highest aggregate reached thus far this year), as against $16,100,825 the preceding week. The City bank exchanges in currency reached $278,781,073, or a daily average of $62,288,512.

The outstanding amount of legal tender notes is $348,680,426. The National bank circulation is now $319,610,886 of currency notes and $1,482,120 of national gold bank notes. National Bank notes received at the Treasury Department last

week for redemption were to the amount of $2,485,000.

In the line of Government Securities, business has been on a liberal scale, especially for home investment purposes, and prices, though fluctuating slightly from day to day, have, on the whole, been well supported leaving off rather more firmly. At the close on Wednesday the current quotations were as follows:

United States 6s, 1881, registered, 107@107⅛; do. coupon, 107@107⅛; do. 1865, new, registered, 104¾@104⅞; do. coupon, 104⅝@104⅞; do. 1867, registered, 107¼@107⅜; do. coupon, 107¼@107⅜; do. 1868, registered, 109⅛@109⅜; do. coupon, 109¼@109⅜; do. ten-forties, registered, 105¼@105½; do. coupon, 105¼@105½; do. five per cents, 1881, registered, 104½@104⅝; do. coupon, 104⅛@104⅝; do. 4½ per cents, 1891, registered, 103@103⅛; do. coupon, 103@103⅛; do. 4 per cents, 1907, reg., 100⅛@100¾; do. coupon, 101⅜@101⅝; do. sixes, currency, 118½@118½.

The reported subscriptions to the new four per cent Government loan now exceed five millions.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $346,911,250, and $13,453,000 as security for public deposits.

Rather more inquiry has been noted, chiefly from investment sources, for the better class of State bonds which have been ruling somewhat stronger as to prices. Railway Mortgages have been in more demand, mainly on investment account and the favorites of the actual interest bearing loans have been ruling higher. And in the line of Railway and Miscellaneous share property the dealings have been of somewhat less magnitude, but, nevertheless, indicative of an active speculative call for the favorites of the general list, prices of which, though variable, have gained in strength and buoyancy, closing with an upward tendency, influenced in part by the more satisfactory traffic returns from the great trunk lines of railway.

The income of the Government from internal revenues last week was about 2¾ millions, and from Customs last week again about 2½ millions.

In the Gold speculation, there has been rather less activity apparent, yet the fluctuations as to price have been unimportant, and the market at the close quoted about steady. The customs drain has been quite moderate for the season; and the export movement very light. The extremes of the price during the week have been 101@101¼, closing on Wednesday at 101⅛ as against 101⅛ on Wednesday of the preceding week. The specie outflow last week was only $168,700 –making the total exports of specie hence since January 1, $2,613,655 against $3,348,605 the same time in the preceding year. The imports of specie at this port last week were confined to $29,195 and since January 1st have been $4,174,994 as against $4,711,765 same time in the preceding year. The Customs demand for gold in the local market last week reached $2,082,087 or an average of $347,014 per day.

Foreign Exchange has been offered with reserve, and quoted, as a rule, firmer, on, however, a less active market. Bankers' sixty day bills on London closed on Wednesday at $4 86⅛@$4 87⅛; sight bills on London at $4 88⅛@$4 89⅛ to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $6,893,901 as against $7,638,271 the corresponding week of 1877. The week's import entries of Foreign Merchandise at New York included $1,912,845 of Dry Goods, and $4,950,956 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the extraordinarily large aggregate value of $6,948,985, against $3,952,107 same week in 1877; and since Jan. have been $82,136,770 against $56,008,096 same time last year.

Metals have been moderately sought after at generally weak and irregular prices. Eglinton Pig Iron quoted at $24; Glengarnock $24@$24 50; Coltness $25 00; No. 1 American Pig at $18 @$19 50; No. 2 do. at $17 @$18 50. Forge $16 @$17. New Iron Rails at works $33@$37. Old Rails $19@$19 50. Wrought Scrap $21 50@$22. Steel Rails, on the basis of $41@$43. Ingot Copper in slack demand on the basis of 17 for early delivery.

At the auction sale of 40,000 tons Scranton on Wednesday, March 27, prices ruled a shade higher than in February, ranging from 3.15@3.72½ as against 3.00@3.55 in February.

In the leading kinds of Domestic produce, a fairly active movement has been reported, especially for Breadstuffs and Provisions but at variable prices, closing more firmly especially for prime to choice wheat (Spring and Winter). Export dealings have been to a comparatively liberal aggregate. Further very free purchase of Rye were made for Germany and Holland, largely of supplies yet to arrive. Cotton has been less sought after and quoted weaker. Naval Stores have been in rather more demand and quoted a trifle dearer. Petroleum has been in slack request at drooping rates. Foreign merchandise has been moderately dealt in, and quoted variable as to price.

A fairly active movement has been reported in the way of Ocean freights, but at generally easier rates, closing, however, in some instances rather more firmly. The demand was largely for the Continent. Liverpool steamer rates at the close for Grain, quoted at 6½@6¾d. Flour, at 2s. 9d. Provisions, 25s.@30s; Leather, 50s. Measurement Goods at 20s.@22s. 6d. per ton; Cotton, ¼d. per lb. Liverpool, by sail. Cotton, 7-32@15-64d. Grain at 6¼d.; Flour, 2s. 1½d.; Measurement Goods, 15s. Tobacco 30s.; Oil Cake at 17s. 6d. Grain rates on charter hence for Cork and orders left off at 5s. 4½d.@ 5s. 6d.; for the Continent Grain at 4s. 9d.@5s. 6d. and from Baltimore for Cork and orders, 5s. 9d. and from Philadelphia at 5s. 6d.@5s. 7½d.; and from Portland at 5s. 6d.@5s. 9d. and to the Cape of Good Hope, 40s. per ton and from San Francisco to the United Kingdom at 50s.@57s. 6d. Refined Petroleum hence for Cork and orders, 3s. 9d.@4s. 3d.; for the Continent, 2s. 10½d.@3s. 4½d. and Java at 33ct. and Japan, 45@50cts. and for French ports (crude) at 3s. 6d.@4s. Gibraltar and orders at 4s. 3d.@5s. 3d.; Cotton by sail from New Orleans to Liverpool 13-32@7 16d.; from Galveston, at 15-32d.; Ky. Tobacco from New York to Spain at 32s. 6d.@35s. Naval Stores from Wilmington for Cork and orders at 3s. 9d.@4s. and 5s. 6d.@6s. and from Charleston or Savannah at 3s. 6d.@4s.@5s. 6d.@6s. Lumber from Savannah or Brunswick o the River Platte, $18@19, and Savannah to [illegible] in at $15. Deals from Portland to Glasgow at 72s. 6d., St. John to Liverpool at 63s. 9d.@67. 6d., and Charleston or Savannah to the United Kingdom at 100@110s.; Hewn Timber from Doboy to do., at 35s.@37s. 6d. Savannah to Genoa, Hewn Timber at 39s. and deals at 110s. Of the through freight business reported during the week, were contracts covering shipments from Chicago, of about 400,000 bushels Corn for Glasgow, and about 150,000 to 200,000 bushels do. for Liverpool.

City Passenger R. R. Share and Bond Lists.

We give in this week's issue of the JOURNAL a revised table of Horse Railroad Stocks and Bonds, which will be acceptable to our numerous readers. These securities are becoming daily more and more the favorites of investors. The very existence of railroads in cities indicates prosperity and progress. It is in well-railroaded cities that money is made, and in such cities that a certainty of fair returns and ample dividends is permanent. For instance the Brooklyn City Railroad has for many years given its stockholders 12, 13 and 14 per cent; the Long Island Railroad, which monopolizes the commerce of the whole island, cannot earn interest on its bonds and is in the hands of a receiver! These facts are important to parties buying for investment; it is the same in all parts of the country. The Harlem City Line gives 8 per cent on the whole capital stock of the company ($9,050,000), in addition to the 8 per cent paid as lease rental for the main line. Others of the New York lines are paying handsomely; and those paying apparently small dividends are in reality making large returns on the actual capital invested, the stocks being amply watered. In Philadelphia it is customary to pay dividends on shares, which are seldom paid in full. A company for instance will pay a dividend of $5 on their $50 shares on which 20 per cent only has been paid up. This indicates at first sight a dividend of 10 per cent. In reality it is $10 on every $40 paid up or 25 per cent. In our table we have reduced the dividend quotation to its amount per centum of capital paid up. In one instance this process brings out the fact that the dividends paid in the year amounted to 48 per cent. These are points that investors ought to study before placing their money.

The Coupons Due April 1, 1878,

FROM CONSOLIDATED BONDS

OF THE

Houston & Texas Central Railway

WILL BE PAID BY

JOHN J. CISCO & SON,

59 Wall Street.

CENTRAL RAILROAD COMPANY OF NEW JERSEY.

All parties interested in the stock or bonds of this company, in the bonds of the American Dock and Improvement Company, or of the Lehigh and Wilkesbarre Coal Company, are invited to call and sign the agreement for the equitable adjustment of its affairs.

Copies of the agreement may be obtained, and subscriptions to same will be received, at the office of the railroad company, No. 119 Liberty-st.; at the office of the Receivers of the Lehigh and Wilkesbarre Coal Company, No. 71 Broadway, or at the office of J. S. KENNEDY & CO., No. 41 Cedar-st., New-York.

F. S. LATHROP,
JOHN S. KENNEDY,
JOHN P. JOHNSON,
JACOB VANATTA
GEORGE MANLEY,
} Committee of Detail.

THE LAKE SHORE & MICHIGAN SOUTHERN RAILWAY COMPANY, TREASURER'S OFFICE,
GRAND CENTRAL DEPOT, N. Y., March 25, 1878.

THE TRANSFER BOOKS OF THIS COMPANY will be closed at 3 o'clock P. M., on SATURDAY, the 30th inst., (preparatory to the annual election for Directors, to be held on the 1st day of May next,) and will be reopened on the morning of THURSDAY, the 2d day of May next.

E. D. WORCESTER, Treasurer.

☞ THE COUPONS OF THE FIRST MORTGAGE BONDS of the CENTRAL PACIFIC RAILROAD CO. (SAN JOAQUIN VALLEY BRANCH), and of the LAND BONDS, due April 1, 1878, will be paid at the office of FISK & HATCH, No. 5 Nassau Street. C. P. HUNTINGTON, Vice-President.

☞ THE COUPONS OF THE FIRST MORTGAGE BONDS of the SOUTHERN PACIFIC RAILROAD CO. (of California), due April 1, 1878, will be paid at the office of the Company, Nos. 9 Nassau and 11 Pine Streets, New York.

C. P. HUNTINGTON.

☞ The Westchester and Philadelphia R. R. Co. are putting in their freight depot at Philadelphia a large Railroad Track Scale of Richie Bros. make. This is the fine scale exhibited at the "Centennial," capacity 80,000lbs. with new style Double Beam. This scale is similar to the Richie Scale recently erected at the Washington St. Elevator for the Pennsylvania R. R. Co., also the kind adopted by the Philadelphia and Reading R. R. Co.

Gross Earnings and Cost of Working Railways in Europe.

In a recent number of the Brussels *Moniteur des Interets Materiels*, a very interesting summary is given of the results arrived at by Professor Luigi Bodio, the Head of the Italian General Statistical Office, in an article upon Railway Statistics, which he has lately published in the "Archivio di Statistica." From the summary of our able contemporary we borrow the following details:

The length of railway line opened throughout the entire world was in 1850, 30,000 kils.; in 1860, 106,000 kils.; in 1870, 212,000 kils; and in 1875, 294 000 kils. Out of this—Europe had in 1865, 75,000 kils.; in 1870, 103,000 kils.; and in 1875, 143,000 kils. And it is noticeable that railway development, rapid enough at its first outset becomes greater year by year. Thus from 1850 to 1860 the average increase per year was 7,600 kils.; from 1860 to 1870, the yearly average had risen to 10,600 kils.; from 1870 to 1875 it had grown to 16.400 kils. The average yearly rate of increase for 25 years back is 10,560 kils. Even if this rate of addition remained stationary, by the end of the century there would be some 1,033,000 kils. of railways in operation. But who can say what the future of railways is really likely to be?

Of the existing lines, one-ninth only is worked by the State, and of this ninth one-half is owned by Germany, viz., 15,000 kils. The United States alone own 119,352 kils. of lines, or almost as much as the whole of Europe. Everyone knows with what surprising rapidity railways have sprung up in that land of enterprise and colossal undertakings; but what has never been imitated elsewhere is the daring with which the Americans construct lines under conditions from which other nations would shrink a hundred times over. And not only that, but even under these trying conditions the 119,000 kils. of American lines have cost but £800,000,000, while the European system, which is very little more extensive, has cost nearly £1,600,000,000, or about double. But, on the other hand, there is no doubt that we have gained much greater security by this more extensive expenditure. European public opinion would never stand the recurrence of the frequent and frightful accidents which are so common in the United States as to be taken almost as a matter of course. At the same time the enormous distance run by American through trains have enabled the Americans to make arrangements for the comfort of the passengers and the facility of journeying and of the despatch of goods, which are as yet unequalled and unrivalled in the railway world—more's the pity.

Professor Bodio finds that the cost per kilometre of railway lines, including the cost of construction, of the rolling stock, and of accessories of all kinds, is constantly on the increase. Thus in Austro Hungary it was 166,000frs. in 1850, and 327,000frs. in 1873; in Germany it was 218,000frs. in 1865, and 314,000frs. in 1875; in Belgium it was 267,000frs. in 1865, and 284,000frs. in 1870; in France it was 402,000frs. in 1855, and 461,000frs. in 1875; and in Great Britain it has likewise risen from 564,000frs. to 588,000frs. This increased cost is attributed to the adoption of more perfect and complicated, and therefore more costly, methods of construction and equipment; and to the continually enhanced dearness of materials and labor.

Taking as the bases of calculation the statistics of 1875 for Italy and Great Britain, of 1873 for Belgium, Germany, Sweden, Norway and Austria of 1872 for Russia and Spain, and 1869 for France, and leaving out of consideration Greece, Turkey in Europe, Switzerland, Holland and Hungary, it seems that 945,869,149 passengers were carried in Europe in one year, and 491,105,186 tons of goods.

As to the financial results of European railway traffic, the following list shows the essential figures, the dates in brackets denoting the years upon the statistics for which the conclusions are based:

Countries.	Per kilometre. Gross receipts. Francs.	Working expenses. Francs.		Proportionate percentage Francs.
Italy (1875)	19,591	12,173	(Companies)	62.18
France (1875)	43,302	....	(Cos.) (1869)	54 59
Belgium (Companies) (1873)	26,916	16,488		61.25
(State) (1874)	45,570	31,189	(1873)	72.95
Holland (1874)	21,675	14,129		65.20
Switzerland (1874)	31,057	....	(Cos.) (1868)	48.22
Russia (1875)	26,227	....	(Cos.) (1873)	57.98
Sweden (Companies and State) (1873)	12,455	6,472	(Cos.& State)	51.96
			(State)	52.82
Norway (1873)	9,329	6,268	(State)	67.18
Denmark (Companies) (1874)	20,690	9,689		46.80
(State) (1874)	9,654	6,688		68.60
Great Britain and Ireland (1875)	57,117	30,986	(Companies)	54.00
Germany (State) (1873)	40,181	26,640		66.30
(Cos. worked by State) (1873)	53,610	31,207		58.21
(Companies) (1873)	37,612	21,881		58.18
(Total) (1874)	40,889	24 296		59.42
Prussia (State) (1874)	48,169	36,386		75.50
(Cos. worked by State) (1874)	56,817	38,775		68.90
(Companies) (1874)	40,691	27,019		66.40
Spain (1872)	18,276	7.775	(Companies)	42.54
Portugal (1874)	17,740	7,150		40.30

It will be noticed that wherever the comparison is made in this list the proportion borne by the working expenses to the gross receipts, or what is called the co-efficient of working expenses, is invariably higher in the case of lines owned or worked by the State than in that of lines owned and worked by private companies. This would seem to prove that State management is more expensive than private management. But this must not be taken for more than it is worth. In order to institute a strictly just comparison, the tariffs, the number of trains, their speed, the excellence of the service, the gradients of the lines, every single condition, in fact, in the remotest degree affecting the question, ought to be identical in both cases—and as this cannot possibly be obtained, all that this list proves is that State management costs more proportionately to the receipts than private management, not that State management is necessarily in itself more costly, perhaps, with regard to the better accommodation furnished to the public. It may or may not be so: the figures only show the abstract, and not the relative result.

In Prussia, during the decade 1864-74, the co-efficient of working expenses rose, in the case of the State lines, from 39⅛ per cent to 62 per cent; whereas in the case of the private lines the increase has been only from 40.3 per cent to 55.8 per cent. And yet the respective tariffs have remained the same in either case, or have varied in a similar degree.

We give these statistics as having been drawn up by one of the most eminent men of the day in this particular branch of statistical science; but even he confesses that the difficulties in the way of instituting any fair or reliable comparison between the railway statistics of various countries are so enormous as to be almost insurmountable.

Philadelphia and Reading Railroad.

The following is a comparative statement of the gross receipts, tonnage and passengers of the Philadelphia and Reading Railroad Company for the month of February, 1877 and 1878, and for the three months of the fiscal years ending with February in each of the years named:

Gross receipts:	1878. Month.	Year to date.
Railroad traffic	$482,238 89	$2,299,441 64
Canal traffic	571 05	17,707 64
Steam colliers	42,600 65	168,866 95
Richmond coal barges	....	17,877 86
Total Railroad Co.	$525,410 09	$2,503,894 09
Reading Coal and Iron Co	319,060 35	1,479,063 35
Total of all	$844,470 44	$3,982,457 44
Tonnage and passengers:		
Tons of coal on railroad	178,462 01	1,052,512 15
Tons of merchandise	237,282 13	714,784 08
Passengers carried	399,057	1,462,683
Coal transported by steam colliers	44,114 00	141,618 00
Tons of coal mined:		
By Coal and Iron Co.	65,680 18	524,445 07
By tenants	28,047 01	173,133 07
Total mined from lands owned and controlled by Co. and from leasehold estates	93,727 19	697,578 14

Gross receipts:	1877. Month.	Year to date.
Railroad traffic	$673,035 62	$2,177,871 74
Canal traffic	372 50	8,626 45
Steam colliers	66,565 13	175,293 21
Richmond coal barges	70 00	5,371 28
Total Railroad Co.	$740,043 25	$2,367,162 68
Reading Coal & I. Co.	475,956 52	1,380,645 57
Total of all	$1,215,999 77	$3,747,808 25
Tonnage and passengers:		
Tons of coal on railroad	821,655 12	1,083,435 16
Tons of merchandise	229.657 07	736 467 18
Passengers carried	430,853	1,056,976
Coal transported by steam colliers	52,693 00	111,247 00
Tons of coal mined:		
By Coal and Iron Co.	133,114 00	477,607 19
By tenants	54,005 11	212,871 07
Total mined from lands owned and controlled by Co. and from leasehold estates	187,119 11	690,479 06

The Reading Railroad having voluntarily suspended the production of coal to a great extent during February, in order to increase their allotment hereafter, when coal prices are higher, the result is seen in a decline of $371,529 in the gross receipts during February when compared with the corresponding month last year. This decline, though large, is not so great as was anticipated when the month opened, and the business of the current year has been so much heavier than last year that, notwithstanding the February reduction, it shows an increase for the three months that have passed of $234,649 in money, though the railway traffic has not been quite so large in passengers, freight or coal as for the corresponding period of 1876-7. The output of coal from the company's land has been for the three months 697,578 tons, about 7,000 tons more than for the corresponding period of 1876-7. The important fact developed by the above figures is that the

company is receiving somewhat more pay now than it did last year for the traffic over the road.

The Interest of Philadelphia in the Pennsylvania Railroad.

The original appropriation to the stock of the Pennsylvania Railroad Company by the city of Philadelphia and districts was as follows:

City	80,000
Spring Garden	10,000
Northern Liberties	10,000
Total shares	100,000
Shares of stock issued on account of dividends and privileges of subscriptions as follows:	
City	32,096
Spring Garden	4,127
Northern Liberties	4,332
	140,555
Shares of stock sold:	
City	79,406
Spring Garden	2,000
	81,406
Balance	59,149
Still to credit of city, viz:	
City	32,690
Spring Garden	12,127
Northern Liberties	14,332
	59,149
Amount received from sale of stock:	
City	$4,610,153
Spring Garden	135,500
	$4,749,653
Amount received from dividends:	
City	$6,282,815
Spring Garden	1,050,598
Northern Liberties	1,219,881
	8 553,394
Total amount realized by City and Districts on this stock	$13,303,047
Amount of interest on their investment at 6 per cent would be	$5,311,000
Cost of stock at par	5,000,000
	10,311,000
	$2,992,047

They have made $300,000 profit (over 6 per cent.), and have 59,149 shares costing nothing.

The Varied Quality of Oils.

BY F. S. PHASE, OF BUFFALO, N. Y.

The general division of these greasy substances is that of fat and fixed. They are, however, entirely dissimilar, both in properties and composition; indeed, except in the one common property, they are entirely unallied to each other. Oils are found abundantly in the vegetable, animal and mineral kingdoms. In the former they occur in parts of the plant, principally in the cellular structures, in the fleshy pulp surrounding the seeds, and, very rarely, the roots. They are contained in that part of the seed which gives birth to the cotyledons, and not in the plumular or radicle. In the olive tree only the oil is contained in the fleshy integuments of the fruit. In animals, fats are contained chiefly in the cellular membrane and for the most part immediately beneath the skin. In the whale species, the bony cavity of the head is the depository of the secreted spermaceti. The mineral, a composition of vegetable organisms, generally marine plants, reduced to a pulp and mingled with argillaceous mud before deposition, is pumped from the earth. The combined action of heat upon vegetable and animal oils has a very remarkable effect. At about 500° they assume a darker color and evolve acid together with offensive vapors, and when further heated eliminate cabonic acid and carbide of hydrogen gases, accompanied by a peculiarly irritating substance termed acroleum, also margaric and sibacic acids, and liquid carbides of hydrogen. In hydrocarbon oils the tendency of heat is evaporation at a low temperature of the condensed vapors. The point at which these alterations take place has been improperly said to be the boiling point, the phenomenon of apparent ebullition arising from the escape of the gases produced by the decomposition of the oil.

Oils must be adapted for the use for which they are intended, and the amount of friction to be overcome. An oil to meet all the conditions must be made with some knowledge of its component parts, for the oil that lubricates a slide or eccentric may be entirely decomposed under steam heat or heavy pressure. Another, applied in a constant stream may prove a dead failure when left to feed by capillary attraction, or one applied to the heavy rolling friction, be ill adapted to lighter and more speedy bearings. While another, that will run a spindle at ten thousand revolutions may lack tenacity to separate the friction surface of an axle. There seems to prevail a general impression that different grades of oils must be used for different points of friction, and that the cheapest and poorest is good enough for the common car, a better article for passenger coaches and the engine. This is practically and scientifically wrong, and is, together with inferior iron, brasses and waste, the key to hot boxes and the general wholesale destruction of railway rolling stock of the country. That an oil can be compounded to run all kinds of machinery is illustrated by the fact that at the late Centennial Exhibition over two and one-half miles of shafting (main and counter) and over ten thousand bearings were run for one-half year with the Improved Engine Oil of my manufacture, without one warm bearing or single failure.

Oils should be thick for heavy bearings that they may resist being forced out, and thin for light bearings that their viscidity may not add to the resistance. Oils to lubricate under all circumstances must have tenacity as well as cooling properties, should stand a high heat without change, should not be volatile or made by distillation, should not show any acid reaction, otherwise heating and cutting will be produced; and it makes but little difference whether the heat is immediate, as in the steam chest, or slow and long continued, as on the crank pin or slide, the ultimate effect is the same. All practical mechanics understand the necessity of keeping their machinery in the best repair to accomplish timely results; that lubrication must correspond with the amount of friction to be overcome, and it is contrary to progressive science to suppose that friction can be allayed by oiling journals or bearings with compounds that will not stand the amount of heat that will be generated upon them by motion; also that machinery can be kept in running order when chemical compounds are applied that will crystallize and oxidize the iron with which they come in contact, and either destroy journals and boxes or reduce their strength to such a degree that the least excess of force breaks them.

When substances are composed of only three elements—carbon, hydrogen and oxygen—or mainly made up of these three, the nature of the change on the application of heat depends on the ratio which the oxygen and hydrogen bear to each other. At low heat the oxygen prefers to unite with the hydrogen rather than with the carbon. At high temperature the affinity of oxygen for carbon is most powerful, and more of the oxides of carbon and carbonic oxides are found; under this can be classed every hydro carbon oil made by destructive distillation, for under the action of heat the carbonic oxides penetrate the heated metal and are decomposed.

The lives of thousands of people are daily endangered by the heating and cooling of the journals on our railroads, and in these days of increased speed and competition, it is a matter of so much importance that all questions of inconvenience and embarrassment to the public will receive practical consideration.

The Freight Apportionment Scheme.

For the information of the Western connections a circular has been issued by the executive committee of the trunk lines, and signed by G. R. Blanchard for the Erie railway, John King, Jr., for Baltimore and Ohio railroad, A. J. Cassatt for Pennsylvania railroad, and J. H. Rutter for the New York Central railroad, and dated New York, March 19. The circular says:

"It is the intention of the trunk lines to carry out the divisions of the West bound freight, which the connections have already made, or which they may hereafter make, and in case the said connections cannot agree, the committee request that the subject be submitted to arbitration as the only mode in which the questions can finally be settled. In case no division is agreed upon and no arbitration made, they have directed the commissioner of the trunk lines to make such division until a final agreement is made. This being the case, it will occur to the Western connections that they cannot increase their business by cutting rates, giving passes, or using other means to induce freight over their roads. They can rely upon receiving their proportion, as above ascertained, so that the payment of rebates and use of passes will only be a loss."

Following this circular, instructions were issued by Commissioner Fink to the trunk line managers that freight consigned to Missouri river points by way of the Wabash, Chicago, Burlington and Quincy, Chicago and Alton, and Chicago, Rock Island and Pacific railroads should be diverted to the Vandalia and the Indianapolis and St. Louis lines.

Canada Southern Railway.

The financial condition of this company has for some time been about as unsatisfactory as possible. At one time, the employes were paid a composition, and at another certain creditors found themselves obliged to take bonds in payment. It was time that some new financial basis should be found; and a bill before the Dominion Legislature is intended to supply this want. It authorizes the issue of $14,000,000 of new bonds to replace the first and second bonds now outstanding; also, with the consent of the holders, if it can be obtained, the bonds of the Erie and Niagara Co., and of certain American railways which form the Western connections of the Canada Southern. The exchange of the Canada Southern bonds is to be effected on the consent of three-fourths of the present holders, more than which has already been obtained. It is believed the holders of the bonds of the other roads will also give their consent. The issue of bonds, to bear interest from the 1st of January, 1878, is to be guaranteed by the New York Central and Hudson River Railway Co., at the rate of three per cent for the first three years and five per cent for the succeeding seventeen years. The rate of interest on the original bonds was seven per cent; but arrears were allowed to accumulate to between three and four million dollars which the bondholders now consent to forego. The vitality of the measure is to depend on this guarantee of the new bonds being obtained; for the Act will not

go into effect till this agreement has been legally ratified by the shareholders interested. Besides the proportion necessary for effecting the proposed exchange, there will be a balance of new bonds which will be applied to equipment. No doubt in view of what has happened before, an amendment to the original draft of the bill has been made in the Legislature, providing that certain floating debts of the Canada Southern be paid out of the contemplated new issue; but excluding others in the form of interest on bonds.—*Monetary Times.*

☞ The following gentlemen have been appointed Government Directors of the Union Pacific Railroad Company: Charles Francis Adams, Jr., of Massachusetts; Ralph P. Buckland, of Ohio; Daniel Chadwick, of Connecticut; W. Smythe, of Iowa, and C. C. Hosel, of Nebraska.

☞ The Zanesville and Pomeroy Narrow Gauge Railroad has come to a full stop, the people having failed to take stock enough to insure its success.

The Alden Crusher.

New in Principle, Simple in Construction, Economical in Use of Power, and of Remarkable Efficiency.

FOR BREAKING STONE FOR
BALLASTING RAILROADS,
McAdamizing Streets,
AND FOR
CRUSHING AND PULVERIZING
ORES OF ALL KINDS,
NO LOST MOTION, ADJUSTABLE, DURABLE, PORTABLE.

SEND FOR ILLUSTRATED CIRCULAR.

113 Liberty Street, New York.

Can I Obtain a Patent?
This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *forms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

The Coal Trade.

For the week ending the 16th instant, the total anthracite production, as reported by the several carrying companies, amounted to 94,242 tons, against 288,771 tons in corresponding week last year a decrease of 194,529 tons. The total amount of anthracite mined for the coal year is 2,843,956 tons, against 2,725,944 tons for same period last year, a decrease of 381,988 tons. The quantity of bituminous coal sent to market for the week amounted to 36,946 tons, against 40,733 tons in corresponding week last year, a decrease of 3,787 tons. The total amount of bituminous mined for the year is 356,207 tons, against 531,295 tons for corresponding period last year, a decrease of 175,088 tons. The total tonnage of all kinds of coal for the week is 131,188 tons, against 329,504 tons in corresponding week last year, a decrease of 198,316 tons. The total tonnage of all kinds of coal for the coal year is 2,700,163 tons, against 3,257,239 to same date last year, a decrease of 557,076 tons. The receipts at Perth Amboy for the week ending on the 16th instant were 5232 tons, the shipments 7,845 tons, leaving a stock on hand of 90,446 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the second week of March was 89,873 tons, of which 73,473 tons were coal, and 16,400 tons coke. The total carried for the year is 857,288 tons, of which 667,692 tons were coal and 189,596 tons coke. These figures embrace all the coal carried over the road, east and west.—*Phila. Ledger, March* 25.

Locomotives without Steam.

The London papers publish an account of what is known as the Walker substitute for coal in the generation of steam for locomotives or marine engines. This plan, it appears, covers an arrangement by which air is converted into hydro-carbon gas of great heating power, and is then stored in a chamber subjected to considerable pressure. From this it is forced out again, through a pipe, to the perforated tubes, from which combustion takes place in the furnace and by burning hydro-carbons—with the gas—in a gaseous or much divided state, without the adjunct of external heat to gasify or divide them. The heavy oils, in this divided or gasified state, burn over the grate in conjunction with the hydro-carbon gas. The principle, as thus explained, is regarded as of extreme simplicity, and the practical arrangements are said to be equally so, insuring a certainty of operation, and, in fact, reducing the question of preference to one of cost and convenience merely. The comparison for storage-room and economy, in this case is shown in the following data, namely: that if the calorific power of coal per pound be estimated at 8000 calorific units, then that of liquid hydrocarbon per pound must be taken at 13,000 units, which gives an advantage, weight for weight, of 62½ in heating power, to a liquid hydrocarbon, compared with coal. Again, in the combustion of coal, as carried out in the usual construction of boilers and fire grates, only a small proportion of the heat theoretically developed can be made use of, while by the use of burning gas and hydrocarbon, in a gaseous form, close home to the heating surfaces, it is claimed that a much greater percentage of useful evaporation is secured.—*Coal Trade Journal.*

Coal Mining for 1877.

The Pottsville Chronicle furnishes the following interesting statistics of coal mining for 1877, gleaned from the mines inspectors' report, which will shortly be issued in book form at Harrisburg:

The production at this district footed 1,570,780 tons, to mine which 6,847 men and boys were employed, giving each an annual average of 270 tons. In mining 54,000 tons of coal one life was lost, or in all twenty-nine, while one person was injured to every 15,151 tons of coal mined, making a total of one hundred and eleven injured. The Shamokin district employing 10,857 men, produced 3,805,467 tons of coal, with a loss of twenty-nine lives and fifty-eight persons injured, while the Shenandoah district employing 10,857 employes, produced 3,471,562 tons of coal. Twenty-eight miners were killed in this district and sixty-eight injured. The Pottsville district was more unfortunate, as far as killing or maiming men is concerned, than any of the others, taking the amount of coal produced into consideration.

☞ The Ohio Central Railroad is to be sold on the 30th inst. at Bucyrus, Ohio.

ESTABLISHED IN 1836.
GEO. G. LOBDELL, Pres't.
WM. W. LOBDELL, Sec.

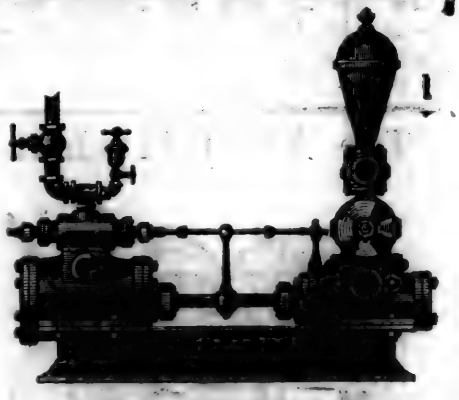
RAILROAD IRON.
THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality American or Welsh, Steel or Iron Rails, and of any required weight and pattern.
PERKINS, LIVINGSTON, POST & Co.,
93 Nassau Street,
NEW YORK.

EDWARD W. SERRELL,
CIVIL ENGINEER,
78 & 80 BROADWAY,
NEW YORK CITY.
Railroads, Bridges, Explorations.
☞ Particular attention given to the Examination of Public Works for Capitalists seeking Investments.

PATENTS.
T. D. STETSON,
Solicitor of American and Foreign Patents.
23 Murray Street, New York,
(Near New Post Office.)
Send for circular.



R. Stuart Willis,
ATTORNEY & COUNSELOR AT LAW.
NOTARY PUBLIC.
241 Broadway, New York.
Special attention paid to Railroad, Mining and Manufacturing Interests.

THE ALMOND CHUCK

Is the BEST, most Elegant and Durable, simple and cheapest Chuck in the market. Thoroughly well made.
All Steel. Price $5.
T. R. ALMOND,
84 Pearl St., Brooklyn, N. Y.

SELF-OILING
CAR AXLE BOX.
No Waste of Oil. No hot journals. 60,000 miles run without re-oiling. Also
SHAFTING BOXES.
Call and examine boxes and certificates, or send for descriptive circular. J. B. TOMLINSON,
80 & 82 White St., New York.
Or, MARSHAL B. STAFFORD,
JAMES H. COVEL,
93 Liberty Street, New York.
☞ Trial Box furnished free on application.

LENG & OGDEN,
IRON & STEEL
MERCHANTS,
4 Fletcher and 212 Pearl Streets,
NEW YORK.
GENERAL AGENTS FOR
Lansdell & Leng's Lever and Cam Valves, for water, steam, gas, etc.
The Steam Water Station Company's Lansdell's Patent Steam Syphon Pumps.
Credenda Steel Gun Barrels, Moulds, etc.
Patent Weldless Cold Drawn Steel Tube Company.
Marsh Brothers & Co.'s Cast Steel, German Steel, Machinery Steel, Files, etc.

STEAM PUMPS.

IMPROVED NIAGARA STEAM PUMP.
Marine Steam Engines. Stationary Steam Engines Marine and Stationary Boilers. Hydraulic Elevators for Buildings. Pulleys, Shafting and Hangers a specialty.

American Railroad Journal.

New York, Saturday, April 6, 1878.

Michigan Central Railroad.

At a meeting of the directors of the Michigan Central Railroad Company, held in this city on the 2d inst., a dividend of two per cent on the capital stock was declared payable on the 1st of June. The transfer books will close on the 15th of May, both for the dividend and for the annual election to be held the 4th week in June. The last dividend paid by this company was four per cent in stock, January, 1873. The large floating debt incurred by the former management in the extension of the company's branch lines has been paid off under Mr. Sloan's administration, and there will be a surplus in hand after paying the dividend. The road is now completely laid with steel rails, 3,000 tons of which were laid in 1877 and charged to expense account. The equipment and rolling stock are in excellent order and equal to any demands of business; the general condition of the property being much improved during 1877. Dexter Richards, of Concord, N. H., was elected to fill the place of J. V. Barron, deceased, of that place.

Chesapeake and Ohio Railroad.

The Chesapeake and Ohio Railroad was sold at auction at Richmond, Va., on the 2d inst., for $2,750,000. It was bought by A. S. Hatch, of New York, as Chairman of the Committee of Purchase and Reorganization, consisting of A. S. Hatch, C. P. Huntington, A. A. Low and John Castree, of New York, and Isaac Davenport, of Richmond, for themselves and others. The purchase was made in pursuance of a plan of reorganization in which over nine-tenths of the bondholders under Chesapeake and Ohio mortgages united. As the privilege of joining in the purchase will probably still be extended to the remainder, participation in it by such bondholders will be practically unanimous. The amount for which the property was sold is more than sufficient to cover the bonds of the Virginia Central Railroad Company outstanding, with the past due interest on the same, the expenses of foreclosure, etc., and all claims having priority of the 6 and 7 per cent bonds of the Chesapeake and Ohio Railroad Company, the amount of such prior liens being understood to be about $2,000,000.

Pittsburg, Wheeling and Kentucky R. R.

The annual meeting of the stockholders of the Pittsburg, Wheeling and Kentucky Railroad Company was held in Wheeling, West Virginia, on the 28th ult. The meeting was organized by the selection of John Frew as Chairman and Thomas D. Messler, Secretary, after which Hon. C. D. Hubbard read his report as President of the company. The Engineer's report says that the total cost of construction to date was $190,234 22, or an excess of $10,234 22 over the estimated cost and the proceeds of the bonds issued. The reports presented were approved, after which an election for directors was held, with the following result: Hon. C. D. Hubbard, President; M. Reilly, H. G. Lazear, Wm. Thaw, John McLure. After the adjournment of the meeting the board effected an organization, and elected J. M. Belleville, Secretary at Wheeling, John M. Harding, Assistant Secretary at Pittsburgh, and W. H. Barnes, of Pittsburgh, Treasurer. Among other business transacted at the meeting was the transfer to the stockholders of the company, by W. K. Pendleton, of all the right, title and interest of Brooke county in the stock of the road. This was done in pursuance of the vote of Brooke county prior to the reorganization of the company.

Maine Central Railroad.

At the annual meeting of the stockholders of the Maine Central Railroad Company, held at Augusta, Me., on the 27th ult., the following gentlemen were elected directors: Abner Coburn of Skowhegan, Darius Alden of Augusta, John B. Brown of Portland, Arthur Sewall of Bath, William G. Davis of Portland, Alfred P. Rockwell of Boston, George S. Morison of New York, George P. King of Boston, George E. B. Jackson of Portland, William B. Bacon of Boston and Willard P. Phillips of Salem, Mass. The report of the directors, which was presented, shows the gross earnings of the road during the year ending December 31, 1877, to have been $1,654,237, the ordinary working expenses $1,003,538 05, and the net earnings $650,698 95; from which deduct interest and rents, $603,519 41—leaving as net receipts, $47,179 54. The floating debt has been paid, amounting to $938,920 32, together with Somerset bonds of $98,100. The road has been kept in good repair, rolling stock added, new bridges and station houses built. On account of the general depression of business the earnings have decreased as well as the running expenses.

Joliet and Northern Indiana Railroad.

At a meeting of the bondholders of the Joliet and Northern Indiana Railroad Company, held at the office of the Messrs. J. S. Kennedy & Co., in this city, on the 30th ult., Mr. John S. Barnes, on behalf of the committee, submitted a proposition made by the Michigan Central Railroad Company for the Joliet and Northern Indiana Railroad Company, for an exchange of Joliet and Northern Indiana Railroad eight per cent bonds for new Joliet and Northern Indiana seven per cent mortgage bonds, the principal and interest to be guaranteed by the Michigan Central Railroad Company. The proposition was immediately accepted by the bondholders, and a committee appointed to receive the old bonds on behalf of the bondholders

present, the Joliet and Northern Indiana Company defraying the expenses already incurred in litigation. Mr. Charles Moran occupied the chair, and those present represented $300,000 in bonds.

Pennsylvania Railroad.

We give below that portion of the Report of the President and Directors of the Pennsylvania Rail road Company relating to the creation of a trust, having for its object the purchase from time to time of the bonds and shares of other companies which are guaranteed by the Pennsylvania Railroad Company, and also of the bonded debt of the Pennsylvania Company, the adoption of which was recommended in the majority report of the committee appointed under the resolution of March 12th to make inquiry thereto, and which was approved by the adoption of a resolution to that effect at the annual meeting of the stockholders held on the 26th by a vote of 375,259 out of a total of 481,244 cast:

Your board have from time to time considered the subject of a readjustment of all the liabilities of the company on a lower basis of interest, and of devising a plan for effecting it in a safe and permanent form that will enable your lines to meet the general interests of the country through moderate rates of transportation. The fact that the rate of interest on capital invested in new enterprises is being steadily reduced in this country, and the still broader fact that the permanent charges for use of capital in the future will, in the judgment of your board, rule much below the rates that have prevailed in the past and that now measure the fixed charges of your own and most of the other lines of the country, present to the minds of your directors strong reasons why the process of a gradual and steady reduction of these liabilities should now be commenced, and be persevered in so that your financial position will be made very strong and your securities be free from the violent fluctuations that are caused from time to time by the vicious policy inaugurated by other interests upon competitive business. Your company will thus be enabled to handle that traffic at such rates as will always command for your lines a large and increasing business, and make them useful and valuable in the highest degree as transporters, and of increasing value to your shareholders. This important matter has received their earnest attention, and they are of the opinion that this can be effected by the adoption of the following general plan, through which they believe the best interests of the shareholders will be permanently protected and promoted.

That there shall be appropriated from the net earnings of the company the sum of $100,000 per month, commencing May 1, 1878, which sum shall be deposited in a satisfactory trust company in the City of Philadelphia, if arrangements can so be made which will be approved by the board, with which shall be associated two competent and responsible shareholders, as Trustees under a special trust, having for its object the purchase from time to time of the bonds and shares of other companies, which are guaranteed by the Pennsylvania Railroad Company, and also the bonded debt of the Pennsylvania Company, except that portion of the Pennsylvania Company's bonded debt the retirement of which is already provided for by the special trust of that company hereinbefore stated.

The purpose being to ultimately reduce all the liabilities above referred to, the trust to be in such form as your Board of Directors, under the advice of competent counsel, may find to be best adapted to protect and promote the interests of the stockholders.

For the amount of $1,200,000 per annum so appropriated from the net earnings to the trust, and such portion of the sum that may be expended annually for construction and equipment purposes as will complete the amount of 2 per cent per annum upon your capital stock, to wit, $177,404, the shareholders to be entitled to receive annually scrip equivalent to a dividend of $1 per share, redeemable at the option of the company, bearing interest at 4 per cent per annum, payable semi-annually, and in addition thereto the balance of the net earnings in cash.

The income of the trust to be applied—

1st. To the necessary expenses of the trust.

2d. To the payment of interest upon the scrip so issued to the shareholders; and

3d. To the purchase from time to time of the outstanding guaranteed and other obligations as before stated.

The principal sum of the entire fixed obligations of your company upon leased lines and guaranteed securities, covering 3,405 miles of well located railway lines and 408 miles of canal that are valuable to your own works, may be stated as follows:

United New Jersey Railroad and Canal Company, including all companies in which it was concerned as a guarantor.....	$47,205,675 00	
Pennsylvania Railroad Co.—		
All lines east of Pittsburg and Erie	35,450,266 66	
All lines west of Pittsburg & Erie	95,360,351 45	
	$178,016,293 11	
Bonded indebtedness of the Pennsylvania Company	7,000,000 00	
	$185,016,293 11	
Deduct amount of bonds redeemed and in sinking fund.....	4,500,000 00	
The balance of these fixed liabilities is.....	$180,516,293 11	
The average annual interest and guarantee thereon is 7 4-10 per cent or, in round numbers.....	$13,400,000 00	
To meet this obligation, the net earnings for 1877 from the Western lines were...	$7,269,557 09	
From all lines east of Pittsburg and Erie, after paying interest on the debt of the Pennsylvania Railroad Company, & rental of its branch lines worked at their cost for the same period.....	10,844,833 19	
	18,114,390 28	
Leaving a surplus based upon the earnings of 1877.....	$4,714,390 28	

to meet the installments to the proposed trust, incidental liabilities of the various companies, and cash dividends upon the capital stock of the Pennsylvania Railroad Company.

If the general plan proposed by the board shall be approved by the shareholders, it would ultimately result in the practical ownership of all of the leased lines, or their assets and guaranteed liabilities, and as the scrip or debenture issued, bearing 4 per cent interest, would be redeemable at the option of the company, it would be released from the necessity of raising large sums of money to meet maturing indebtedness. If the same plan were further continued, after the liabilities above stated had been so reduced to a 4 per cent basis, the company could also reduce its own bonded debt to the same basis, and if this is done it would then be enabled by the same, or even a less contribution to the fund, to pay off the scrip indebtedness which it had created, and the final result would be, that all your property would be held by you practically free from bonded debt and liabilities and would embrace 3,913 miles of well equipped railway and 408 miles of canal, controlling a large traffic, and upon which it ought always to earn for you reliable dividends. The company would be greatly relieved through the operations of the trust, and the net earnings over the 2 per cent represented by the scrip could be devoted each six months to cash dividends to the shareholders. Should it be deemed advisable during the operation of this trust, it is believed that the improved financial condition of this company might enable it to place the amount of its present bonded debt at a greatly reduced rate of interest.
